This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

MESSAGE FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, January 14, 1873.

To the Honorable the Common Council:

GENTLEMEN—In compliance with custom I beg to lay before your honorable body a statement of city affairs, and to make such suggestions and recommendations as seem to me to be called for at the present time.

FINANCES.

The following is an exhibit of the city finances:

The bonded debt of the city was on the 1st day of January, 1873, as follows:

Market bonds due at the option of the Council	$ 400
Redemption bonds due 1873	22,000
Redemption bonds due 1875	45,000
Redemption bonds due 1878	50,000
Redemption bonds due 1879	90,000
House of Correction bonds due 1879	40,000
House of Correction bonds due 1881	24,000
City Hall bonds due 1886	80,000
City Hall bonds due 1888	146,000
City Hall bonds due 1889	200,000
City Hall bonds due 1890	100,000
City Hall bonds due 1891	50,000
City Hall bonds due 1892	24,000
Public sewer bonds due 1892	80,000
Total	$ 901 400
Deduct House of Correction bonds due 1871 in the Sinking Fund	24,000
Total bonded debt	$877,400

It will be observed that the greater portion of the entire debt is for the City Hall and House of Correction bonds.

There has been paid of the public debt during the past year the sum of $16,500, and new bonds to the amount of $80,000 have been issued for the building of the two large public sewers, making an increase of $63,500 in the debt of the city.

There will become due during the present year redemption bonds issued in 1853 to the amount of $22,000.

Digitized by Google

There is in the Sinking Fund at the present time to meet this and future payments:

House of Correction bonds	$94,000 00
Street Paving bonds	29,578 57
Credit balance	463 76
Total	$54,042 33

The bonds of the House of Correction pay an interest to the Sinking Fund of 7 per cent., as do also the street paving bonds. These latter bonds have been purchased by the Controller under the direction of the Commissioners, and thus a large amount has been added to this fund. These bonds are in the custody of the City Treasurer, as required by ordinance. At the close of the fiscal year the usual transfers will be made to this fund, which, with its annual appropriations, fixed by law, will increase the amount to $70,000.

The Sinking Fund, with its annual revenues, invested carefully, will be sufficient to pay off the entire indebtedness of the city as it becomes due.

The amount of cash on hand January 1st, 1873, was	$95,290 02
Receipts during the year	1,199,311 02
	$1,294,601 04
Disbursements during the year	1,173,895 04
Balance in treasury January 1st, 1873	$120,706 00

There has been collected of the tax levy of 1872, $974,188 92, leaving uncollected $119,419 36, the greatest portion of which will be paid by the 1st of June proximo.

There have been issued during the past year street paving bonds to the amount of $18,055 58, the payment of which is provided for by special assessments as they fall due, and all those falling due in 1872 have been promptly paid.

The Commissioners of the Sinking Fund hold of the street paving bonds falling due in 1873-4-5 (including those held by the Sinking Fund proper) $119,074 14

The credit of the city stands high, its bonds commanding a premium wherever offered in the market.

There remains uncollected for the years from 1861 to 1870 inclusive, of the tax on personal property $44,221 74, which is generally lost, owing to the lapse of time allowed for its collection. This uncollected amount, being divided proportionately to the credit of the various regular funds, gives to these funds false credit balances. The amount is increasing from year to year, and I would therefore recommend to your honorable body the propriety of some legislation upon this matter which will remedy the evil.

The following is a statement of the condition of the various regular funds of the city on the 1st inst., except the Public Sewer Fund, which is up to the 6th inst.

Sinking Fund	$54,969 33
Interest Fund	18,366 36
General Fund	7,807 19
Contingent Fund	17,648 06
City Poor Fund	5,068 20
Public Sewer Fund	42,581 40
General Sewer Fund	4,759 04
New City Hall Fund	604 73
Public Building Fund	5,965 00
Street Opening Fund	1,386 58
Park Improvement Fund	990 22
Recorder's Court Fund	6,506 95
City Pound (W. D.) Fund	530 13
City Pound (E. D.) Fund	337 59
General Road fund	15,711 88
Road District No. 1	518 94
Road District No. 2	363 45
Road District No. 3	252 02
Road District No 4	608 04
Road District No. 5	521 91
Road District No. 6	183 24

EDUCATION.

Our public schools have not only sustained their reputation, but have made steady and gratifying progress during the year now closed. The Jefferson and Pitcher school-houses have been finished and furnished, and the board have purchased two good sites for school-houses in the Ninth, and one in the Tenth Ward.

The Board of Education are entirely out of debt, and the present valuation of the school property is $545,000.

The whole number of different names enrolled as pupils during the year is 11,764. The number of teachers is 177, and the vigilant and progressive Superintendent, who is ever to be found at his post enthusiastically engaged at his arduous labors, merits our sincere esteem. I submit for your consideration that, were the Board of Education reduced in numbers, either elected or appointed for longer terms than at present, that they by longer experience, would become more proficient in their duties, and the board, as a whole, be better adapted to its great responsibility.

WATER WORKS.

The present indebtedness of the City Water Works is $900,000, and the growing demand for expenditures point to no way of liquidating it short of direct taxation, but the often expressed willingness of our citizens to pay the interest is a sure guarantee against all false economy in this prime necessity.

The Water Works are in first-rate working order, and may be faithfully relied upon to supply the city for some time to come; and whatever be the opinion of cynics or panic makers to the contrary, the truth is indisputable, that the Detroit City Water Works are to day capable of pumping by one engine in nine minutes a quantity of water equal to all that can ordinarily be thrown in an hour by the whole force of the present Fire Department.

The Water Commission, after 30 years' trial, needs no eulogy at my hands. That the members thereof have served the city well and efficiently without compensation is the best argument in favor of its continuance, and whatever loss the city may have sustained by one bad contract, involving an unfortunate law suit in New York, the motives and actions of our Commissioners stand out in bright contrast to the corrupt judiciary, as lately developed, in that powerful city.

During the last year there has been laid down throughout the city the following water pipes: 9 1-6 miles of large bore wooden pipes. 23; 616 feet of from 4 to 10 inch iron pipes; 8,534 feet of 24 inch iron pipes; making in all a little over 15¼ miles.

The contracts for the iron pipe were made before the rise in the price, and the Commissioners have had all the labor performed very economically.

This department was the city's first public work, and still sustains its character as an efficient agent of her prosperity, no better proof of which need be adduced than that the city is fast outgrowing the water works.

And as of first importance is the question of water supply, it is very desirable that these works be enlarged with a view to the future, which would necessitate the purchase of a new site above the present city limits, the building of a dock, new machinery for the pumping apparatus, and a new reservoir with all the attachments of iron pipe, etc.

As these new works would involve a large outlay of money the City Council should take the initiative in applying to the present Legislature for a law authorizing the issue of bonds for the purpose of raising the means

I therefore recommend to your honorable body to give your early attention to this matter, and that you urge the fact upon the attention of the Water Commission, as by the time all these new works can be completed with a proper view to enlightened principles, economy and substantiality, their use to the city will become a pressing and important desideratum

SANITARY.

We have reason for great thankfulness that no epidemic or unusual amount of sickness has prevailed during the last year.

The slaughtering of swine on a large scale, lately introduced within the city limits, seems to give just cause for complaint to many good citizens;

and I recommend that the business of killing hogs carried on as a branch of trade, with all its accompanying filth and bad odor, be removed outside the city limits, as they are certainly a destruction of property and a very possible promoter of disease and sickness when planted in our midst.

BOARD OF HEALTH.

I submit that the construction of the present Board of Health ought to be changed, and the entire charge of that matter given to a small commission, who could act without long debates and in the promptest manner.

HOUSE OF CORRECTION.

The Detroit House of Correction, after 10 years' effort to sustain itself as a manufacturing establishment, seems to be a failure for want of working capital.

Taking into account the necessary repairs and additions to buildings that ought to be made from time to time, not including casualties, the means employed at present are entirely inadequate to the proper development of the work sought to be carried on by the present ingenious Superintendent. Of course it is an open question, which is left with the Council to decide, whether this city is promoting her best interests in operating a large public chair factory to the detriment of every private enterprise of the same kind within the city limits. The wisdom is also very questionable of receiving criminals from all parts of this State and the Western Territories, who, if not reformed during their incarceration in this institution, are, at the end of their term, let loose upon this city to swell the proportion of that class of her inhabitants.

After considering these questions, should your honorable body still persist in keeping up an immense manufacturing establishment at the House of Correction, it would seem very desirable to provide for at least $50,000 business capital, and also the appointment of an auditor, permanently to take charge of the finances and furnishing of the whole establishment.

I submit also to your consideration that the affairs of the House of Correction, except in a general way, are managed very independently of the city government, and the system of inspection is mostly confined to examining the accounts. Very little practical knowledge of the institution in detail appears ever to have been in the possession of the inspectors.

I leave this matter to the wisdom of your collective body, and trust that you can at least devise some way of relieving the Superintendent from the necessity of raising money on his own credit to operate the manufactory, whilst it would seem that his entire time could be better employed in the performance of his official duties.

Permit me to say further on this subject, that, could a satisfactory sale of the establishment be made to the State as an intermediate prison, this city would rid itself of a complicated burden that has produced taxation fully equal to its profits

MARKETS.

It would seem advisable to either remodel the present building used as a meat market, or remove it and put on the same ground a substantial brick building two stories high, and perhaps 60 by 185 feet on the ground with walls 20 inches thick and roofed with slate, which would be an ornament to the city, and made to answer the double purpose of a meat market and an assembly room. The cost of a building of this kind, fitted to meet the wants of the city until branch markets shall be required, need not exceed $30,000, and, however, the utility of a market may be questioned by some, I see no way at present of abandoning the long cherished custom, and recommend its continuance.

There can be no dispute about the fact that the city is notoriously in want of a place to hold public meetings, and taking into consideration the facts that stall rents in a good building would yield a large revenue, and also that the second story would rent part of the time at remunerative rates, there could not be a doubt that the whole amount, with interest, would be refunded back to the city within the next five years after its completion.

CITY POOR.

The care of the city poor is in good hands, and the fund faithfully distributed as far as it will go. But while relieving the temporary wants of those who are able to do some light work, are we not at the same time degrading their manhood? And as there seems to be decided objections to sending so many to the County Poorhouse, I recommend the starting and fair trial of a House of Industry, where indigent persons might be profitably employed, and the benevolent see their charity turned to good account. A committee of ladies and gentlemen to manage a house of this description could thus be more rationally employed than in doling out alms every winter in the usual way.

This course, judiciously pursued, would materially reduce the amount of taxation for the City Poor Fund and save the self-respect of hundreds of the unfortunate.

SEWERS.

During the last season the Sewer Commission has completed three and three-fifths miles of public sewers, and four and four-fifths miles of lateral sewers, and have several jobs of more or less extent under contract, but unfinished, on account of the early setting in of winter. There has been expended on the above work:

For public sewers.....	$116,684 85
For receiving basins, connections, sewer pipe, and salaries....	17,704 75
For lateral sewers assessed to private property.....	30,296 09

It is very important that this branch of the public works and sanitary auxiliary be pushed forward with all possible and economical dispatch.

FIRE LIMITS.

I ask your attention to the Fire Limits ordinance, which, I believe, was first made and put into operation immediately after the great fire of 1848, and which has been amended and the limits extended several times since.

The last Council spent some $40 or $50 in printing a definition of the present fire limits boundary. And still, notwithstanding much care bestowed, and all the warnings by fire at home and abroad, good citizens will persist in having the ordinance set aside, and by petitioning the Common Council very often accomplish their purpose.

I believe it to be our duty to disregard all such petitions, have this ordinance made a law, and execute it to the very letter. But should this Council think otherwise, I would recommend that petitioners against the fire limits be referred to the Fire Commissioners, and that they be granted full power in the premises.

MANUFACTURES AND TAXES.

I recommend to the consideration of your honorable body, as this city must enhance her growth and importance by the manufacture of goods, that all new manufacturing enterprises, which shall hereafter be put in operation, and which shall give employment to a certain number of persons, be exempted from paying city taxes for the first five years of their existence.

The duty of paying taxes is not disagreeable to enterprising and reasonable citizens, when the public expenses are fairly and conscientiously incurred without defalcation or extravagance. And, if our capitalists, instead of investing their money in untaxable securities, would invest the same in manufacturing establishments in the city, they will add materially to our industrious population, will encourage the skill and ambition of our worthy young men, will relieve their own estate which is already taxable, and will create new estate for assessment in other hands.

CITIZENS' MEETING TO VOTE TAXES.

The present mode of raising money by calling together our citizens for the purpose of voting taxes, doubtless, is liable to abuse, and does not meet the requirements of the city as it has done heretofore. I am clearly of opinion, however, that the power to levy taxes ought to remain invested in the direct will of the people, whatever method may be thought best to ascertain an expression of that will.

FIRE DEPARTMENT.

The Fire Department of this city, in proportion to its capacity, is not excelled by that of any other city in the Union. Its commissioners, officers and

men, by prompt action and endurance, are always equal to the occasion that calls them out, and do most fully sustain the long established reputation of Detroit firemen.

PAVING.

Street paving having of late years engrossed a large share of public attention, it becomes our duty to investigate the matter in all its bearings, and proceed, not only with a view to smoothness in the work but with durability also.

I can only repeat my former recommendations to the City Council to select the kind of pavement most approved, take estimates for the work without preference, and ask security in a lawful manner that wood pavements shall last at least 10 years.

The present system of inspecting pavements is very unsatisfactory, as is also the mode of accepting jobs when completed, for the proof of which I need only refer to the report of the Committee on Streets and the City Controller during the last season.

The paving of streets should not go beyond the demands of the people and their ability to pay for it; and although objections are urged in some quarters that unless we expend from $750 000 to $1,000.000 annually for this purpose the city's general prosperity is retarded and her trade diverted to other places, and although I believe we all desire progress in paving improvements, our best interests are opposed to speculative schemes; and our citizens ought first to know from positive proof what is best before they are goaded on to gratify a hobby which must end in ruinous taxation.

BOARD OF PUBLIC WORKS.

I call your attention to the fact that the present mode of doing public work under the superintendence of committees of aldermen and aldermen of the different wards is not conducive either to economy or efficiency; for the reason that more time is required than can possibly be spared by men who must attend to their own business; therefore, I recommend the establishment of a Board of Public Works in this city, to be composed of four citizens of good practical ability, to take entire charge of all street improvements, including paving, the ordinary ward road works, sewerage in all its branches, street openings, grades, plans of the city, present city parks, public buildings and their repairs, make cross and side walks, and have charge of surveying and engineering.

This, I think, would secure work of a better quality at less cost than is paid at present, lighten the burden upon the Board of Aldermen, and make a seat in that body more desirable to enterprising citizens

FAST DRIVING.

I recommend to your honorable body the immediate repeal of the ordinance permitting horse racing in our streets during certain hours of the day, as demoralizing in its tendency and contrary to the spirit and intent of the city charter. Upon the occurrence of an accident, we may rest assured that the city will be liable for all damages.

CONCLUSION.

In conclusion, gentlemen, I promise to you my aid and co-operation in all measures aiming at retrenchment, reform and strict accountability in the administration of our municipal government. If we all work in earnest and with one accord for the same great purpose our success cannot be doubted.

Very Respectfully,

H. MOFFAT,
Mayor.

REPORTS OF COMMITTEES.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your committee appointed at the last meeting of the Council, to investigate the proposed route of the Eastern Transit Railroad, would respectfully report that they have been over and carefully examined the said route, and are in favor of granting liberal franchises to said transit railroad corporation for the following reasons: First, because we believe the best interests of the city will be promoted by extending liberal facilities to, and fostering manufacturing enterprise. We believe the foundation of a city's prosperity is more solid, and its prospective wealth and growth more certain and less liable to contingencies when based on production than exchange, for while sale and exchange of commodities employ but few persons, successful manufacturing enterprises involve and insure the steady, continued employment, from year to year, of large numbers of men, women and children, at remunerative compensation, and while increasing the wealth of the employer, at the same time promote in the habits of the masses industry, thrift and economy. Second, the committee are of opinion that the construction of a good railway connecting the great manufacturing works of Detroit and Hamtramck with the Detroit and Milwaukee Railroad, through the proposed route, will greatly enhance property on the line of said route, and thus materially increase the real value, beside greatly promoting the improvement of the part of the city through which it passes. There are very many drawbacks in the construction of this road. Its route does not lay through a line of street well graded and paved Long sections are to be opened at the cost of the company, involving a larger expenditure of money beside delay and trouble. Much of the territory on the line of the proposed route is now comparatively of little value. Your committee are of opinion if a liberal charter is granted new enterprises will spring up in the eastern part of the city, real estate become enhanced in value, and the creation of wealth by production in the investment of capital and the industry of skilled artisans so largely increase valuations as to make discriminating taxes of doubtful propriety.

Respectfully submitted.

P. PARSONS,
GEO. W. HOUGH.
F. RUEHLE.
C. M. GARRISON.
WM. LICHTENBERG,
C. M. WELCH,
GUY F. HINCHMAN.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom were referred two lists of accounts approved by the Controller at the last meeting of the Council, would report that they have given to them a careful examination, and would recommend their payment, except vouchers 103, 220, 493, and 215, which are withheld for further consideration. Your committee would further report that they have given further examination to claim under voucher 26, held for consideration, amounting to $45 37, being pay roll of laborers dated November 4, 1872, Seventh Ward, and find that the Street Commissioner of the Eastern District was directed to notify the Overseer of Highways of the Seventh Ward to discontinue work till further order of the Council, under date of September 17. November 1st the Council directed the Street Commissioner to have the gutters cleaned on both sides of Congress street, between Rivard and Orleans streets, Seventh Ward; your committee find that 20½ days' work were done under that resolution:

8	days by John Schafer, $1 50	$12 00

5	days by Gotlieb Kemler, $1 50	7 50

HOUSE OF CORRECTION

To the Honorable the Common Council:

Gentlemen—Your Committee on the House of Correction, to whom was referred that portion of the Mayor's annual message relating to the House of Correction, do report the following as their convictions:

1. They do not see any practical benefits that would accrue from a material change in the line of policy inaugurated and executed by those who in the past have had in charge the control and supervision of this institution. It may be that apparent evils have crept into its system of financial management, but the conspicuous good results which it has wrought are overshadowing in their nature and drop the mantle of charity on them. A review of the history of this institution, to which our citizens point with pride, will confirm the wisdom of this conclusion. Being cognizant of the fact that most county and municipal penal institutions are a source of expense to the taxpayer, we are gratefully reminded that the Detroit House of Correction has proven not likewise, but a success as a "manufacturing establishment." Your committee review with satisfaction the progress made in public sentiment concerning the legitimate results to be attained by prison discipline. In producing these advanced ideas of penal reform the Detroit House of Correction has occupied no insignificant part. To its sanitary and industrial policy it has added educational and moral development, thus seeking to make reform enduring as well as to meet the ends of justice. Idleness is the breeder of vice. The most lasting reform is the offspring of industry of both mind and body. The House of Correction has kept this fact steadily in view, and has sought to educate as well as punish for crime.

2. It is the opinion of your committee that no large addition of working capital is necessary for the successful running of this establishment. At such a time as it is ascertained what the necessities of the institution are in this direction your committee will make the proper recommendation. The appointment of an auditor, as recommended by the Mayor, is proper matter for careful consideration of your honorable body, and the wisdom of this suggestion is hardly to be questioned. Your committee think that the House of Correction should be run on as strictly business principles as any other large institution, and would urge the enforcement of all provisions in charter or otherwise to further that end.

3. To that part of the Mayor's views which questions "whether this city is promoting her best interests in operating a large public chair factory to the detriment of every private enterprise of the same kind" your committee would state they see no necessity for the House of Correction to sell its merchandise at lower rates than any other first class business concern in the same line, and that a wise superintendent would not adopt such a policy; as these competing manufacturing establishments are, and may be, by special arrangement, its best patrons. A wise business policy would direct this matter the same as in any line of manufacture, and we have reason to conclude that such a policy has been adopted and carried out in the past.

4. In conclusion, your committee are in earnest when they wish that all movements projected by your honorable body, the Mayor and the Inspectors of the House of Correction may promote the interests not only of the city, its treasury and its citizens, but of that unfortunate class whose sentence to this place should be that justice may be dispensed to them in such a manner as to bring about the most complete and lasting reform.

All of which is respectfully submitted,

GEORGE W. HOUGH,
C. M. GARRISON.

Accepted and laid on the table for the purpose of receiving the following

MINORITY REPORT.

To the Honorable the Common Council:

Gentlemen—As a member of your committee, to whom was referred that portion of the annual message of His Honor the Mayor which referred to the "Detroit House of Correction," I would respectfully report that I have given the matter mature consideration, and while I indorse the report of the majority of the committee, from the position I held the past year I am in possession of facts which are not familiar to my colleagues on the committee, and therefore take the liberty of making a separate report, considering separately the different suggestions of the Mayor.

As it appears to your committee the different positions taken by the Mayor cannot be sustained when compared with the facts established by the examination, made during the past year, and if not so compared will tend to discredit the present high standing of the institution, and detract from the great amount of good it is intended to do, and is capable of doing.

The Mayor says:

1. The Detroit House of Correction, after 10 years' effort to sustain itself as a manufacturing establishment, seems to be a failure for want of working capital.

It is presumed that the Mayor claims the institution to be a failure, for the reason that it has been necessary to borrow money in order to conduct the business in such a manner as to be able to supply the demand for goods.

It is an established fact that the larger the manufacturer the more money he is obliged to borrow, and the Mayor confesses this in a creditable manner, when he says: "After considering these questions, should your honorable body still persist in keeping up an immense manufacturing establishment at the House of Correction, it would seem very desirable to provide for at least $50,000 business capital." And your committee will at the proper time recommend supplying the House of Correction with $30,000, to be used as a working capital, this being all that can possibly be wanted for that purpose.

The Mayor says further: "Very little practical knowledge of the institution in detail appears ever to have been in the possession of the inspectors."

In this your committee believe the Mayor is in error, as each quarter the Superintendent makes a statement of all the receipts and disbursements. It is examined with the vouchers, and certified to by the Inspectors, transmitted to this body, and examined by your committee. In addition to this a copy of the trial balance containing every name on the ledger is furnished the Inspectors, and sent to this Council for its examination.

The books are kept strictly in accordance with the recommendation of the Common Council, and your committee believe that such men as now compose the Board of Inspectors have full knowledge of the management of the House of Correction in all its departments.

Concerning the propriety of continuing the manufacture of chairs, the Mayor says: Of course it is an open question, which is left with the Council to decide, whether this city is promoting her best interests in operation a large public chair factory to the detriment of every private enterprise of the same kind within the city limits.

In considering this question your committee cannot see any reason for discontinuing the present system of employing the time of the inmates of the House of Correction.

1. We do not believe it would be wise, in a pecuniary or reformatory point of view, to have the prisoners kept in idleness and thereby make an annual expense to the city of from $25,000 to $35,000.

2. We do not believe that it is an injury to the private manufacturers to have this branch of the business continued, but a return to the contract system would be. It is the purpose of the business management to keep the price of the different products manufactured the same as that of private establishments, therefore the injury (if any) cannot be as great as it would to let some contractor have the benefit of the labor at 57 cents per day (the same as is paid at the State Prison), the rent of build-

Digitized by Google

ings, machinery, etc., for nothing, when private manufacturers have to pay from $2 to $3 per day for labor, and either make large investments in property or pay a large amount each year for rent.

After recommending the sale of the House of Correction to the State the Mayor says: "This city would rid itself of a complicated burden that has produced taxation fully equal to its profits."

This statement is entirely the reverse of the fact. The city has invested $113,588 21; the institution has made $130,016 03, an amount equal to an annual interest of 12 per cent.

Your committee has only considered that part of the message referred to it from a business point of view, not believing it necessary to consider the detrimental effect a radical change in the present management would have upon the reformatory principles of the institution.

Respectfully submitted,
SMITH R. WOOLLEY.

Ald. Woolley moved the adoption of the minority report

Ald Hough moved to amend by laying the same upon the table for one week.

The motion prevailed.

On motion of Ald. Hough the majority report was then taken from the table, and he moved that the same be adopted.

Ald. Ruehle moved to amend by laying the report upon the table for one week.

Nays—Ald. Cook, Hinchman, and Woolley—3.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the recommendation of the Mayor exempting from city taxes for five years all new manufacturing enterprises employing a certain number of persons, which shall be hereafter put in operation, would respectfully report that they have had the same under consideration and cannot concur with the Mayor, for the following reasons; First, we believe such discrimination at the present time would be invidious and unjust to other similar interests. Were the city much younger and just entering upon a career of manufacturing enterprise it would be different. But manufacturing interests in Detroit have reached a position, character and success which invite other and different enterprises than those already in existence among us, with ample and satisfactory promise of fair profit on their investment. Second, your committee believe that the tendency at the present time of all manufacturing enterprises is to points where the least possible expense attaches to the movement of raw material, the instrumentalities for its development or the perfected product. In point of location Detroit is not excelled by any other city on the great water courses of the Northwest. Its ready access to the great ore-beds of Lake Superior; to the vast forests of the North; to the coal fields of Ohio and Pennsylvania, with its central position midway between the East and West; readily accessible from every quarter, making distribution of manufacture cheap and convenient, render it a most desirable point for manufactures of every description, and we believe with liberal incidental protection and consideration, enabling these interests to utilize every means and facility the city government can grant in avoiding expensive animal transportation, will be ample encouragement to new enterprises. In a word, your committee are of the opinion that the rapid development and growth of existing manufacturing establishments under favoring circumstances and liberal concessions will promote and largely increase their interests, without exemption from city taxes.

Respectfully submitted,
P. PARSONS,
DAVID PRE . ON,
JAMES DALY.

Ald. Parsons moved the adoption of the report.

Ald. Hough moved to amend by laying the same upon the table for one week.

MARKETS.

ORDINANCES.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred, on the 14th inst., the petition of J. S. Huff, Esq., asking information concerning the powers of the Common Council to enforce the snow ordinance, would respectfully report that, in their opinion, it would require an amendment to the city charter to compel non-resident owners of unimproved property to clean snow from sidewalks adjacent thereto.

Your committee would further state that they are informed that the committee having in charge the revision of said charter contemplate amendments appertaining to this matter.

Respectfully submitted.
GEO. W. HOUGH,
JOSEPH COOK,
JAMES DALY.

I have the honor to subscribe myself

Your obedient servant,
DUANE DOTY.

REPORTS OF COMMITTEES.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the petition of Curtis Brothers, asking for the removal of a certain tree, which stands adjacent to their premises on the south side of Jefferson avenue, have examined into the matter, and find that the tree in question is not only damaging to the business of the petitioners, but is also a dangerous obstruction to pedestrians; and your committee therefore recommend the following:

Resolved, That the Street Commissioner of the Eastern District be, and he is hereby directed to immediately cause the removal of the tree now standing on the south side of Jefferson avenue between Brush and Beaubien streets, and adjacent to the store of Curtis Brothers.

All of which is respectfully submitted.

C. M. WELCH,
G. GRELLING,
DANIEL SHANAHAN.

Accepted, objected to, and laid over under the rules.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the resolution adopted by your honorable body on the 24th of January in relation to adopting some plan or system to secure to the city and tax-payers a permanent and economical pavement, have had the subject under consideration and beg leave to report as follows:

The matter of paving streets is in all cities found to be one of the most important and costly of all public improvements with which the citizens have to contend, and upon which there is perhaps more diversity of opinion than upon any other subject within the sphere of public improvement. Many, and some very costly, experiments, from which this city is not entirely exempt, have been tried to secure an economical and durable pavement, presenting a smooth surface and the requisite foot-

hold for horses. But as far as your committee are able to learn, no city has succeeded better than our own, and all are yet trying experiments. The Sandusky pavement does not, in our opinion, possess much merit, the stone being soft and brittle, does not stand the frosts and constant wear. It is little if any more durable than wood, and without any of the advantages which render the latter so desirable.

The Medina stone pavement, costing much more than wood, has not been in use in this city long enough to test its endurance; but in the city of Buffalo, where it has been used for many years, we learn that the pavements are very rough and uneven and do not last, and that large contracts were made last year for putting down wood pavements.

The pavement of cobble stone is unquestionably the cheapest and most durable, but presents the roughest and most uneven surface and is the least desirable.

The asphalt pavements, which are claimed to be par excellence in some of the cities in Europe, have not been successful here.

Your committee are therefore of opinion that wood gives most of the requirements for a good and perfect pavement, and is preferred by a large majority of our citizens. The objection of its want of durability can in a great measure be overcome by paving the gutters with stone for a width of from six to twelve feet.

In relation to establishing a plan to better secure economy and durability, your committee think our present system of letting contracts is well adapted to secure competition and cheapness—as will be seen by a comparison of the prices paid here for paving for the last two years with those paid in neighboring cities—and that it is well settled and adjudicated by the courts, and it is doubtful if any better system can be devised under the powers granted in our present charter; and in view of the expected changes in that instrument we do not deem a change at this time desirable, believing that most of the defects in our present pavements to be brought about by the desire to try new and untried pavements, imperfect specifications, and the present defective and inefficient mode of inspection and acceptance. Your committee deem it necessary to recommend a change in the mode of inspecting paving and paving material, and also to provide for the manner in which repairs shall be made on pavements now laid down, and would therefore respectfully submit the following resolutions:

1. Resolved, That the Committee on Ordinances be, and are hereby requested to report to the Council an ordinance providing for the appointment of a general inspector of paving and the material therefor, who shall have general charge of all paving and the repairs thereof, whether by contract or otherwise.

2. Resolved, That in making repairs of paved streets, either of wood or stone, by contract or otherwise, the repairs shall be done under and according to the specifications in force at the time the pavement was laid

All of which is respectfully submitted.

C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Accepted and laid upon the table for one week.

MARKETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets, to whom was referred that portion of the Mayor's annual message relating to a central market, report that the Mayor says it would seem advisable to either remodel the present building used as a meat market, or remove it and put on the same ground a substantial brick building, two stories high, 60 by 185 feet on the ground, with walls 20 inches thick, and roofed with slate.

Your committee have given the matter mature consideration and are of the opinion that such a building would be of vast benefit to the citizens at large in the way of regulating prices in other parts of the city: it would also be a benefit in a pecuniary point of view, together with being an ornament to that part of the city. His Honor the Mayor further suggests said building could be made to answer the double purpose of meat market and assembly-room, which, in the opinion of your committee, will meet the approval of our citizens generally; therefore your committee would report in favor of the construction of such a building as above mentioned. Your committee would further recommend that the Controller recommend in his annual estimates the sum of $35,000, to be used for the construction of said market, and would submit for your consideration the following resolution

All of which is respectfully submitted.

A. O'KEEFE,
M. BROEG.
D. SHANAHAN.

Resolved, That the Controller be, and is hereby instructed to advertise for 30 days for plans and specifications for a meat market, 60 by 185 feet, to be located on the site of the old meat market.

Ald. O'Keefe moved the adoption of the report and resolution.

Ald. Parsons moved to amend by laying the same upon the table for two weeks.

Ald. Lichtenberg moved to further amend by laying the matter upon the table for one week.

Lost.

The motion of Ald. Parsons prevailed.

To the Honorable the Common Council:

Gentlemen—Your Committee on Licenses, to whom was referred a petition of Maria Thomas, asking to be relieved of paying a license for peddling, have had the matter under consideration, and after examining the city ordinance, find that they have no discretion in the matter, and that the petitioner is obliged to pay said license.

I held at the time of my election, and still hold, the office of Local Inspector of Steamboats of the District of Detroit.

I have the honor to remain yours, most obedient,

Your committee call the attention of the Council to section 21 of chapter 9 of the charter, and for the purpose of preventing any further question in such matters, recommend the passage of the accompanying ordinance.

Respectfully submitted,

Your committee would not have recommended the erection of said building had they been applied to before its erection, and, as they have reported adverse in other cases where citizens have unintentionally violated the ordinance, they cannot, in justice, make an exception in the case of Mr. Chudleigh.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Public Buildings, to whom was referred the communication of the City Controller from the Board of Auditors of Wayne County in reference to the condition of the door of the vault in the Judge of Probate's office, have examined the same and find it as stated by the County Auditors in their communication. Your committee took the liberty of examining the door of the vault of the County Clerk's office and find it in the same state as the Judge of Probate's vault. Your committee would ask to be allowed to offer the following resolution.

All of which is respectfully submitted,
JAMES FLOWER,

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred that portion of the Mayor's message relating to sewers, report that the Mayor says: "It is very important that this branch of the public works and sanitary auxiliary be pushed forward with all possible and economical dispach." Your committee have considered the matter, and do thoroughly coincide with his Honor the Mayor,

Digitized by Google

We called on the Sewer Commissioners and found them busily engaged on their annual report, and preparing plans and estimates for the coming year. We would report that there is a large tract of land in the Tenth Ward and a still larger one in the Ninth which is much of the time under water, and therefore in great need of drainage. A large appropriation will be required to properly sewer these portions of the city. We would recommend as a sanitary measure that lateral sewers, where it is practicable, be constructed with as little delay as possible.

Respectfully submitted,
F. UEHLE.
C. M. WELCH.
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of John Lamb and John Boyd, asking for extension of time for payment of lateral sewer assessment, report that they have consulted the contractor, Daniel Shanahan, and he consents to extend the same to April 1.

On the communication of Louis Brewer, also referred to this committee, asking to be reimbursed the sum of $8 50 for damages sustained by him while the lateral sewer was being constructed in alley in rear of his premises, report they have investigated the matter and ascertained the trouble was caused by the Water Commissioners removing a defective log, to which the complainant's water pipe was connected, and putting in a new log and neglecting to again connect the water pipe.

Your committee, therefore, do not deem the city liable for the damages sustained by complainant.

All of which is respectfully submitted.
C. M. WELCH,
F. RUEHLE.
DANIEL SHANAHAN.

Accepted and adopted by the following vote:

Yeas—Ald. Broeg, Christian, Cook, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Welch, Woolley, and the President—19.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE INSPECTORS OF THE HOUSE OF CORRECTION

To the Honorable the Common Council:

Gentlemen—The action of the Common Council at its last meeting, in referring back the annual reports of the Inspectors and officers of the House of Correction for printing, causing, as its does, a delay of from two to three weeks before they are presented to you again for your consideration, impels the Inspectors to lay before you that part of their report which relates to the monied wants of the institution, that such immediate action be taken by you in the emergency as may seem to you proper.

The report reads as follows:

It is expected that no further increase of the necessary manufacturing stock of chair material will be needed, and that the surplus earnings of 1873 may be applied to reduce the balance of current indebtedness, thus supplying some portion of the added capital required. But the immediate necessities of the Institution cannot be so met And the Inspectors beg leave to once more urge upon the Council that they provide a small additional operating capital, say $25,000 or $30,000.

The Inspectors wish to call the attention of the Council to the fact that this request for funds from the public resources has become necessary solely through the calamity by fire Dec mber 31, 1870, which necessitated the withdrawal and investment on buildings to replace those burned of a large sum over insurance. That it is only a loan asked for successful business purposes. It is in no sense a subsidy to the current expenses It is proper to add, also, that there is especial need of this aid now, because the funds hitherto supplied by Mr. Brockway, through his personal friends, have been withdrawn in view of his retirement from the superintendency

The Inspectors would add to this report that an exhausted exchequer, and the early maturity of bills payable with current expenses that must be at once met, in their opinion call for the earliest action of your honorable body.

Respectfully submitted,

JEFFERSON WILEY,
Chairman Board of Inspectors.

Accepted and placed on file.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 12th inst., and they were approved on the 14th inst.

Also that the Mayor has approved an ordinance amending sections 1, 2 and 3, of chapter 88, relative to pounds.

Also that William Dalton and William Griffin, chimney sweepers for the Eastern and Western

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the reports of various city officers for the week ending February 8, 1873, have examined the same, and believing them to be correct, recommend their approval.

DAVID PRESTON,
G. F. HINCHMAN,
C. M. GARRISON.

Accepted and adopted.

JUDICIARY.

To the Honorable the Common Council:

Gentlemen—Your Committee on Judiciary, to whom was referred the communication of the City Counselor in regard to Jos. P. Whittemore's claim against the city, and for which he recently recovered a judgment of $2,000; and now, rather than litigate farther, proposes to settle in full for $1,000, have carefully examined into the matter, and, considering all the circumstances and facts in connection therewith, deem it for the interest of the city to close the matter by accepting the proposition, and respectfully recommend and ask the adoption of the following resolution.

Respectfully submitted.
G. F. HINCHMAN,
Chairman.

Resolved, That the Controller be, and he is hereby directed to draw his warrant on the Treasurer, payable out of the Contingent Fund, for the sum of One Thousand ($1,000) dollars in settlement of the claim of Joseph P. Whittemore against the city.

JAMES FLOWER,
F. RUEHLE.

Accepted and adopted as follows:

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your committee on Fire Limits, to whom was referred the second petition of W. H. Chudleigh, for permission to erect an ice house in rear of No. 214 Grand River avenue, respectfully report that Mr. Chudleigh has removed the house previously erected, and wishes to erect one in a different locality. There will be no increase of the fire risk from the building as proposed by Mr. Chudleigh. Your committee therefore recommend that the prayer of the petitioner be granted as asked for.

Your committee have also examined the premises of William Voight, corner of Grand River avenue and Cherry street, who asks permission to erect a small shed for the storage of ice, and would recommend that the prayer of the petitioner be granted.

All of which is respectfully submitted.
M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

HOUSE OF CORRECTION.

To the Honorable the Common Council:

Gentlemen—Your Committee on the House of Correction in their last report intimated that at such a time as it determined what the financial necessities of this institution were, it would report to your honorable body concerning the same with the proper recommendations.

From a statement of the liabilities and assets we find that the condition of said establishment is such as to need no large amount of additional working capital. From the late Superintendent's statement we ascertain that the liabilities of the concern are about $70,000, and that it has in reliable accounts, materials for manufacture and manufactured merchandise about $110,000, and that its machinery and other appliances are in good repair and capable of producing more than any previous year. It is thought, however, desirable that a small amount of ready means be appropriated to this institution, which in time could be returned to the city or invested in permanent improvements.

Could the city provide a loan for it a short time it might be refunded, but the difficulties in the way of this make this course impracticable, therefore we have deemed it wise to ask your honorable body to legalize a small addition to its permanent capital, and herewith present the appropriate resolution.

Respectfully submitted.
GEO. W. HOUGH,
SMITH R. WOOLLEY,
C. M. GARRISON.

Resolved, That the Controller be, and he is hereby directed to include in his annual estimates of taxes for 1873 the sum of $25,000 for the use of the Detroit House of Correction.

Accepted and adopted.

Ald. Woolley was excused from further attendance at this session.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the petition of John J. Bagley, John Owen, Jacob S. Farrand, D. Bethune Duffield, and about 90 other citizens of Detroit, for the repaving of Jefferson avenue, from Chene street to Shelby street, respectfully report that we have made an examination of that portion of Jefferson avenue specified in the petition, so far as the season of the year would permit, and have listened to the statements of the residents of that portion of the city, and we find, on examination, that the said avenue was paved from Hastings street to the railroad bridge with Sandusky and cobble stone more than 20 years ago, and from the bridge to Chene street in the year 1859; and that no general repairs have been made on that portion of said avenue since it was first paved; and that it is now in bad condition, being in some places so deeply rutted as to be unsafe, and that the asphalt covering that portion of the pavement below Hastings street is rapidly disintegrating and wearing away, leaving the cobble stone exposed in many places; and that great annoyance and material detriment is occasioned to persons residing and doing business on that portion of the avenue by the dust and grit thrown from the asphalt covering.

Your committee are of opinion that this portion of Jefferson avenue will soon have to be repaved or very extensive repairs made in the present pavement to put it in passable condition. The large amount of travel, both of business and pleasure, upon Jefferson avenue, is rapidly increasing with the growth of the manufactories in the eastern portion of the city. Its constant use for funeral processions, as it is and probably will always be the principal avenue of approach to Elmwood and Mount Elliott Cemeteries; the probable incorporation, at no distant day, of the town of Hamtramck, or some portion thereof, within the city limits, all point to the necessity of said avenue being smoothly paved and kept in most complete repair, and renders it a matter of no less importance to the public at large than to the residents on Jefferson avenue, as set forth in the petition, and in view of the fact that the other thoroughfares leading from the city to the adjoining towns are paved with a smooth pavement, your committee cannot but feel that the continuance of the cobble stone pavement on Jefferson avenue is to some extent under the circumstances an unjust discrimination against that part of the city, especially when we consider

the fact that the property fronting on Jefferson avenue is assessed annually for more than one quarter the entire city tax levied.

The present desirable condition of the wooden pavement on Woodward avenue adds to the importance of improving Jefferson avenue, and many other reasons equally important may be stated in support of this proposed improvement.

Your committee, in order to examine into the feasibility and probable expense of carrying into effect the object of the petitioners, have procured from the City Surveyor an approximate estimate (which is hereunto annexed) of the number of square yards within the limits specified in the petition, from which statement may be determined the probable cost of the improvement, either in whole or in part.

And your committee, after mature deliberation, and in deference to the spirit of public improvement so manifest in all parts of our city, beg leave to recommend:

That the Controller be instructed to incorporate in his estimate for the General Road fund a sufficient sum to carry into effect the proposed improvement of Jefferson avenue in accordance with the prayer of the petitioners.

All of which is respectfully submitted.

C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Accepted and laid on the table.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The special committee appointed to report a preamble and resolutions upon the death of Commodore McKinstry respectfully report the following:

Whereas, Public announcement has been made of the death in our city, on the 11th inst., of Commodore James P. McKinstry; and

Whereas, The virtues and manly attributes of character of the deceased have commended him to the esteem and respect of our citizens, while his long-continued and meritorious services as an officer in our navy, his gallantry and bravery in battle, his tried and devoted patriotism in the hour of peril, have entitled him to the thanks and grateful remembrance of not only the people of our own State, of which he was an honored resident, but of the whole country; therefore,

Resolved, That we, the Common Council, sincerely mourn the death of Commodore James P. McKinstry, and that we extend to his bereaved family our heartfelt sympathy.

Resolved, That these proceedings be entered of record upon the journal of the Council, and a copy thereof be transmitted by the City Clerk to the family of the deceased.

Respectfully submitted,

G. GRELLING,

Nays—None.

AN ORDINANCE to amend Section 2 of Chapter 37 of the Revised Ordinances of 1871.

It is hereby ordained by the Common Council of the city of Detroit:

SECTION 1. That Section 2 of Chapter 37 of the Revised Ordinances of 1871 be, and the same is hereby amended, so as to read as follows:

SEC. 2. No person shall remove, or cause to be removed, or aid or assist in removing any building, railroad car, or other heavy and bulky article, into, along or across any street, alley, or other public space, without permission first obtained from the Common Council; in granting which permission the Common Council shall designate the route to be taken and the time to be occupied in the removal of such building, railroad car, or other heavy and bulky article; and while in transit such building, railroad car, or other heavy and bulky article, shall be so moved as to least obstruct the street, and by the route and in the time prescribed by the Common Council. Nor shall any person leave a building, railroad car, or other heavy and bulky article in any street crossing. Any person obtaining such permission shall file a bond to the satisfaction of the Controller, conditioned that he will pay all damages to private or public property that shall be caused by removing any buildings, railroad cars, or other heavy and bulky articles. Provided, that any person or firm whose business is that of moving buildings, or other bulky articles, if so desiring, may file a bond, satisfactory to the Controller, sufficient to secure the payment of all damages to public or private property that shall be caused by him or them in removing buildings, or other bulky articles, during any period not exceeding one year. No railroad car shall be moved into, along, or across any paved street, unless the wheels thereof are so guarded as to prevent the flanges of such wheels from cutting, breaking or injuring the pavement. The Superintendent of Police shall ascertain that any person moving a building, railroad car, or other heavy and bulky article, as aforesaid, shall have the proper permission therefor; and in case it is found that permission has not been granted, it shall be the duty of the police to at once make the proper complaint.

SEC. 3. This ordinance shall take immediate effect.

Approved February 7, 1873.

HUGH MOFFAT, Mayor.

REPORTS OF COMMITTEES.

WAYS AND MEANS

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means, to whom were referred the official bonds of William Dalton and William Griffin as chimney sweeps of the Eastern and Western Districts of De-

troit, have examined the same, and, being satisfied with their sureties, recommend their approval.

DAVID PRESTON,
C. M. GARRISON,
GUY F HINCHMAN.

Accepted and adopted by the following vote:

Yeas—Ald. Broeg, Christian, Cook, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of C. and R. Bresler, find that by accident the taxes of 1872 were paid twice on the west 84 feet in Military Reserve, subdivided by corporation on lot 15, as appears by the books of the Receiver of Taxes and also by the receipt in the hands of the petitioners. The mistake came from the tax not being marked paid on the books in the hands of the Receiver. Your committee therefore beg to report the following resolution.

P. PARSONS,
DAVID PRESTON.

Resolved, That the Controller be, and he is hereby directed to draw his warrant on the Contingent Fund in favor of Messrs. C. and R. Bresler for $312 95 when they surrender to him a receipt signed by the Receiver of Taxes, for a like amount, dated October 21, 1872

Accepted and adopted by the following vote:

Yeas—Ald. Broeg, Christian, Cook, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None.

MARKETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets, to whom was referred the petitions of Mark Flanigan, A. Sheely and 355 others, of Traugott Schmidt, Geo. McMillan and 94 others, of A. Burrell, H. Hammond and 74 others, asking that the market may be retained on its present site; also a resolution adopted by the Labor Union No. 1 of Detroit, remonstrating against the removal of the market from its present site, and asking that said market be rebuilt in accordance with the recommendation of his Honor the Mayor; the remonstrance of John V. Mehling, Daniel Scotten and 350 others, of B. W. King, D. Bethune Duffield and 330 others, asking that the old building, now standing in Michigan Grand avenue, between Woodward avenue and Bates street, be removed, and the avenue be restored to its legitimate use, as a public thoroughfare; also of D. M. Ferry, H. Johnson and 362 others, asking that the old market building be removed, and the street opened as a public thoroughfare. Your committee have given the whole matter mature consideration, and are of opinion that to abolish a central market would be an outrage on the mechanics and laborers of our city. There is a portion of our citizens who do not favor a central market; they are those who board, and those who keep large boarding-houses. The former have no need of a market, and the latter contract by the year for their provisions Your committee are of opinion that the majority of our business men and heavy tax-payers are in favor of putting up a good substantial building for a market on the site of the old one. There are others who do not favor a market; those are a portion of our citizens doing business in the outskirts of the city. These are either in the grocery or butcher business, and very often in both; hence their objections to a central market. However, there are exceptions among this class. There is another portion of our citizens, who unfortunately do not board in any of our principal hotels, that ask and demand a central market. This class of tax-payers are very often called the bone and sinew of the country principally about election time.

Your committee have reference to the mechanics and laborers of our city, who, in our opinion, deserve some consideration from your honorable body. Therefore your committee can see no reason why they should change their opinion from their former report, except in one instance, that is: probably the appropriation recommended by the committee in their former report is not enough to construct a building such as the city requires. Your committee have had under consideration the petitions of D. C. Whitwood and 58 others, and of J. W. Reed and 44 others, asking that the City Hall Market be removed to Washington avenue. Your committee are of opinion that if we are going to have a central market at all, the present location is the most central place, beside being accessible from all parts of the city by street railways, which, in our opinion, is a very great convenience to that portion of our citizens who have no other mode of conveyance.

We also find on page 141, chapter 59, of the Revised Ordinances of 1871:

SECTION 1, which reads as follows: The square of ground lying between the east end of the City Hall and the west line of Randolph street is hereby declared to be a public market, and shall constitute and be known as the City Hall Market.

SEC. 2. The Common Council may from time to time establish, in addition to the City Hall Markets, such other public markets as the convenience and necessities of the city may require.

Therefore your committee would report adverse to the prayer of the petitioners.

All of which is respectfully submitted.

A. O'KEEFE,
M. BROEG,
D. SHANAHAN.

Ald. O'Keefe moved the adoption of the report.

Ald. Hough moved to lay the same upon the table for two weeks.

The Council then adjourned.

Michaels & Co for the erection of a stairway in the alley in rear of their premises on Beaubien street; also the petition of the officers of the Detroit and Milwaukee Railroad Company for permission to erect a building on a portion of Guoin street, in the Seventh Ward, have examined into the matter and are of the opinion that the city charter grants no power to the Common Council to authorize the erection of permanent obstructions to public streets or alleys, and your committee therefore report adversely.

HOUSE OF CORRECTION.

We still maintain the opinion that the House of Correction needs an auditor.

All of which is respectfully submitted,
GEO. W. HOUGH,
C. M. GARRISON.

Accepted and adopted.

SEWERS.

To the Honorable the Common Council:

Gentlemen—The Committee on Sewers, to whom was referred the petition of Mrs. H. Hawley, President, and M. J. E Miller, Secretary, of the Woman's Hospital and Foundling's Home Association, praying that lot 40, on Sherman street, between Chene street and Campau avenue, belonging to the association, may be relieved from assessment for the construction of a lateral sewer near said lot, respectfully report that, while they would gladly recommend any action tending to the encouragement of those doing so effectually the great work for which the association was organized and is being so successfully maintained, they find that the law will not permit the exemption prayed for. The amount of the assessment can neither be levied upon the other lots benefited by the sewer, nor paid out of any fund under the control of the city. The position of the association is identical with that of an individual, and the relief prayed for cannot be given without a change in the charter. Your committee are therefore compelled to report adversely to the prayer of the petitioners.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.
D. SHANAHAN.

Accepted and adopted.

The title of the ordinance was confirmed.

On motion of Ald. Welch, the Council then resumed the regular order of business.

TAXES.

To the Honorable the Common Council:

Gentlemen—The Committee on Taxes, to whom was referred the petition of Joseph Ruier, would report that they find the city has been paid only the tax due from Ruier & Rittler, who owned three one-half lots in partnership. If one has paid more than the other the matter must be settled by them; the city has nothing to do with it. The committee therefore report adversely to the prayer of the petition.

Respectfully submitted,
P. PARSONS,
J. DALY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Committee on Taxes, to whom was referred the petition of Hanley Brothers, for erroneous taxation, are of opinion, from the evidence they have been able to procure, that no injustice has been done in the assessment made and collected, and must therefore report adversely to the prayer of the petition.

Respectfully submitted,
P. PARSONS,
JAMES DALY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the petition of Mrs. Kendrick for relief from erroneous tax, would report that they find by examination that Mrs. Kendrick loaned money on a lot contracted. The conditions of the contract were not fulfilled and the lot was forfeited, thereby depriving her of her money entirely, and being absent from the city she could not make proper representations to the Board of Review. Your committee, therefore, deem her case entitled to consideration, and beg leave to introduce the following resolution.

Very respectfully,
P. PARSONS,
J. DALY.

Resolved, That the Controller be, and he is hereby directed to draw his warrant on Contingent fund in favor of the Receiver of Taxes for $14 65, to cancel that amount of tax assessed to Mrs. R. F. Kendrick on account of mortgage assessed to her.

The report was accepted and the resolution adopted by the following vote:

Yeas—Ald. Broeg, Christian, Cook, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan Stange, Welch, Woolley, and the President—19.

Nays—None.

MARKETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets, to whom was recommitted the whole matter in connection with the Central Market, with instructions to report upon the proposed site, have given the matter mature consideration. There are, we find, very many who favor taking down the shed now used as a vegetable market between Bates and Randolph streets, and erecting on its site a suitable building for a market. Your committee, however, cannot see any force in this argument, and cannot report in favor of destroying a building which cost the taxpayers of Detroit $7,000 only a very few years ago. Your committee can see no better site for a market than that recommended by His Honor the Mayor, and by your committee, in a former report; that is, 185 feet west of the west line of Bates street. This, we believe, will leave over 200 feet unoccupied between the west end of the proposed building and the Soldiers' and Sailors' Monument, which, in our opinion, will add greatly to the beauty of the monument in placing it between two such beautiful public buildings as the City Hall and proposed market building.

It will not be denied but that we are sadly in need of more public offices. Our popular and efficient Director of the Poor, and his Assistant, we have no doubt, would be very glad to get an office in the market building, and get out of the filthy basement where they are placed at present, notwithstanding the annoyance of flies that are supposed are going to infest it.

We are paying $1,500 per year for the office used by the Water Commissioners, which could be saved to the city by furnishing them an office in the proposed building. There are other commissions that could be furnished offices in this manner.

For these reasons, and many others that might be suggested, your committee cannot alter their opinion with regard to the site.

Your committee are in favor of the construction of a building that will be an ornament to the city, and would recommend that the City Controller be directed to include in his annual estimates the sum of $75,000, as recommended by Ald. Parsons, for the construction of said building. Of course, it will be a question for your honorable body to determine whether this building shall have a slate roof or not.

All of which is respectfully submitted.

A. O'KEEFE,
M. BROEG,
D. SHANAHAN.

Ald. Hough moved to lay the report upon the table for one week.

Carried as follows,

Yeas—Ald. Christian, Cook, Daly, Dullea, Flower Grelling, Hinchman, Hough, Woolley, and the President—10.

Nays—Ald. Broeg, Garrison, Litchenberg, O'Keefe, Parsons, Ruehle, Shanahan, Stange, and Welch—9.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets, to whom were referred the petitions of Wm. Phelps & Co. and 515 others, of G. Doeltz & Bro. and 900 others, asking that the market building on Michigan Grand avenue, between Woodward avenue and Bates street, be removed, and the avenue restored to its legitimate use as a public thoroughfare. Of Alfred Goodman and 42 others, J. W. Kermot and 88 others, Wm. S. Carlisle and 24 others, John Schneider and 18 others, Wm. Perkins, Jr., and others, John Gibson and others, asking that the city market be removed to Washington avenue.

Also the petitions of E. B. Ward, C. H. Buhl, James D. Standish and 400 others, of H. P. Bridge, A. C. Smith, Duncan Stewart, and 300 others, of Elisha Taylor, Math. Kramer, Shulte & Bro., Paul Gies and 200 others, asking that the City Hall Market be retained on its present site.

Your committee have examined this matter thoroughly and given all these petitions and remonstrances due consideration. We must expect difference of opinion on this matter; but, on the whole, your committee are of opinion that the present site is the proper one for a central market, for reasons set forth in former reports.

All of which is respectfully submitted.

A. O'KEEFE,
M. BROEG,
D. SHANAHAN.

CITY OF DETROIT, MAYOR'S OFFICE, February 25, 1873.

To the Honorable the Common Council:

Gentlemen—The accompanying letter I have received from the United States Commissioner requesting an emblem from this city, to be used in decorating the American Department in the Vienna Exhibition, and beg to lay it before your honorable body, with the recommendation that we improve the opportunity offered to have the City of the Straits of these inland seas represented on the Danube; and should this meet the approbation of the Council, I further recommend that you appoint a committee of conference, with power to act in conjunction with the commissioners for this State, of whom the Hon Richard Hawley is chairman, and whatever they may decide upon in the premises trust that your honorable body will sanction and provide the means to liquidate the cost.

Very respectfully,

DEAR SIR—Can you furnish this commission with a correct drawing of the coat of arms of your city in colors, and a city flag, or banners, as you may be able to spare, for the decoration of the United States Department for the International Exhibition at Vienna. They will be carefully preserved, and returned at the close of the exhibition. They should be sent to this office properly marked, to reach here by March 15, next.

I am, sir, your obedient servant,

To the Honorable the Common Council:

Gentlemen—I return to your honorable body, without my approval, that part of your proceedings on the 21st inst., ordering a contract to be made to remove the old market shed, for the reason that several propositions being now pending in the Common Council about the City Market, one which, if carried into effect, would necessarily vacate the Vegetable Market for a time, and the said old shed, such as it is, would in that case be useful as a temporary accommodation; therefore I beg to recommend delay in selling until the question be fully settled where the new market is to be located.

Very respectfully,
H. MOFFAT,
Mayor.

FROM THE BOARD OF SEWER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The undersigned Board of Sewer Commissioners respectfully ask your adoption of the accompanying resolution, requesting the Controller to include in his estimate for the year 1873 the sum of one hundred thousand ($100,000), to be raised by issuing sewer bonds, in accordance with the amendment to our city charter, April, 1871, granting the issuing of such bonds to the amount of $300,000 for constructing public sewers from the Detroit River to the northern limits of the city.

Very respectfully, your obedient servant,
A. E. BISSELL,
WALTER H. COOTS,
HARVEY KING.

Accepted, and leave being granted, Ald. Ruehle offered the following:

Resolved, That the Controller be, and is hereby directed to include in his estimates for the coming year an appropriation of $100,000 in issue of sewer bonds in accordance with amendment to city charter, April 17, 1871, to be expended during the fiscal year of 1873 on the two intercepting sewers in the Ninth and Tenth Wards.

Adopted.

FROM THE BOARD OF POLICE COMMISSIONERS,

transmitting their eighth annual report.

Accepted, and leave being granted, Ald. Woolley offered the following:

Resolved, That the first four manuscript pages of the report of the Board of Police Commissioners, as signed by said commissioners, be printed in the official proceedings of this Council; and that the whole of said report as presented be referred back to the board for printing in the usual manner, and when printed to be referred to the Committee on Ways and Means of this Council.

Adopted as follows:

Yeas—Ald. Broeg, Christian, Cook, Daly, Dulles, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Woolley, and the President—13.

Nays—None.

To the Honorable the Common Council:

Gentlemen—The Board of Metropolitan Police submit herewith their eighth annual report.

The report of the Secretary will show the financial condition of this department. The report of the Superintendent sets forth in detail the work of the force. To these reports we respectfully refer your honorable body.

In accordance with your request by resolution of March 8, 1872, this board have purchased two lots, one on Michigan avenue at the corner of Ninth avenue, and one on Gratiot street at the corner of Russell street, and have caused to be constructed on each a precinct police station-house. These are now approaching completion, and will be ready for occupancy in the spring. It is believed that they will add materially to the efficiency of this department. The two lots were purchased for the sum of $6,875. The contracts for building and furnishing the station-houses will amount to about $16,000, making in the aggregate $22,875.

It will be remembered that this board asked only for the sum of $16,000 in the estimates of last year for these new station-houses. It was then believed that suitable lots could be bought off from the main streets and small buildings erected thereon which would answer the purpose; but, after mature deliberation, it was concluded that true economy required, and greater efficiency would be obtained by, the location and construction of the present stations. The additional expense necessitates a request for an estimate this year of the sum of $11,000.

The board have had under consideration the expediency of giving up to the city their present offices in the City Hall, and the rooms and cells in the basement now occupied for the purposes of the department; and they have been inclined to ask your honorable body for an estimate for such amount as would enable them to purchase a suitable lot and erect thereon a central-station with suitable accommodations for the force, for lodgers, detained witnesses, etc., and for a morgue; but the board have not felt such a pressing necessity for this large increase in their expenditures as would justify them in making the proposed change. They have decided to remain in their present quarters and to ask only such an appropriation as will enable them to repair and refit their present station house on Woodbridge street, to provide a morgue in connection therewith (as requested by your honorable body, by resolution, October 8, 1872), and to provide additional accommodations for the homeless and destitute who seek lodgings in that station. With this view the board have decided to ask only for an estimate of $3,000 for this purpose.

By the legislation under which this board exercises its functions, it is made incumbent upon the board "to provide, at the expense of the city, all necessary accommodations within such precincts as shall be contained within the boundaries of said city, for the station-houses required by the Board of Police, for the accommodation of the police force of such precincts, *for the lodging of vagrant and disorderly persons, and for the temporary detention of persons arrested for offenses.*" It was also made "the duty of said Board of Police to furnish the same suitably, and to warm and light the same by day and night, and to provide food for any person or persons detained in any of said station houses, when such food is deemed necessary for such person or persons by the officer in charge;" and when it is considered that not less than 2,418 destitute and homeless persons during the

last 10 months sought such accommodations as were thus provided, and which are entirely unfit for even the most degraded, your honorable body will doubtless fully appreciate the necessity for this taxation.

In view of the growth of the city, and the contemplated large increase in the territory included in the corporate limits, the board deem it necessary to add to the number of patrolmen, and they have therefore made their estimate for 100 men, being an increase of 15 over the number now on duty. For similar reasons the board have also thought it prudent to ask for such an amendment of the law under which this department is organized as will enable the board to make estimates for annual expenses as high as $150,000, if necessary.

By section 7 of the law referred to, it is provided that the board "shall have power to erect and maintain all such lines of telegraph, in such places within the city as for purposes of police the board shall deem necessary, whenever the Common Council shall authorize the establishment of such telegraph lines and provide for the cost thereof." Believing that the time will soon come when the efficiency of the department will be very greatly promoted by connecting the precinct stations with the Central Station and the City Hall by a police telegraph, the board have included in their estimates an amount sufficient for that purpose, to be expended when the Council shall hereafter give the required authority.

Respectfully submitted,
J. S. FARRAND,
ALEX. LEWIS,
SIDNEY D. MILLER,
M. S. SMITH,
Board of Metropolitan Police Commissioners.

FROM THE INSPECTOR OF GAS METERS.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Mrs. McNamara for permission to make certain changes and repairs to her woodshed, in the rear of lot 8, block 46, Michigan avenue, between Third and Fourth streets, respectfully report that they have examined the same, and believing that no increase of the fire risk will be caused by said change and repairs, respectfully recommend that the prayer of the petitioner be granted.

Your committee have also examined into the matter of the petition of Wm. P. Fuller, asking permission to erect a wooden structure on the corner of Michigan avenue and Fourth street, and believing the same would increase the fire risk, respectfully report adversely to the prayer of the petitioner.

All of which is respectfully submitted,

D. DULLEA.

Accepted and adopted.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT, MAYOR'S OFFICE, March 4, 1878.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 28th ult., appointing an Inspector General of Paving, for the reason, that were such an officer appointed, his term of office would necessarily have to be by the year, in order to obtain the requisite talent, and in the session of paving one man could not possibly oversee all the work, and to appoint men under him would be no better than the present mode; therefore the cost of such a salary does not seem to be called for. The guarantee system of paving would alleviate the necessity, and I again beg to call your attention thereto.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and the vote by which the resolution was adopted was reconsidered as follows:

Yeas—Ald. Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None.

The question then being, "shall the resolution now pass notwithstanding the objections of the Mayor," the same did not prevail, as follows:

Nays—Ald. Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Woolley, and the President—18.

Yeas—Ald. Welch—1.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 28th ult., locating the market east of B ates street, for the reason that the present shed already located there only a very few years ago, costing the city some $7,000, has done good service, is in good repair, and the tax-payers should not be called upon to abandon a good structure like that merely for an idea, I repeat my former recommendation to your honorable body, to put up a substantial building on the west side of Bates street, and, as a market is more wanted for use than ornament, leave the latter to be added at a future time, as, for instance, there can easily be built an ornamental stone front against the brick wall facing the Soldiers' Monument when that gem of the Campus Martius receives its finishing touches.

The city is in debt nearly $2,000,000 now, and two years more will very probably add another $1,500,000 to that, the interest on all of which taken together, with ordinary taxation staring us right in the face, ought to prevent this city from throwing away a good market building to give place to an edifice miscalled "a credit to the city," whereas our best credit most assuredly consists in the reduction of taxes and lessening of all onerous burdens to a thrifty community.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and the vote by which the resolution was adopted was reconsidered as follows:

Yeas—Ald. Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough.

Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None

The question then being "shall the resolution now pass notwithstanding the objections of the Mayor," the same did not prevail by the following vote:

Yeas—Ald. Christian, Hinchman, Hough, Parsons, Preston, Woolley, and the President—7.

Nays—Ald. Broeg, Daly, Dullea, Flower, Garrison, Grelling, Lichtenberg, O'Keefe, Ruehle, Shanahan, Stange, and Welch—12.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER—ANNUAL REPORT.

CONTROLLER'S OFFICE,
CITY HALL, Feb. 28, 1873.

To the Honorable the Common Council:

Gentlemen—Conforming to the requirements of section 24, chapter 8, of the charter of the city of Detroit, the undersigned, City Controller, has the honor of presenting to your honorable body his annual report of the Receipts and Expenditures of the CITY OF DETROIT for the financial year commencing April 1, 1872, and terminating January 31, 1873, both inclusive, in which is given a full, complete and detailed statement with tabular lists of all moneys received and expended by the corporation for the preceding fiscal year, showing on what account they were received and expended, to what funds they were credited, and out of what funds they were paid, and classifying each receipt and expenditure under its appropriate head.

The cash balance in the city treasury April 1, 1872, was	$ 73,806 14
The receipts during the year have been	1,114,197 81
Total	$1,188,003 95
The disbursements during the year have been	1,093,859 54
Balance of cash in the treasury February 1, 1873	$ 94,144 41

Pursuant to a resolution adopted at the citizens' meeting, held April 29, 1872, authorizing the issue of $100,000 in public sewer bonds, for the building of the large public sewers in the Ninth and Tenth Wards, proposals were asked by advertisement, and circulars were issued from this office, for the purchase of those bonds. Offers were received to the amount of $209,000, ranging from par to one-half per cent. premium and accrued interest. These bonds were issued from time to time, as money was required, until $80,000 was disposed of. The season closing early there was no necessity for a further issue. It is a fact well worth noting that these bonds were so readily taken up, and at such a high rate, entirely by our own citizens.

Until one year ago the city was unable to dispose of its bonds except by allowing a small commission, which was authorized by the Council at the time. While the present high standing and credit of our city must be gratifying to all, it is not claimed that this fact is due to those who have had the finances in charge for the past two years. The credit is equally due to those who have had this branch of the city government intrusted to them for many years past. When the bonds for the City Hall were first offered our city had but a small debt, and its securities were comparatively unknown in the market, and consequently were disposed of under great difficulties. But as other lots were offered and became known our bonds have gradually appreciated in value to such an extent that during the last year they have commanded a premium.

It is my firm belief that in providing for the expenses of public works the city should issue bonds only in extreme cases. Our rate of taxation is and always has been very low, and there is no good reason why a city, any more than an individual should borrow money to pay for improvements when it is perfectly competent to pay for the same by taxation. In this connection the words of Gov. Bagley, in his inaugural message, are applicable and to the point.

"It is so easy to issue a bond, placing upon posterity the obligations that belong to us, that our people avail themselves of it too thoughtlessly. We cannot anticipate the time when there will be no taxes to pay. Posterity will have burdens incident to its time to bear, the same as we have. The bonded debt of the cities and towns of this State must be very large, and, I judge, is increasing yearly. I wish we could turn over a new leaf in this direction, and adopt, as far as is practicable, the old fashioned 'pay-as-you-go' doctrine."

It is very plain to be seen by those who take an interest in our municipal affairs and note the "signs of the times" that we have arrived at that point in the history of cities when, to some, it seems not only desirable, but necessary, to have a large bonded debt.

Our debt at the present time is very much less than other cities having about the same population, and it has been observed that, while their debts exceed ours, as well also their rate of taxation, our city loses nothing by comparison in public improvements or appearance.

THE SINKING FUNDS.

During the past fiscal year redemption bonds to the amount of $10,500 became due, which were promptly paid on presentation. On the 1st day of April, 1873, redemption bonds (issue of 1853) mature to the amount of $12,000, the payment of which is fully provided for by the Sinking Fund. No bonds fall due in 1874, and but $45,000 in 1875, and for the years 1876 and 1877 none. In 1878 $50,000 redemption bonds of 1858 mature, and in 1879 $80,000 of the issue of 1859 and 1861, together with House of Correction bonds to the amount of $50,000. To meet the payment of these bonds

there is in the Sinking Fund at the present time $72,753 20, which, with its annual appropriation ($10,000) fixed by law, and the interest on bonds held for the benefit of the fund, together with its annual income from interest on deposits, percentages, etc., will, if properly invested from time to time, provide for the entire liquidation of the debt as it matures. To this en street paving bonds have been purchased, as the state of the fund would warrant not only for the Sinking Fund, but for the Street Paving Sinking Fund, and the results have been very advantageous to both funds, as will be observed by the statement annexed.

This fund has for many years been carefully guarded by the commissioners, and it is to their efforts and care that we are indebted for the credit which our city sustains, not only at home but abroad. It is to hoped that no change will be made in the laws providing for the annual revenue of this fund

The Street Paving Sinking Fund was created for the purpose of providing for the payment of the street paving bonds as they should mature. Under the present system of providing for the cost of paving an assessment is made by the City Assessor in four parts, each part containing a list of the lots or parcels of lands abutting on the street paved, with the names of the owners or occupants of each lot or parcel. Such parts of said assessment roll are numbered one (1), two (2), three (3), and four (4), repectively. This assessment roll constitutes a lien on the lots or parcels of land adjoining the streets paved, and payments are due and payable on the roll as follows: Part No 1 on the confirmation of the assessment roll; parts Nos. 2, 3 and 4 in one, two and three years respectively, with interest payable in advance. The payments constitute a fund denominated the "Street Paving Sinking Fund," to provide for the bonds on maturity: and the interest paid constitutes a fund denominated the "Street Paving Interest Fund," to provide for the payment of the interest when due on the bonds.

While the city pledges its faith and credit for the payment of the street paving bonds, the property adjoining the streets paved is held liable for the same with interest, and the debt is not therefore considered as part of the bonded debt of the city.

The payments of part one have been immediately paid to the contractor, as provided by the charter and ordinances. While one, two and th ee years have been given to the abuttors to pay the balance, a large number preferred to pay the whole amount of the assessment at once and thus save interest, the result of which has been that a considerable sum accumulated in the "Street Paving Sinking Fund," which was realizing but a nominal rate of interest. At a meeting of the Commissioners of the Sinking Fund held in September, 1871, it was decided to invest these advance payments in the purchase of street paving bonds, that would realize a higher rate of interest, and the Controller was authorized to purchase bonds from time to time, as in his judgment the state of the funds would warrant. The result has been very gratifying, as this course enhanced the value of the bonds in the market, enabling the contractors to realize at a small discount, while the gain to the Sinking Fund has been far from insignificant.

Of these bonds $104,496 59 have been paid during the last year, of which amount the commissioners held $70,877 12. Of the bonds due in 1873, 1874, 1 75 and 1876, amounting to $234,091 52, the commissioners hold $119,097 14 The interest thus being realized will add a large amount to the funds in addition to the gains already shown and no doubt it will be deemed wise by the city to transfer the surplus of the Street Paving Sinking Fund and the Street Paving Interest Fund to the Sinking Fund whenever those funds shall be closed. All bonds purchased and held for the benefit of these funds are in the custody of the City Treasurer as the ordinance provides. The amount of gain to the Sinking Funds by investing in the paving bonds as follows, since the first purchase in October, 1871:

SINKING FUND.

Interest and discount on bonds in the purchase thereof	$ 818 77
Interest earned and accrued	445 36
Total gain	$ 1,764 13

FOR STREET PAVING SINKING FUND.

Interest and discount on bonds in the purchase thereof	$ 4,166 82
Interest earned and accrued	17,947 83
Total gain	$22,116 65
Total gain for both funds	23,880 78

INTEREST FUND.

The amount of interest paid during the past year upon coupons presented is $50,427 50.

GENERAL FUND.

The expenditures from this fund have been during the past fiscal year $119,660 84. All salaries of city officers and clerks, Board of Health, Board of Review, election expenses, printing and advertising, stationery, gas for street lamps and public buildings, fuel, lamps and lamp-posts and repairs to the same, etc., are paid from this fund. It is hoped that the committee who are engaged in the revision of the city charter will suggest some changes that will lessen the expenses of the fund.

CONTINGENT FUND.

The expenditures from this fund have been $17,503 06, the greater portion of which is made up of purchase of land for a pesthouse, care of smallpox patients, taxes refunded, etc.

CITY POOR FUND.

The payments from this fund have been $17,281 87.

PUBLIC SEWER FUND.

The expenditures from this fund during the year have been $126,477 79. The full and comprehensive report of the Board of Sewer Commissioners will explain the details of this work.

PUBLIC BUILDING FUND.

The expenses on account of this fund, for repairs to public buildings, markets, hay scales, pounds, etc., have been $5,491 09.

PARK IMPROVEMENT FUND.

The amount expended for the improvement of the several small parks, for salary of Superintendent, pay roll of laborers, planting trees, tree boxes, benches, repairs to fences, gravel for walks, etc., has been $2,111 38. It is the belief of many of our citizens that if the amounts that have been appropriated to this fund in the past had been used in a judicious manner our parks would to day be in a far better condition.

NEW CITY HALL FUND.

The amount paid from this fund during the year is $11,096 38. The balance due C. C. Moody, for work on the grounds, and the Weber Manufacturing Company, for furniture, comprises nearly the whole amount.

STREET OPENING FUND.

The amount paid from this fund for the awards of jurors, etc., in street opening is $13,669 19 It is hoped and believed, that the laws in reference to the opening of streets may be so amended that there will be less cause of complaint in the future as to to the use of this fund.

GENERAL ROAD FUND.

At the last citizens' meeting an appropriation of $100,000 was made to this fund The indebtedness of 1871, amounting to $94,173 10, was paid, and the following items comprise in part the expenses of the past year: Relaying of Fort street west pavement, $10,185 72: relaying Atwater street, $3,273 37; completion of Jefferson avenue contract for covering pavement, $ .993 65; relaying Hastings street, $867 56; the city's proportion of paving streets and alleys, $8,899 02: sidewalks adjacent to city property, $6,923 50: crosswalks and repairs to crosswalks, $3,120 09: intersections of sidewalks, $3,601 23; repairs of paved streets, wood and stone, $5,669 05; pay-rolls laborers cleaning streets, $1,783 40, and pay-rolls of Inspectors of Paving, $9 6 00.

That the repair system to our paved streets is very faulty, no one disputes. It would seem best

to divide the city into two districts, and with a competent and faithful person in charge of the work, which should be done by the city, better satisfaction would be given and the expense be much less.

The ordinance as amended for taking up pavements for connecting with gas, water, sewers, etc., has been productive of much benefit, and has saved a large amount of money to the city. By its strict enforcement a saving of from $8,000 to $5,000 per year can be effected for this fund.

The present system of paving, inspecting and the acceptance of work done upon streets is very defective, and there is ample opportunity for reform. Competent men should be in charge of all public work, and be held to a strict accountability for their official acts. Whether this can be best accomplished by a board of public works or by appointing experienced persons as superintendents is a question for our citizens to decide.

ROAD DISTRICT FUNDS.

In the 10 wards during the past year the amount paid for street cleaning, building of crosswalks, working of streets etc., etc., has been $52,876 70.

The defects in the working of this branch of the city government are too well known to need any review from this office.

REVISION OF CITY CHARTER.

Were it not that a committee is now in session, having under consideration the advisability of amending the charter wherever defective, advantage would be taken of this opportunity to call your attention to many serious defects in the charter which have a tendency to cause confusion in the different offices and prevent the carrying out of public business in all its details to that complete-Less which is desirable.

In conclusion I am pleased to state that every department of the city government has been economically administered. Every bill of whatever nature passes before the very efficient Committee on Claims and Accounts, and before it can be paid is acted upon by your honorable body. Each department of the city government is being faithfully administered, and every officer is held to a strict accountability for his doings by your body or its proper committees.

The system of checks in the money department, introduced in July, 1871, has been eminently successful. Since it went into operation over $2,500,000 have been received into and paid out of the city treasury, without the occurrence yet of a single error Had this system been in operation during former years no defalcation would have been possible, as all cash transactions of the city are balanced each day. By this, also, the city receives full interest on its deposits.

I take this opportunity to express my deep sense of obligation to each member of your honorable body, to the various committees, and to the city officers without exception for the many courtesies extended to me officially and otherwise.

Very respectfully, etc.,
E. I. GARFIELD,
Controller.

others, asking that the Detroit and Milwaukee and Michigan Southern Railroad Companies be required to station a flagman at the crossings of their road over Rivard and Riopelle streets, have considered the matter, and find that there is impending danger both to life and property, consequent on the increase of traffic over said railroads at the two points above named; and your committee therefore recommend the following:

Resolved, That the City Attorney be, and he is hereby instructed to notify the officers of the Detroit and Milwaukee and Michigan Southern Railroad Companies in this city to at once cause to be located at each of the crossings of their road over Riopelle and Rivard streets a flagman, for the purpose of guarding against accidents or damage, and in the event of their non-compliance to report to the Council a proper ordinance to carry into effect the prayer of the petitioners.

Respectfully submitted,

C. M. WELCH,
G. GRELLING,
DANIEL SHANAHAN.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the petition of Daniel Scotten, E. W. Meddaugh, Francis Adams and others, asking permission and authority to construct and operate a street railway from Woodward avenue through Congress, Seventh and Baker streets to the Grand Trunk Junction have had the matter under consideration, and have examined the route proposed by the petitioners, and have carefully considered the feasibility and importance of the project. And while your committee would desire to preserve the condition of our public streets and thoroughfares for local traffic and public use, yet the rapid growth of our city in all directions demands greater facilities for quick and easy access from the center to the suburbs. The uniform level character of the ground in and about the city renders it peculiarly advantageous for street railway purposes, which mode of public conveyance is generally approved by our citizens. The continued increase of population in that portion of the city adjacent to the Grand Trunk Junction, together with the several new lines of railroad converging at the latter point, and the extensive manufacturing establishments already in operation, all add to the importance of the proposed street railway project.

Your committee have been unable to find that there is any objection to the proposed street railway on the part of the property owners on the line of the proposed route, and we therefore recommend that the Committee on Ordinances and the City Attorney be instructed to prepare and submit to the Council an ordinance granting to the corporation named in the petition consent, permission and authority to construct and operate a street railway, to be completed within a given time and under such restrictions and provisions as will best serve the interests of the public and protect the rights of the city and the corporators.

All of which is respectfully submitted.

C. M. WELCH
G. GRELLING,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the resolution submitted to your honorable body by Ald. Woolley, instructing the City Controller to advertise for three weeks for the lowest terms on which the city will be allowed to use any or all the wood pavements now in use.

After a somewhat extended examination into the merits of the proposition and careful consideration of the same, your committee have been unable to find that any possible benefit would result from the adoption of the resolution above referred to, and fear that any departure from the present system of inviting proposals for and awarding of contracts might involve questions of law, from which the city is at this time well relieved.

The present system has been well settled and adjudicated by the courts, and has promoted every year lively competition in the bids for paving contracts. Particularly since the year 1869, prior to which time the matter of wood-paving may justly be regarded as having been a monopoly in this city, as the prices paid as per contracts awarded for Nicholson pavement prior to the year 1870 would average about $2 40 per square yard for paving, and 60 cents per cubic yard for excavation. Since the year 1869 the average prices paid as per contracts awarded would range between $1 80 and $1 65 per square yard for wood-paving, and 35 to 45 cents per cubic yard for excavations which prices are much lower than those paid by any of our neighboring cities. Even in the city of Cleveland, where the right to lay Nicholson pavement has been purchased by the city, the prices paid last year, as per contracts awarded for said pavement, and in accordance with the plan proposed by the resolutions referred to, was $2 40 per square yard.

The above facts, together with many other considerations equally important—but which your committee do not deem necessary to mention—sufficiently demonstrate that there can be no pecuniary or practical benefit derived to the city from the proposed system of purchasing royalty for patent wood pavements.

The owner of a patent or his legal representative will be found to be more careful in preserving the merits of his patent than one who merely enters into the field as speculator, under the auspices of the city government.

Your committee therefore report against the adoption of the resolution

All of which is respectfully submitted.

C. M. WELCH,
G. GRELLING.
D. SHANAHAN.

Ald. Welch moved the adoption of the report.

Ald. Woolley moved to lay the matter upon the table for one week.

Ald. Woolley moved to indefinitely postpone further consideration of the report.

Ald. Ruehle moved to lay the report on the table until the next session of the Council.

The motion prevailed.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition for cancelation of tax sale by Christian Boots, respectfully report that we find the facts stated in the petition true, and ask the adoption of the accompanying resolution.

Respectfully submitted.

PHILO PARSONS.
DAVID PRESTON.

The report was accepted, and the resolution adopted by the following vote:

SUSPENSION OF THE RULES.

Ald. Parsons moved to further amend by reducing the amount of license for the first day's performance to the sum of $5, and for each succeeding day $2.

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Joseph Wittelsberger, asking to be relieved from lateral sewer assessment on lot northwest corner of Hastings and Mullett streets, report that a notice was served at petitioner's house on September 28, 1872, notifying him that the Common Council had ordered an assessment on his lot for construction of a lateral sewer, and in case of claiming exemption, to show reason therefor to the Common Council at its next regular session after the expiration of five days from date of said notice, according to section 2, chapter 56, Revised Ordinances.

There being no objection to the sewer, and no exemption claimed, the assessment roll was confirmed by your honorable body on the 25th of November, 1872.

FROM THE BOARD OF SEWER COMMISSIONERS—ANNUAL REPORT.

SEWER COMMISSIONERS OFFICE,
DETROIT, March 11, 1873.

To the Honorable the Common Council:

Gentlemen—We have the honor to submit to your honorable body this our 14th annual report, with detailed statement of sewers built, public and lateral, during the year 1872, their cost, length and location. Also, expenses of repairs and new receiving basins ordered during the past year; together with connections made with public and lateral sewers; the amount of money received for the same and paid into the City treasury from January 1 1872 to February 1, 1873.

Several of the contracts for public sewers during the past year were not completed, in consequence of the lateness of the season at which those contracts were let; the winter commencing early, operations were necessarily suspended and their completion deferred until the present year.

We find after paying for the sewers contracted for in 1872 we shall have a balance in the treasury to the credit of the Sewer fund amounting to $20,000, which sum we would recommend be expended in the construction of an outlet in Twenty-first street, from Fort street to the river

From the year 1859 to 1871, inclusive, the past Controllers have drawn warrants on the Sewer fund amounting in the aggregate to the sum of $3,130 98, the claims for which said warrants were drawn being duly authorized by the Common Council, but not presented to this board for their certification, in accordance with sec. 9, chap. 12, Revised Ordinances of 1871, which amount has been charged up from the fund of 1872.

We would most respectfully recommend to your honorable body the construction of the following public sewers, to be built as early as possible during the season of 1873.

Respectfully submitted,
A. E. BISSELL,
WALTER H. COOTS,
HARVEY KING,
Board of Sewer Commissioners.

Accepted and referred to the Committee on Sewers.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—We herewith respectfully submit to your honorable body propositions this day received from Messrs. Belknap & Drake and John Bigley & Co., for the right of way to the city for a public sewer through their premises, in order that this board, with your sanction, may build during the coming season a sewer and outlet in Twenty-first street.

The proposition of Messrs. Belknap & Drake deeding the "right of way" for said sewer to the city, for and in consideration of $1, was approved by this board, and we respectfully ask the approval of the same by your honorable body.

Very respectfully,
A. E. BISSELL,
WALTER H. COOTS,
HARVEY KING.

[Copy.]

DETROIT, March 6, 1873.

To the Board of Sewer Commissioners:

Gentlemen—As regards the building of a sewer through our property at the foot of Twenty-first street we would submit the following:

Will deed the right of way to the city for the sum of $1, subject, however, to the following provisions: That the sewer, when completed, shall not be above the level of our present dock; from the water's edge to the channel bank the west side of the coffer-dam shall run parallel with our west line; that part of the sewer between the outer edge of our dock to Woodbridge street shall be built and completed between May 1 and September 1, 1873; the plank road and the dock shall be left in as good condition as found; in case the level of the sewer comes above the level of our yard so much of the surplus dirt south of Fort street as we may require (not wanted for sewer purposes) shall be deposited on our lot free from any expense to us.

Very respectfully,
BELKNAP & DRAKE.

[COPY.]

DETROIT, March 10, 1873.

To the Honorable Board of Sewer Commissioners of the City of Detroit.

The undersigned would respectfully submit for your consideration the following proposition to give the city the right of way for the sewer through their premises for the sum of eight hundred dollars, ($800) with the privilege of having the surplus dirt from said sewer in case we conclude to use it.

Very respectfully,
JNO. BIGLY & CO.

The report was accepted, and leave being granted, Ald. Ruehle offered the following:

Resolved, That the proposition of Messrs. Belknap and Drake to deed to the city the right of way for a public sewer through the premises, for and in consideration of the sum of one dollar, is accepted and approved, and that the City Counselor be and is hereby directed to draft the necessary writings for the same.

Objected to, and laid over under the rules.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—As will be seen by referring to our annual report, we find that after completing the contracts for 1872 we shall show a balance in the city treasury to the credit of the Sewer Fund of $20,000, which sum we have recommended for the construction of a sewer and outlet in Twenty-first street, from Fort street to the river; and as this board is desirous of fulfilling the provisions stipulated in the "right of way" for said sewer, we

most respectfully ask the adoption of the following resolution:

Resolved, That the Board of Sewer Commissioners be, and are hereby directed to advertise for proposals for constructing a sewer and outlet in Twenty-first street, from Fort street to the Detroit River.

COMMON COUNCIL.

DETROIT, Friday, March 14, 1878.

The Council was called to order by the President *pro tem.*, the Hon. Smith R. Woolley.

UNFINISHED BUSINESS.

On motion of Ald. Ruehle the following resolution, presented by himself at the last session of the Council, in connection with the report of the Sewer Commissioners, was taken from the table:

Resolved, That the proposition of Messrs. Belknap and Drake to deed to the city the right of way for a public sewer through their premises, for and in consideration of the sum of $1, is accepted and approved, and that the City Counselor be, and he

is hereby directed to draft the necessary writings for the same.

In connection with the same Ald. Daly presented the following petition:

DETROIT, March 18, 1873.

To the Honorable the Common Council:

Gentlemen.—The undersigned would respectfully state that in tendering a proposal to the honorable Sewer Commissioners for the right of way for the Twenty first street sewer, that we were under the impression that the right of way through private property would be determined by a jury; that in view of this fact we withdrew our first proposition, wishing a jury to decide: that we frequently informed two of the Sewer Commissioners, Messrs. Coots and King, that they could have the right of way on our premises on any terms they would name; that on Monday, March 10, at noon, we were informed by Commissioner Coots that the commissioners would meet at 2 o'clock to consider the right of way for said sewer: that having only an hour to consider, and thinking, from what City Counselor Holbrook informed us, that a proposal would be informal, we sent one in at 2 o'clock; that in the evening we were informed by Commissioner Coots that the question was definitely decided, much to our surprise; and we respectfully state that, being misinformed in regard to the damages caused by said sewer, we, on considering, find that there is no damage, and would respectfully ask to withdraw our bid and submit the following: That we will deed the right of way to the Twenty-first street sewer from Woodbridge street to the channel of the river for the smallest legal sum; and would respectfully state that, in the event of the city opening Twenty-first street from Woodbridge street to the channel bank of the river, we will deed the city 20 feet of ground for said street for one-half the valuation a jury may assess, the city to open said street any time within five years. Your petitioners pray that the whole matter may be referred to a committee to examine the same and report what should be done in the premises.

Very respectfully,

JNO. BIGLY & CO.

Ald. Daly moved that the resolution be laid on the table for one week

COMMUNICATION.

NEW YORK, March 10, 1873.

To the Honorable Mayor and Common Council of the City of Detroit:

Gentlemen—The Misses Greeley desire to return warmest thanks to the Common Council of Detroit for their kindness in forwarding to them a copy of their valued resolutions in honor of their late lamented father.

Accepted and placed on file.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE STREET COMMISSIONER, WESTERN DISTRICT.

To the Honorable the Common Council:

Gentlemen—In reply to the petition of Thomas Reilly and others, for the construction of a deep ditch on the east side of Twenty-second street, as instructed by your honorable body, I would report that deep ditches in sandy soil, where they can be avoided, are expensive drains, and would ask for further instructions.

Very respectfully, your obedient servant,

HENRY KNOWLES,

Street Commissioner of the Western District.

Accepted, and leave being granted, Ald. Daly offered the following:

Resolved, That the Street Commissioner of the Western District be, and he is hereby instructed to put the necessary culverts in Twenty-second street to drain the water from the east side to the west side into the ditch already constructed.

Objected to and laid over under the rules.

Ald. Dullea was excused from further attendance.

FROM THE BOARD OF INSPECTORS OF THE HOUSE OF CORRECTION.

To the Honorable the Common Council:

Gentlemen—The Board of Inspectors of the Detroit House of Correction respectfully represent to your honorable body that, in view of the change in the office of Superintendent of that institution it seems to them proper and eminently desirable to obtain a new inventory and appraisal, by disinterested persons, of all the property belonging to and pertaining to the institution, upon the basis of the present cash value of such property to said institution; that, in order to obtain such an appraisal, it should be made under the direction of the Council, and independently of the Inspectors and Superintendent; and that in their

opinion the appraisal so made will be more satisfactory to all concerned than if made by any other mode that can be suggested.

We therefore respectfully request your honorable body to cause an inventory and appraisal to be made by a committee of citizens, who shall be authorized to employ experts in the different departments, or by such other means as may seem to you just and preferable.

JEFFERSON WILEY,
Chairman of the Board of Inspectors.

The communication was accepted.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 12th inst., and the same were aproved on the 14th.

GUY F. HINCHMAN.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the list of approved accounts at the last meeting of the Council, have examined the same, and finding them correct, ask their payment.

Accepted and adopted, as follows:

Yeas—Ald. Broeg, Christian, Daly, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, and the President *pro tem.*—15.

Nays—None.

HOUSE OF CORRECTION.

To the Honorable the Common Council:

Gentlemen—The Committee on House of Correction would respectfully report to your honorable body that in conference with the Inspectors of the House of Correction, they agree with them that at this juncture of the affairs of that institution it seems advisable that a new inventory of the property of that institution should now be made, and by disinterested experts. They recommend the accompanying resolution.

GEO. W. HOUGH,
SMITH R. WOOLLEY,
C. M. GARRISON.

Resolved, That the Committee on House of Correction, in conjunction with the Mayor and Inspectors, be empowered to appoint proper persons to take an inventory of the property of the House of Correction, appending thereto the cash values of such property.

Accepted and adopted by the following vote:

Yeas—Ald. Broeg, Christian, Daly, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, and the President *pro tem.*—15.

Nays—None.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, who were instructed to investigate the proposed route of the Detroit Transit Railroad, would respectfully report that they have been over and carefully inspected the proposed line, and would recommend liberal privileges and concessions to any company disposed to build and equip said road: 1st, Because we are of opinion that the very large increase of taxable values resulting from the construction of the road through a part of the city now comparatively of little value will amply compensate the city for such concessions. 2d, Your committee believe that the construction of this road, thereby connecting the large manufacturing interest of the upper part of the city and Hamtramck by steam with the great system of railroads centering in and radiating from Detroit, will not only give a renewed impulse to the great enterprises already in existence, employing over 8,000 men, but will be the means of securing manufacturing establishments, involving much larger investments of money and a proportionate increase of operations, which are now virtually ruled out for the want of transport facilities. After careful consideration this committee deem the imposition of a tax of 25 cents on each loaded car which passes over said Transit Railway (should it be built), both unwise and impolitic, as it would be discriminating against those great interests which are the very foundation of population and wealth among us, and which should be nursed and fostered rather than hindered by unjust imposts. Were this a great route for passenger traffic the case would be different, but it is solely for freight, and the construction of the road is essentially connected with the future welfare of the city as well as individual citizens.

All of which is respectfully submitted.

P. PARSONS,
C. M. GARRISON,
GUY F. HINCHMAN,
C. M. WELCH,
WM. LICHTENBERG.

Ald. Flower moved to lay the report upon the table for two weeks.

Lost.

The report was accepted.

Ald. Daly raised the point of order that the above special committee having once reported upon the matter, the committee could not so report a second time.

The chair ruled that the said committee never having been discharge, the report was properly before the Council for its consideration.

Ald. Daly appealed from the decision of the chair, and the question being "shall the decision of the chair stand as the decision of the Council," the chair was not sustained, as follows:

Yeas—Ald. Broeg, Grelling, Hinchman, Lichtenberg, Parsons, and Preston—6.

Nays—Ald. Christian, Daly, Flower, Garrison, Hough, O'Keefe, Ruehle, and Shanahan—8.

RESOLUTIONS.

THIRD WARD.

By Ald. Flower:

Whereas, It appears from the progress made by the acting members of the committee appointed to report amendments to the charter that the further prosecution of the matter in the manner proposed would be useless and unsatisfactory,

Resolved That said committee be discharged from further consideration of the matter referred, and no further proceedings be taken under the resolution appointing said committee.

Adopted.

FIFTH WARD.

By Ald. Preston:

Resolved, That the Committee on Ways and Means and the Controller be, and are hereby directed to examine and adjust the accounts of Wm. Y. PROPOSED AMENDMENTS TO THE CHARTER.

BOARD OF PUBLIC IMPROVEMENTS.

SECTION 1. There shall be appointed by the Common Council, on nomination of the Mayor, as soon as practicable after the passage of this act, four persons, freeholders and electors of the city, (one of whom shall be a practical mechanic and one of whom shall be a practical mason), who shall constitute a board to be known and designated as the Board of Public Improvements. Such persons shall hold their offices for the term of one, two, three and four years respectively from the third Tuesday in January, 1874, which terms shall be determined by lot in the manner to be prescribed by ordinance for drawing lots. Each succeeding member shall be nominated and appointed in like manner on the second Tuesday in January in each year, and for the term of four years, (and the board shall at all times contain one practical mechanic and one practical mason as members). Each member of said board shall receive such salary per annum as the Common Council may from time to time establish. Each member shall devote his entire time to the performance of his official duty, and for any failure or neglect to do so, or from any other cause deemed sufficient, may be removed from office in the same manner as other officers of the city are removed by the Common Council.

SEC. 2. There shall be appointed by the Common Council, on the nomination of said board, a City Engineer, who shall hold his office for the term of four years, unless sooner removed, and whose duty it shall be to perform all the duties heretofore required of the City Surveyor, not in conflict with this act; all civil engineering and any duty that may be required of him by the said board, or by any resolution or ordinance of the Common Council; and he shall devote his entire time to the performance of his official duties.

SEC. 3. The Board of Public Improvements shall have power to determine the general plan of streets and alleys of such portions of the territory now or hereafter lying within the corporate limits of the city as shall not already be laid out and platted at the time of the taking effect of this act. If approved, they shall indorse their approval on all plats of such streets and alleys.

SEC. 4. They shall not have power to change such plats, when once approved and adopted by them, unless authorized so to do by a resolution of the Council, passed by a three-fourths vote of the members present.

SEC. 5. They shall establish a system of grades for all streets and alleys within said corporate limits, and when once established, no grade shall be changed except by resolution of the Council, as above provided.

SEC. 6. It shall establish a system of sewers for the entire city, and cause to be designated on said plats the streets through which the same are to be constructed; and no street shall be paved until the sewer to be constructed through the same shall be completed so far as the pavement is to extend.

SEC. 7. The said board shall also, before any street is paved, require the Board of Water Commissioners of the city of Detroit to lay down all needful pipes for the conveyance of water through said street so far as the pavement is to extend. And where water pipes are already laid through any street about to be paved, and in the opinion of the Board of Improvements new pipes will be necessary under the proposed pavement within the succeeding five years, they shall require the Board of Water Commissioners to lay down said new pipes, and said last named board shall carry out such requisition.

SEC. 8. The Board of Public Improvements shall supervise the grading and paving of all streets, avenues, alleys and public grounds, the cleaning, working, repairing and improving of all streets, avenues, alleys and public places, and also of public wharves, docks, bridges, culverts, receiving-basins, sewers and water-courses within said city; the improvement and ornamentation of all parks and public grounds within the city, the laying of all gas or water-pipes through any street or alley; the construction of all sewers and drains; and no person shall make any connection therewith without the consent of said board, and under such general rules and regulations as the board may adopt.

SEC. 9. It shall supervise the laying down of all sidewalks and crosswalks; the construction of all vaults under any portion of said streets; the erection of all public buildings and works of the corporation, or any board thereof within or without the city, and may stop the work thereon when the same is not being done according to the contract thereof. Provided, however, that this clause shall not be construed to give the board any right to interfere with or change the plans or specifications of such buildings or works, nor authorize them to demand any variation therefrom.

SEC. 10. When the construction of any building or work of the corporation shall require peculiar skill, the Common Council may, by resolution, authorize the board to employ a competent person to superintend the same at a compensation not exceeding a sum to be stated in said resolution.

SEC. 11. Said board for the purpose of repairing, cleaning, working and improving streets, alleys and public places, as aforesaid, shall divide the city into convenient districts, defining the same with fixed boundaries, and shall file in the office of the City Clerk a description of each of said districts.

The said board whenever deemed necessary may advertise in their own name for proposals for repairing, cleaning, working and improving streets, alleys, and public places in the same manner as the corporation is now required to advertise when proposals are sought.

The board shall let the contract for such work to the lowest bidder, who shall give adequate security to the city of Detroit for the faithful performance of his contract.

The board shall not change the boundaries of said district after advertising as above provided.

SEC. 12. When any public improvement (except the opening of public streets), or public work is proposed, the Common Council shall, before proceeding with the same, refer the matter to said Board of Improvements, and the board last named shall forthwith proceed to examine the same, and shall as soon as practicable report thereon to the Common Council, giving detailed estimates of the costs of such works or improvement (if any costs there will be), and shall make such recommendation as said Board of Improvements may deem expedient.

SEC. 13. The said Board of Public Improvements shall, in the month of January in each year, present estimates to the Controller of the amount of money by them deemed necessary to be raised for the next fiscal year to pay the expenses of repairing, cleaning, working and improving the streets, alleys and public places in said city, and of the amount of money necessary to be raised or bonds to be issued for the construction and repairing of

public sewers, buildings, or other public works to be carried on under their supervision during said year.

SEC. 14. The said board shall have power to appoint a secretary and employ such clerks at such salary as shall be from time to time determined by the Council, and shall have power to adopt such rules and regulations for its own and the government of its employes, as it may deem necessary and expedient to effect the purposes of its organization, and also to remove any person so appointed at its pleasure.

SEC. 15. All work done under the supervision of said board shall be reported to the Common Council from time to time, and no money shall be paid out of the treasury on account of any work so done until the Common Council shall have instructed the Controller to draw his warrant therefor.

SEC 16. Said board shall also exercise such other powers and perform such other duties in the superintendence and construction of public works, improvements and repairs constructed by authority of the Council, or owned by the city, as the Council may from time to time direct.

SEC. 17. The offices of Street Commissioners, Overseers of Highways, City Surveyor, the Board of Sewer Commissioners, Commissioners on Plan of the City and all other offices whose duty is to be performed by the Board of Public Improvements are hereby abolished from and after the third Tuesday of January, 1874.

All damages, fees, costs and expenses of making such improvement shall be collected in the manner prescribed in section 25 of this chapter.

SEC. 26. COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT, MAYOR'S OFFICE,
March 21, 1873.

To the Honorable the Common Council:

Gentlemen—I beg to call your attention to the matter of ferriage between this city and Windsor, Ontario.

Detroit wants all the traffic, socially and commercially, that can possibly be obtained from so near a neighbor as Windsor, and the present arrangements of the ferry-boats are productive of delays and other inconveniences which might be remedied by the addition of another ferry wharf.

Therefore, I must respectfully recommend that a committee be appointed by your honorable body, consisting of several Aldermen and the City Counselor, to hold a conference on this subject, with a committee from the Town Council of Windsor, who it gives me pleasure to state have already taken the initiative in the premises and seem anxious to arrive at some amicable settlement of this ferry question for our mutual benefit.

Very respectfully,

H. MOFFAT,
Mayor.

The communication was accepted and placed on file, and, on motion of Ald. Woolley, the recommendation was concurred in.

The chair appointed as such special committee Ald. Woolley, Hinchman, Grelling, Flower, and Ruehle.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

Gentlemen—Upon your resolution relating to the extension of Detroit and Scott streets, I respectfully submit the following:

The extension of Scott street, unless a dedication is made to the city, will necessitate the taking of private property by a jury. As to Detroit street, it appears that if extended as proposed, it would be necessary to take land in the old cemetery, in which there yet remain the graves of persons known and unknown, headstones and boards are standing with no indications in some cases of the removal of the bodies buried there. Although this ground was used as a potter's field it is seriously questionable if the city has the entire title thereto. In any event I am of the opinion that the safest way to extend Detroit street as proposed is by a jury.

If both of these streets must or ought to be opened by a jury it will be impossible, according to the provisions of section 11, chapter 8 of the charter, to proceed, until a tax or assessment shall have been levied to defray the cost and expense thereof, there being now no funds in the treasury for such purposes.

Very respectfully,

F. G. RUSSELL,
City Attorney.

To the Honorable the Common Council:

Gentlemen—The Committee on Claims and Accounts would respectfully report that they have examined the list of approved accounts presented at the last meeting of the Council, and, believing them to be correct, ask you to authorize their payment.

F. RUEHLE.

Accepted and adopted as follows:

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred back the report submitted to the Council in regard to granting permission to certain persons to construct and operate a street railway from the Grand Trunk Junction to Woodward avenue; also the petition of F. Buhl, Esq., for the Fort Wayne and Elmwood Railway Company, asking permission to construct an additional single track from the intersection of Sixth and Fort street, along Sixth, Congress, Beaubien and Lafayette streets to Elmwood avenue; also the petition of M. W. Burchard and others, asking the Council to discriminate in favor of the Fort Wayne and Elmwood Railway Company.

Also, the several petitions of property owners on Lafayette street east, remonstrating against the construction of a street railway on said street.

Also, the petition of Daniel Scotten, Francis Adams and others, corporators of the proposed Detroit and Grand Trunk Junction Street Railway, asking to amend their former petition so that they may be granted permission to construct their railway fom the western to the eastern limits of the city. All of which your committee have carefully considered and have heard the argument of the several parties interested; and while we admire the disposition manifested by the officers of the Fort Wayne and Elmwood Railway Company to meet the future wants of the public, yet we do not deem it wise to recommend the granting of special privileges for the use and occupancy of our public streets to take effect five years hence, and that it would be impracticable to recommend the construction of a street railway track on Lafayette street east, as the property-owners on that portion of said street which has been paved, obtained, through the action of the Common Council, the established width of the pavement on said street, viz., 26 feet, with a view solely to prevent, in the future, the obstruction of an important thoroughfare by a street railway track. For the above and other reasons not herein mentioned, your committee beg leave to report adverse to granting the petition of the Fort Wayne and Elmwood Street Railway Company. And for reasons more fully set forth in our former report we are of opinion that the construction of a street railway from the Grand Trunk Junction to Mount Elliott avenue will greatly subserve the public convenience, and facilitate the travel between the eastern and western portions of the city, while it will add to the importance of our great manufacturing interests in these two sections. It will, at the same time, reduce the distance and cost of travel by railroad to and from Wyandotte and other adjacent towns, by dispensing with a ride of seven miles round the eastern and northern portions of the city to reach the Grand Trunk Junction, where all our interior lines of railroads converge. We therefore recommend that the City Attorney be instructed to report an ordinance granting permission and authority to Daniel Scotten and Francis Adams and their associates to construct and operate a street railway, to be known as the Detroit and Grand Trunk Junction Street Railway, through the Dix road, so-called, along Baker, Seventh and Congress streets to Mount Elliot avenue, the same to be completed within one year from the date of the passage of said ordinance

All of which is respectfully submitted,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

Your Committee on Fire Limits, to whom was referred the petition of Mrs. Annie Dudley, for permission to raise the roof of a small back kitchen four feet, in rear of her house on the corner of John R and Cross street; also, the petition of P Lavelle to repair and enlarge a shed in rear of his premises, No. 583 Michigan avenue, near Twelfth street; also, the petition of Mrs. Hannah Hersch, for permission to raise the roof of a back kitchen in rear of No. 270 Congress street east; also, the petition of John Harvey, for permission to turn his house around so as to front the same on George street, instead of Woodward avenue, respectfully report that they have examined the matters referred to in the above petitions and recommend that the prayer of the petitioners be granted, as no increase of the fire risk will be caused there by.

Respectfully submitted,
M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the remonstrance of F. L. Brayton, A. C. Davis, W. B. Robinson and others, against the erection of any wooden building on the corner of Fort and Eighth streets, respectfully report that permission was granted a short time since for the erection of a barn on said lot, without any reference to, or examination by, the Committee on Fire Limits. The remonstrance is signed by all the residents in the block between Seventh and Eighth streets. Said barn, if erected, will be immediately opposite the match factory, and separated from a lumber yard by a narrow alley, and consequently the remonstrants believe the fire risk of the entire neighborhood will be increased thereby. Your committee believe the objections of the remonstrants are well founded, and that the permission heretofore granted for the erection of a barn on said lot should be rescinded. The committee, therefore, beg leave to offer the following resolution, as a part of this report.

Resolved, That the permission heretofore granted for the erection of a wooden barn on the rear of the lot on the southeast corner of Fort and Eighth streets be, and the same is hereby rescinded.

All of which is respectfully submitted.
M. P. CHRISTIAN,
A. O'KEEFE.

Accepted and adopted.

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the 14th annual report of the Board of Sewer Commissioners, respectfully

report that they have duly examined the same, have found it thorough and exhaustive, and believe it to be correct.

They recommend that 200 copies of the report be ordered printed for the use of the Council and city officers.

Your committee examined with care that part of the report which recommends the sewers most desirable and necessary to be constructed during the present year, the location and cost of the same. The Board of Sewer Commissioners have evidently spent much deliberation in their selection of locations of sewers recommended. Your committee approve of their judgment as being most judicious, and request that the Controller be directed to include in his estimates for the present fiscal year the sum of $85,000, as appropriation for public sewer fund.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH
D. SHANAHAN.

Accepted and adopted as follows:

Yeas—Ald. Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Welch, Woolley, and the President—18.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the communication of John Bigley & Co., in relation to an extension of the Twenty-first street sewer, beg leave to submit the following report: There is no question in the opinion of the committee but that the public interests require the extension of the sewer as proposed With a view of securing the right of way for such extensions the Board of Sewer Commissioners invited proposals from persons owning the land through which it was desired to extend said sewer. Two proposals were received, one from Messrs. Belknap & Drake, and the other from Messrs. Jno. Bigley & Co.; the former offering the right of way for $1. and the latter for $800. The board concluded to accept the proposition of Belknap & Drake. Subsequently Bigley & Co. reconsidered the matter, and claiming to have been misled, presented the statement and proposition referred to us by you. In this proposition Bigley & Co. offer to give right of way for sewer for $1, and in case of the opening of Twenty first street to ask for 20 feet of the land taken from them only one-half of the valuation fixed by the jury thereto.

As there is now no money in the Street Opening Fund; as section 11, page 122, and section 21, page 126, of the charter expressly forbid the entering upon any improvement before money is provided for payment of the expense thereof; as the jury in the case of extending Twenty-first street might, and probably would, find the benefits to the property of Bigley & Co. so large that half the valuation of their land taken would be greater than the net damages that would be awarded to them by the jury, and as the Sewer Board desires, and the public interests require, the immediate construction of the proposed sewer extension, your committee are of the opinion that the proposition of Belknap & Drake is the proper and safe one to accept, and ask leave to recommend the adoption of the annexed resolutions, which were presented to your honorable body on the 11th day of March, and laid over under the rules.

All of which is respectfully submitted,
F. RUEHLE,
D. SHANAHAN.

The report was accepted, and Ald. Ruehle moved a

Respectfully submitted,

To the Honorable the Common Council:

Gentleman—Your Committee on Ordinances, to whom was referred the petition of George Herron and others, for the repeal of section 5 of the Hack Ordinance, having considered the same, are compelled in their judgment to report adverse to the prayer of the petitioners. COMMUNICATIONS.

To the Honorable the Common Council:

Gentlemen—The memorial of the Board of Water Commissioners respectfully represents:

That of the proposed amendments to the city charter recently approved by your honorable body, there is the following provision:

SECTION 7. The said board shall also, before any street is paved, require the Board of Water Commissioners, of the City of Detroit, to lay down all needful pipes for the conveyance of water through said street so far as the pavement is to extend. And when water-pipes are already laid through any street about to be paved, and in the opinion of the Board of Improvements new pipes will be necessary under the proposed pavement within the succeeding five years, they shall require the Board of Water Commissioners to lay down said new pipes, and said last named board shall carry out such requisition.

And your memorialists further represent that the effect of the said section is to take from the Water Board powers and duties heretofore pertaining to them and confer them upon another and different board. That the proper exercise of the judgment and discretion incident thereto requires a thorough knowledge of the present condition and location of pipes; their relation as to the whole system of pipeage; the present and probable wants of citizens and localities as to water supply, etc., a knowledge which, they respectfully submit, would be in a greater degree possessed by the Water Commissioners than by a co-ordinate board. While your memorialists are unable to perceive sufficient reasons for depriving them of the powers and duties proposed, it, seems to them apparent that embarrassments and evils may result therefrom.

By section 8 it is provided, among other things, that the Board of Improvements shall supervise the laying of water-pipes, and shall control the making of connections. The extent of the power sought to be conferred does not clearly appear to your memorialists. If it be to delegate the power now lodged in the Common Council and Sewer Commissioners, your memorialists would not presume to interpose objections. But if it is intended to take from the Water Board the powers and duties now possessed and exercised by them in the laying of their water mains and the making of connections therewith, there are many and serious objections thereto, which will, we are confident, suggest themselves to the judgment of the members of your honorable body. It is, in any event, of paramount importance that the intent of the law shall be clearly understood.

The Board of Water Commissioners, continuing their efforts to advance the public interests, will cheerfully aid in the accomplishment of the objects sought to be attained by the Common Council, and so far as shall be within their province, second the efforts of the new board in that behalf. As heretofore, so will they hereafter accede to request to lay pipes in streets to be paved when the necessity therefore exists.

Believing that the proposed amendments, so far as they relate to the Water Board, are not necessary, and that they may be productive of conflict of authority as to powers and duties, and of other unfortunate results, we respectfully ask that your consent may be given to have them excepted from the proposed act amending the charter.

And your memorialists, as in duty bound, will ever pray, etc.

J. S. FARRAND,
J. OWEN,
ELIJAH SMITH,
C. HURLBUT.

Ald. Woolley moved that the prayer of the petitioners be granted and the City Counselor be instructed to make the necessary changes in the amendments to be presented to the Legislature.

Ald. Hough moved that the communication be accepted and placed on file.

The motion prevailed.

SUSPENSION OF THE RULES.

On motion of Ald. Woolley the rules were then suspended and the communication above presented was taken from the file.

Ald. Woolley renewed his previous motion to grant the prayer of the petitioners and to instruct the Counselor to make the desired changes to the amendments previously referred to.

Ald Hough moved to lay the matter upon the table until the next session of the Council.

Lost as follows:

Yeas—Ald. Broeg, Christian, Daly, Garrison, Hough, Lichtenberg, Ruehle, Shanahan, and Stange—9.

It is hereby ordained by the Common Council of the city of Detroit:

SECTION 1. Consent, permission and authority is hereby given and granted to the "Detroit Transit Railway," a corporation organized under the provisions of chapter seventy-six (76) of the Compiled Laws of 1871, of the State of Michigan, in regard to train railways, to construct and operate its railway from such point on Guoin street above Riopelle street, in this city, as this corporation and the Detroit and Milwaukee Railroad Company may agree upon for a connection, to the eastern limits of the city, along and through Guoin street to such street running north and southeast of Chene street as such corporation shall select, subject to said corporation obtaining the right of way through private property on the line of said road; thence northerly along said street to Wight street; thence to the easterly limits of the city. A diagram of the route of said railway, within two months from the passage hereof, shall be filed with the City Clerk and Surveyor. *Provided*, That should any part of the territory east of the city limits and through which the track of said road shall be laid be added to the corporation, then the rights hereby granted shall include and cover so much of the said track as shall be in such territory, and be subject to all the provisos and conditions of the ordinance.

SEC. 2. Said company is authorized to lay a single track, with necessary and convenient turn-outs, side tracks, branch tracks and switches to communicate with said Detroit and Milwaukee Railroad, and, on first obtaining the consent of the Common Council, with such manufacturing and business establishments as may desire a connection on the line of said road.

Such tract shall be laid with the inside of each rail two feet four and one-fourth inches from the center of the street, *provided*, that in all streets which are not paved, the track of said railway may be laid elsewhere than in the center thereof, as may be most convenient, under the direction of the Common Council, and as shall least obstruct the public travel thereon. That the shape and style of the rail to be used shall be a flat bar rail with an upper and lower surface—the lower surface shall be at least three inches in width, the upper surface shall be one and three-fourths inches higher than the lower surface, and no higher, and shall be laid flush with the pavement of the street. Said rails shall be laid four feet eight (8) and a half inches apart, with the upper surface of the rail flush with the surface of the street, and in such a manner as not to interfere with ordinary travel, and particularly of wheeled vehicles, and shall conform to the grade of the streets as existing or hereafter altered.

SEC. 3. If it shall become necessary to relay said rails, the same shall be done at the expense of the grantee, and in all streets or parts of streets which are not paved, the rails shall be laid in such manner as shall least interfere with the public travel thereon, and as shall be authorized and approved by the City Surveyor. The grantee and its assigns shall keep the surface of the streets, from curb to curb, in good order and repair, and all snow, ice, dirt and filth cleaned and removed from such portion of the streets at the expense of the grantee, in such manner as not to obstruct travel in any part of the street. And said company shall fully indemnify and save harmless the city from any and all claims or damages for which it might be made or become liable to pay by reason of the construction, making or operating of said railway, or the giving and allowing of the license, right and privileges hereby granted.

SEC. 4. Said railway shall be laid down subject to the right of the city, or of any gas company, or of the Water or Sewer Commissioners to lay down, take up, change or remove any works of any kind on or beneath the surface of the streets without any claim for damage on the part of said railway.

cars may be run at irregular hours, the main design of said company being to transport freight and to accommodate the heavy traffic along the river front. Mixed freight and passenger trains for the accommodation of workmen may be run at such fixed hours as the company shall determine upon.

SEC. 6 The trains on said railway shall at all times be entitled to the track, and vehicles on the track shall turn out when any car comes up, so as leave the track unobstructed, and the driver of any vehicle refusing so to do shall be liable to a fine as provided in section 16 of this ordinance. SEC. 9. The grantee and its assigns shall employ careful, sober and prudent agents, engineers, conductors and drivers to take charge of the cars while on the road, and it shall be the duty of all such agents, engineers, conductors and drivers to keep vigilant watch for all carriages and persons on foot, especially children, either upon the track or moving toward it. At the first appearance of danger to such teams, carriages, footmen, children, or other obstructions, the cars shall be stopped in the shortest time and space possible, and noticebells shall be attached to all horses drawing such cars in the daytime.

SEC. 10. If hereafter the pavement on said streets, or on any street occupied by said company, shall be extended, or any such street shall be ordered repaved, the said grantee shall, contemporaneously with the paving or repaving of said streets, at its own expense, excavate, grade and pave or repave, with the same materials, or with material and in a manner satisfactory to the Common Council, all the portion of the street or streets which lies within their track or any switches or turn outs placed by them, and two feet four inches on either side thereof, such expenses to include the cost of paving, repaving, grading, excavating, removing of earth, and all expenses necessary for paving or repaving the street to the extent above specified, and at all times keep or cause to be kept in good order or repair such pavement within said track and distance on either side thereof.

SEC. 11. Said railway shall provide and keep in repair at all times such substantial and permanent approaches to its track at all street crossings that teams, vehicles and persons on foot will be enabled to cross the track conveniently at all times.

SEC. 12. Passengers conveyed upon said railway in said city shall be charged no more than five cents for any distance. The tariff for freight shall not exceed the rates fixed by the train railway act. When cars of other railroads pass over the track of said railway the company may charge such rates as are provided in said last mentioned act, and none other.

SEC. 13. It is hereby reserved to the Common Council of the city of Detroit the right to make amendments to this grant and ordinance, and such further rules, orders or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accommodation of the city and public in relation to said railway.

SEC. 14. This ordinance shall be void and of no effect unless the grantee shall, within one month from the date of the approval thereof, notify the Common Council in writing of its acceptance of and its agreement to the provisions of this ordinance and shall, within two months thereafter, commence the work of constructing and building said railway, and complete the same to the eastern limits of the city as soon as the public necessity requires it, and the Common Council shall be the judge of such necessity.

SEC. 15 The powers and privileges conferred by the provisions of this ordinance shall be limited to thirty years from and after its passage.

SEC. 16. Any willful violation of, or failure to comply with provisions of this ordinance by said Detroit Transit Railway, or by any agent, conductor, driver, or any person in the employ of said grantee, or if the driver of any vehicle shall refuse to turn out as required by section 6, the same shall be punished by a fine not to exceed one hundred dollars and costs, and in the imposition of any such fine and costs the court may make a further sentence that the offender, except the grantee, be committed to the county jail, or the Detroit House of Correction, until the payment thereof, for any period of time not exceeding six months.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT, MAYOR'S OFFICE, March 28, 1873.

To the Honorable the Common Council:

Gentlemen—I hereby nominate Joseph Godfrey to the office of Fire Commissioner for the ensuing term.

Very respectfully,
H. MOFFAT,
Mayor.

The communication was accepted, and the nomination confirmed by the following vote:

Yeas—Ald. Broez, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

FROM THE SAME.

CITY OF DETROIT, MAYOR'S OFFICE, March 28, 1873.

To the Honorable the Common Council:

Gentlemen—I beg to call your attention to the fact that there is a bill now pending before the State Legislature, giving to the state government the power of appointing an additional member to the present Board of Inspectors of the Detroit House of Correction, and as the State of Michigan is already represented in that board by the chairman of the Board of Inspectors of the State Prison, it seems to me that any further legislation on the part of the State upon the management of our City Prison affairs is uncalled for at this time, and in conjunction with several other acts of the Legislature at the present session an interference in our municipal government, which is not asked for nor wanted by three-fourths of the inhabitants of this city.

I therefore most respectfully recommend to your honorable body, that if this legislation cannot be averted, and no means brought to bear to protect our independence as a city government, that the suggestion in my message to the Council, on the 14th of January last, in regard to selling out the House of Correction to the State altogether, be acted upon at once, because in the absence of all general laws for the government of cities and villages, it is generally believed that special laws are apt to be made more particularly in the interest of individuals or minorities than for that of the whole people, and it becomes our permanent duty to protect the interests of our citizens against all monopolies of vested rights or acts of partial legislation at Lansing.

Very respectfully, etc.,
H. MOFFAT.
Mayor.

Accepted, and Ald. Woolley moved that the communication be referred to the Committee on the House of Correction.
Carried.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom were referred the petitions of E. B. Ward, Francis Adams, George L. Sutherland, and many others, for the establishment of a Western Market, respectfully report to your honorable body that they have given the subject considerable thought and are led to the following conclusions:

The public market system has grown into much favor in large cities, most of which have established the same and made them an item of profit and convenience to their citizens. To make them available to the masses they must be so located as to accommodate different sections and that without the necessity of long travel or transit. Detroit is rapidly increasing in territory as well as population. With this increase new enterprises for the benefit of its citizens become valuable. The citizens of the portion of our city asking this project are keeping pace with the average of the city in their public spirit, and naturally desire, and we think very properly, such enterprises inaugurated as will encourage their industries and make their homes more desirable. Most American cities of the size of Detroit have more than one public market. In fact many smaller towns have felt this need and have provided accordingly.

To the ordinary argument of the urgency of a public market in the Western District it may be remembered that the city owns no ground for a wood and hay market in that section, and that a site could be secured to be its property on which both a meat and vegetable and wood and hay market could be located. In the light of these facts it seems to us that it would not only be feasible, but also economical, for the city to own such grounds. Your committee think that it would be wise to purchase an appropriate site for these objects the present year, which may be done with a moderate appropriation, and the coming year erect upon the same suitable buildings, the whole costing much less than the estimate made for the new Central Market building. Still further, your committee believe that the effect of this improvement in the direction of increasing values of taxable property in the vicinity thereto would more than compensate for the investment in a few years, beside furnishing the toiling citizens of this section of our city what they much desire—a public market.

GEO. W. HOUGH,
JAMES DALY,
D. DULLEA,
D. SHANAHAN.

Accepted and adopted.

Leave being granted Ald. Hough presented the following resolution in connection with the report:

FROM THE STREET COMMISSIONER, W. D.

To the Honorable the Common Council:

Gentlemen—In reply to a petition presented by H. Heames and many others, on the 1st inst., referring to the unsafe condition of Woodbridge street, foot of Seventeenth street, and which was referred to the Street Commissioner of the Western District with instructions to report, I would respectfully state that I notified Messrs. Common and Stewart according to a resolution offered by Ald. Daly, November 12, 1872, and on account of the severe cold weather they were unable to repair the pavement in a substantial manner, but they informed me that they would keep the street in a passable condition. I have again seen them and they said that as soon as the street was sufficiently dried they would repair the pavement in a good and durable manner and the same as before.

Very respectfully,
HENRY KNOWLES,
Street Commissioner Western District.

Accepted and placed on file.

FROM THE STREET COMMISSIONER, E. D

To the Honorable the Common Council:

Gentlemen—In compliance with a resolution approved by your honorable body on the 1st inst. Very respectfully,
W. BONNINGHAUSEN,
Street Commissioner Eastern District.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, April 8, 1873.

To the Honorable the Common Council:

Gentlemen—I again beg to call to your attention to another measure sought to be carried through the State Legislature, affecting the interests of this city, and become a law without the knowledge or consent of our citizens, and which is to create a new office of City Counselor, with a fixed salary of $4,000 per annum, for the miscalled reason that commissions and boards of the corporation employ their own counsel and thereby incur expenses which this act would prevent as making it obligatory on them, the "boards or commissions," to employ the City Counselor only, be he capable or otherwise. Upon inquiry I find that the Board of Water Commissioners have paid $100 for legal advice during the last 12 months; and that the Board of Education have spent during the same period the sum of $102 50, and these mostly for written bills to present to the present Legislature. Small amounts, surely, considering the extent of their business transactions, and neither of them say otherwise than what is a well known fact, that our present City Counselor is always ready with sound advice when called upon.

I therefore recommend that your honorable body memorialize the Legislature against such innovation upon the tax-payers of this city who, while quietly pursuing their respective occupations, seem to have their rights trampled upon and their wills set aside by a few interested schemers acting upon the credulity of the honorable Legislature.

Very respectfully,

H MOFFAT,
Mayor.

Accepted and placed on file.

COMMUNICATION.

To the Honorable the Common Council of the City of Detroit:

Gentlemen—The undersigned, President of the Detroit Transit Railway Company, in accordance with the ordinance passed by your honorable body, and approved March 21 1873, and by instructions of the Board of Directors of said railway company, begs to inform you of the acceptance of provisions and conditions of said ordinance, and that arrangements are being made to commence the construction of said road.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT, }
MAYOR'S OFFICE, April 9, 1873. }

To the Honorable the Common Council:

Gentlemen—I hereby return to your honorable body without my approval that part of your proceedings on the 9th inst. whereby an ordinance was passed authorizing the Grand Trunk Junction Street Railway to construct and operate its railroad through the entire city.

For the following reasons:

1. These street railway corporations make large dividends, and can well afford to pay a special tax to the city for privileges they enjoy, and such tax ought to be levied by the city with a full knowledge of all the affairs of the said companies or corporations. We grant them the monopoly of certain streets for 30 years, thereby forbidding the equal distribution of ordinary travel over these streets, in fact, practically making a single track for vehicles on each side of the railway, which wears out the pavement very soon by incessant use on one particular place, and thereby subjecting the city to too frequent expense for repairs: therefore, with the light of 10 years' experience, the city government ought to protect itself and levy a tax accordingly.

2. Other cities in the United States tax their street railways, and several of them compel the companies to keep the whole street through which they pass in repair besides. There is no hardship justly complained of on the part of the grantees in any of these cities, and if there ever should occur damage to a company in this city by reason of taxation a remedy would be much more easily found on their part than there possibly could be on the part of a whole community who have granted the 30 years' monopoly.

If these railways did not make money, and large dividends, too, there would be no applications for new charters, particularly on routes parallel to and near other roads already established.

Therefore, a special tax or percentage levied on such corporations is, in my judgment, only a matter of common justice and self-protection to this city.

3. A 30-years' charter for such a monopoly is too long a term in a growing city, and what might have appeared to be wisdom in a like case 30 years ago, no one will deny may be sheer folly to-day, and the benefit conferred by a street railway company in 1873 to this city may become an unbearable burden by the end of the century.

I therefore, in view of all the facts, recommend that a tax, or percentage, be hereafter added to every new charter granted for passenger railways through the streets of this city, thereby establishing the principle that, in conferring such a privilege, the government shall require a corresponding remuneration.

Very respectfully,
H. MOFFAT, Mayor.

The communication was accepted and, on motion, the vote by which the ordinance was passed was reconsidered by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None

The ordinance being then before the Council for consideration,

Ald. Woolley moved to amend section 12 by striking out in the second line after the word "distance" all the balance of the section, and inserting the following, down to and including the words "grantee or assign" in the fourth line, and substituting therefor as follows:

"The said grantee shall have the use of the streets as specified in this ordinance, free, for the term of two years after the completion of said road to the limits of the city; and on the third year, and after they shall pay the city the following sums: the third year one per cent., fourth year two per cent. fifth year three per cent., sixth year four per cent., seventh year five per cent. of their net earnings, and so continue to pay to the city five per cent per annum, as described, until the term of their contract with the city expires. All payments to be made semi-annually."

The amendment was adopted.

Ald. O'Keefe moved that the second line of section 15 be amended by striking out the word "thirty" and substituting therefor the word "twenty."

Ald. Woolley moved to further amend by inserting "Twenty-five."

Carried as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Grelling, Hinchman, Hough, Preston, Welch, Woolley, and the President—12.

Nays—Ald. Flower, Garrison, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, and Stange—8.

Ald. Daly moved to further amend the ordinance by requiring that the shape and style of the rail to be used shall be the same as that used on the city street railways.

Carried.

The question then being upon the passage of the ordinance, the same, as amended, was passed by the following vote:

Yeas—Botsford, Broeg, Christian, Daly, Dullea, Flower, Grelling, Hinchman, Hough, Preston, Shanahan, Stange, Welch, Woolley, and the President—15

Nays—Ald. Garrison, Lichtenberg, O'Keefe, Parsons, and Ruehle—5

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

CONTROLLER'S OFFICE, }
CITY HALL, April 10, 1873. }

To the Honorable the Common Council:

Gentlemen—In accordance with the requirements of section 5, chapter 8, of the charter of the city of Detroit, I have the honor of submitting to your honorable body the amount of estimates of the amount of money which will be required to defray the expenses of the city of Detroit for the financial year of 1873-4, commencing with the 1st day of February, 1873, and terminating the 31st day of January, 1874. In the estimates for the various funds will be found the several amounts ordered by your honorable body for specific objects.

I also have the honor of transmitting to your honorable body the estimates of the

Board of Education,
Board of Fire Commissioners,
Board of Metropolitan Police Commissioners.

The per capita tax (increase from $4 to $5) for the Board of Education, the Metropolitan Police Fund, the Sinking Fund, and the Board of Water Works, are mandatory, and the Interest Fund might also be included in the list.

The reasons for the increase of the Fire Department Fund are fully set forth in their estimates, and our citizens have never had occasion to call in question the economy of that board.

The only advance in the Board of Education estimates over last year is in the per capita tax and for the Library Building. No one will doubt but that the amount asked for by them for school purposes can be used to good advantage, as our population is increasing more rapidly than the school accommodation.

By a resolution of your honorable body, adopted February 14 1873, the sum of $25,000 was directed to be included in the estimates as a working capital for the House of Correction.

I find by examination that the accounts and bills payable of that institution aggregate over $55,000, and the Board of Inspectors inform me that the repairs to old and building of new sewers together with the necessary repairs to buildings, will amount to $10,000. To place the House of Correction upon a proper footing the appropriation should be made $50,000.

I also submit for the consideration of your honorable body, in accordance with the resolution of February 25, 1873, the proposition emanating with the Board of Sewer Commissioners for the issue of $100,000 in sewer bonds, the proceeds to be expended to constructing public sewers from Detroit River to the northern limits of the city.

The issue of these bonds is authorized by an act

Digitized by Google

of the Legislature, approved April 17, 1871, for sewer purposes, subject to the approval of the citizens' meeting

While it is a conceded fact that taxes must inevitably increase with the growth of wealth and population of a city, it does not necessarily follow that the increase of taxation must advance at a greater rate than the increase of wealth.

Taking the valuation of the real and personal property of the city at the same figures as it was last year, the amount to be raised by taxation this year will be accomplished only by an increase of nearly 70 per cent. upon the rate of taxation.

Whether it is for the best interests of the city to burden our citizens with this large tax (always onerous enough), and whether the city will derive such benefits as will warrant such expenditures, in view of the present state of monetary affairs, is a question about which there can be no difference of opinion.

I desire to call your attention to the aggregate amount of the estimates which, in comparison with the taxes levied in former years, is enormous With full confidence in your judgment that reductions will be made in the discretionary funds wherever possible, keeping in view the public necessities as well as the interests of the tax-payers, I leave with you, who represent the people directly, the whole question of taxation

I herewith submit a statement exhibiting the data and facts on which the estimates are made.

Very respectfully, etc.,

E. I. GARFIELD,
Controller.

OFFICE DIRECTOR OF THE POOR,
DETROIT, March 18, 1878.

E. I. Garfield, Esq., City Controller, Detroit:

SIR—In your budget of estimates for city expenditures for the ensuing fiscal year will you have the goodness to name the sum of $25,000 for the City Poor Fund, which is an increase of $5,000 over the estimates for former years. For many years past $20,000 has been the amount appropriated for the city poor, which of late has been found to be insufficient for providing fuel, provisions, hospital treatment, burial of the dead, salaries and other incidental expenses attending the care of our city poor. By the strictest economy and a judicious expenditure during the past year of the $20,000 appropriated by the tax payers I have been able to make that sum nearly cover the expenses of the last 12 months.

The past winter has been a cold and long one, and the City Poor Fund has necessarily been extended to a greater numoer of destitute people than during any previous winter. It must not be forgotten that the poor increase with the growth of the city. Other cities of much less population appropriate more money yearly for their poor than does Detroit, while we pay out to the unfortunate the same amount that we did when our population was only two-thirds as large as at present.

In my judgment $25,000 per annum, judiciously expended, as I promise to do, will not be 1 cent too much for the poor of Detroit, and I trust that the tax-payers will see the justice and propriety of this small increase of $5,000 for the unfortunate of our race.

Very respectfully,
LUTHER B. WILLARD,
Director of the Poor.

2. We transmit to the Common Council, for submission to the Board of Estimates (see sections 14 and 15 of the Detroit School law, as amended,) a tax for the purchase of school lots, and for the erection and furnishing of school-houses, of two (2) mills on the dollar of the taxable valuation of the real and personal property of the city.

Under section 12 of the amended School law we respectfully submit to the Board of Estimates a request for the appropriation of one hundred and twenty-five thousand dollars ($125,000) for the purpose of erecting a public library building. Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, April 15, 1873.

Gentlemen—I return to your honorable body without my approval, that part of your proceedings on the 11th inst. whereby an ordinance was passed granting a charter for a street railway through the entire city, for the reason that in exacting a certain per centage on the profits that this company may derive from their business you make no provision for ascertaining what their net earnings may amount to, nor make any calculation about the unconscionable or soulless acts of a joint stock company generally; and also in striking out the $25 license for a car you have left out the only tangible revenue to be derived by the ordinance, or in other words, have replaced the substance by the shadow.

I therefore recommend to your honorable body that in justice to the hackmen and draymen of the city who all pay license, that the $25 per car license be adopted in his ordinance; and also that a percentage be assessed on the gross instead of the net earnings of this company. The facts in the case being these: Our citizens have not asked for this particular railway, and it does not appear to be needed at all, except on Seventh street, but a company see a scheme to make money and act upon the credulity of the public and their representatives with the specious pretense that the said public do not know their own interests, therefore your honorable body would give them leave to trample our citizens under their feet without asking any remuneration excepting what this company may be pleased to say is their net earnings. I trust that your honorable body will act in this matter with due deliberation for the future welfare of this city, and not be imposed upon by the promptings of a few suburban speculators.

Very respectfully,

H. MOFFAT,
Mayor.

The communication was accepted, and on motion, the vote by which the ordidance was adopted was reconsidered as follows:

Yeas—Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None.

Ald. Christian moved that the ordinance be referred to a special committee, consisting of the City Counselor, with instructions to make the desired changes as recommended in the communication.

Ald. Ruehle raised the point of order that the ordinance having been vetoed by the Mayor, the question now recurred upon the passage of the same over the objection of the Mayor.

The chair overruled the point of order.

The motion of Ald. Christian did not prevail, as follows:

Yeas—Ald. Christian, Dullea, O'Keefe, Parsons, Ruehle, and Stange—6.

Nays—Ald. Botsford, Broeg, Daly, Flower, Garrison, Grelling, Hinchman, Hough, Preston, Shanahan, Welch, Woolley, and the President—13.

The question then being "shall the ordinance now pass, notwithstanding the objections of the Mayor," the same was passed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Grelling, Hinchman, Hough, Preston, Shanahan, Stange, Welch, Woolley, and the President—15.

Nays—Ald. Garrison, O'Keefe, Parsons, and Ruehle—4.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 11th inst., granting the exclusive use of the part of Woodward avenue, or some part there of, to whoever may be the highest bidder for the same, for the purpose of landing three ferry boats thereat, and that no person shall be licensed to land any ferry boat within 150 feet of the said street or premises so leased, for the reason that this city cannot, in justice to all her citizens, seek to aggrandise public property to the detriment of any private property whatever, without rendering an equivalent in value therefor.

Very respectfully,

Very respectfully, etc.,
E. I. GARFIELD,
Controller

Accepted and referred to the Committee on Public Buildings.

To the Honorable the Common Council:

Gentlemen—The bonds issued in December, 1834, for the building of the Berthelet market, have all been presented and paid with the exception of $400. This amount is payable at the option of the Common Council, and is drawing interest at the rate of 7 per cent. There is a probability of its being lost or destroyed as interest has not been paid

upon it. I would recommend that interest be stopped, and that the Treasurer be authorized to pay the bond and accumulated interest.

Respectfully, etc.,
E. L. GARFIELD,

Accepted and referred to the Committee on Ways and Means.

FROM THE CITY ATTORNEY.

To the Honorable to Common Council:

Gentlemen—In compliance with resolutions adopted at your last session. I respectfully submit the following:

1. A resolution for the opening of an alley in the block bounded by Russell, Riopelle, Croghan and Macomb streets, in the Seventh Ward.

2. An ordinance to amend section 3, as amended, of chapter 88 of the Revised Ordinances of 1871, relative to the impounding of animals running at large.

3. An ordinance to amend section 11 of chapter 37 of the Revised Ordinances of 1871.

I have not incorporated in the first named ordinance a provision increasing the fee for impounding to $3, as such increase would, in my opinion be in the nature of a penalty, and thus, in effect, subject the owner of cattle running at large to two penalties for the same offense.

Your obedient serv't,
F. G. RUSSELL
City Attorney.

Accepted.

Be it resolved by the Common Council of the city of Detroit, that we, the said Common Council, deem it a necessary public improvement in said city to extend an alley in the Seventh Ward, in the block bounded by Russell, Riopelle, Croghan and Macomb streets. Which said improvement is describe by metes and bounds, courses and distances, as follows, to wit: All that part of the Riopelle farm bounded as follows: Commencing at the northeast corner of lot 115, Riopelle farm, and running thence south 26 degrees, east 10 03: thence south 60 degrees, west 150 feet; thence north 26 degrees, west 26 05 feet; thence north 60 degrees, east 150 feet; thence south 26 degrees, east 10.03 feet to place of beginning.

And be it further resolved by the said Common Council, that the City Attorney be, and he is hereby directed to apply to the Recorder's Court of said city for the drawing and impaneling of a jury required in such cases, and to give notice in accordance with the city charter.

Adopted as follows:

Objected to and laid over under the rules.

FROM THE CITY CLERK

That he presented the proceedings of the last Council to the Mayor on the 16th inst., and they were approved on the 18th inst.

Accepted and placed on file.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen — Your Committee on Ways and Means, to whom were referred the weekly reports of city officers for the week ending April 11, 1873, have examined the same, and, believing them to be correct, recommend their approval.

DAVID PRESTON,
GUY F. HINCHMAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means, to whom was referred the Controller's estimates of the probable amount of money required to defray the expenses of our city for the year ending January 31, 1874, have examined the same, and make the following recommendations:

General Road Fund—We recommend the several estimates for this fund to be reduced as follows: Jefferson avenue, from $100,000 to $75,000; Michigan avenue, from $25,000 to $8,000; Lafayette avenue, from $10,000 to $5,000; Croghan street, from $40,000 to $7,000; Woodbridge street, from $10,000 to $5,000.

Public Building Fund—We recommend that the $65,000 for central market be reduced to $50,000. If this amount should not be sufficient to complete the whole structure, the public hall portion of it could, without detriment to any of our interests, remain unfinished for one or more years, and that the $45,000 for a western and eastern market be stricken out.

City Poor Fund, from $5,000 to $15,000—If this amount does not alleviate the necessities of the deserving poor our citizens will doubtless contribute freely, as they have in years past, for distribution through the Relief Committee.

Park Improvement Fund, from $3,000 to $2,000—On the 1st day of April there was $780 23 in this fund unexpended from last year's appropriation. As no extended improvements are contemplated in our parks this year, we think that $2,780 will be sufficient for the ordinary care of the parks.

Street Opening Fund—As there are many important streets that should be opened this year, your committee recommend that this fund be increased from $5,000 to $15,000.

Public Sewer Fund—Your committee recommend the issuing of but $50,000 of the sewer bonds this year instead of $100,000 as asked for. This amount with the $8,000 to be raised from taxes, and the $20,000 of unsold bonds of last year, and some $40,000 cash in hand, will, we think, pay for as much sewerage as can well be constructed this season.

Board of Water Works—By a recent act of the Legislature $75,000 is asked for or required to be raised this year for a sinking or interest fund. Unless this requirement be compulsory we would recommend that not more than half this amount be levied this year. With the amount of cash the board have in hand and their ordinary receipts for water rates this sum will be sufficient We recommend that the other estimates as submitted by the Controller, except the Fifth Ward Road Fund, which we recommend be reduced to $7,000, be adopted.

Respectfully submitted,
DAVID PRESTON,
G. F. HINCHMAN.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—Your committee to whom was referred the petition of property-owners on High st eet, east of Beaubien street, in relation to the imperfect and unsatisfactory manner in which the pavement is being laid down on said street, respectfully report that we have made a thorough examination into the matter, and find the facts precisely as stated by the petitioners. That portion of the pavement which has been completed is now in a very dilapidated condition partly owing to the fact that the work is not being done in accordance with the specifications, which provide that there shall be not less than four inches of sand for foundation, and while it is intended that the sand shall be of uniform depth, your committee find, on examination, that the sand varies from one and one-half inches to six inches in depth, and, as far as ascertained, in no two places is it the same. The acknowledged failure of this pavement forcibly illustrates the necessity and utility, in wood pavements, of a board foundation where but four inches of sand is used.

In view of the above facts your committee feel justified in recommending the adoption of the following:

Resolved, That the City Controller be, and he is hereby instructed to notify the contractors for paving High street to discontinue the work at once.

Respectfully submitted,

C. M. WELCH.
G. GRELLING.
D. SHANAHAN.

Respectfully submitted,

G. W. HOUGH,
SMITH R. WOOLLEY,

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the petition of James M. Roberts, Charles M. Brown and others, for the paving and grading of Sycamore street, and the construction and repairing of cross and sidewalks in the Ninth Ward, beg leave to submit the following report:

Your committee have thoroughly investigated this matter and have expended a half day in traveling over the flooded district in said ward between Michigan, Grand River and Ninth avenues. We find the facts set forth in the petition to be true, and that the entire district visited by us is in a wretched condition, so far as streets, sidewalks, crosswalks and drainage are concerned. Sidewalks and crosswalks, where any have been laid, are generally out of repair, the planks in many cases, for lack of drainage in the streets, having floated away; the streets are generally impassable on account of the mud, and the inhabitants experience great difficulty in getting to and from their premises. If a fire should break out in certain places in this district it would be impossible for the Fire Department to render any assistance.

Your committee are deeply impressed with the conviction that immediate action should be taken to remedy, so far as possible, the evils complained of and actually existing, and recommend the following:

First, That the Street Commissioner of the Western District be instructed to have the planks and other material that have floated away restored to their proper places at once by the overseer of the ward.

Second, That resolutions be introduced for the construction of new sidewalks and crosswalks where necessary, and the construction of lateral sewers wherever connections can reasonably be made with public sewers.

As soon as the weather permits and the ground settles the Ninth avenue sewer will be completed without delay, and the streets across and through which it passes will be placed in as good condition as before. Your committee are of the opinion that the Street Commissioner should be authorized to open the ditches in the streets on each side of the Ninth avenue sewer as soon as the weather and the ground will permit.

Respectfully submitted,

F. RUEHLE,
C. M. WELCH,
D. SHANAHAN,
JAS. DALY,
GEO. W. HOUGH.

AN **ORDINANCE authorizing the** "Grand Trunk Junction Street Railway" to construct and operate its railroad.

It is hereby ordained by the Common Council of the city of Detroit:

SECTION 1. Consent, permission and authority are hereby given and granted to the "Grand Trunk Junction Street Railway," a corporation organized under the laws of the State of Michigan in regard to tram railways, to construct and operate its railway from Mt. Elliott avenue through Congress, Seventh, Baker and Twenty-fourth streets and the Dix road to the westerly limits of the city. A diagram of the route of said railway within two months from the passage hereof shall be filed with the City Clerk and Surveyor. *Provided*, That should any part of the territory west of the city limits and through which the track of said road shall be laid be added to the corporation, then the rights hereby granted shall include and cover so much of the said track as shall be in such territory, and be subject to all the provisos and conditions of this ordinance.

SEC. 2. Said company is authorized to lay, use and maintain a single track, with necessary and convenient turn-outs, side tracks and switches in and along the course of the streets mentioned in the preceding section, and to operate thereon street railway cars during the term hereinafter prescribed, subject to all the conditions and restrictions of this ordinance.

Such track shall be laid with the inside of each rail two feet four and one-fourth inches from the center of the street. Said rails shall be of the same style and shape as those now in use by the city street railways, and shall be laid four feet eight and one half inches apart, with the upper surface of the rail flush with the surface of the street, and in such a manner as not to interfere with ordinary travel, and particularly of wheeled vehicles, and shall conform to the grade of the streets as existing or hereafter altered.

SEC. 3. If it shall become necessary to relay said rails, the same shall be done at the expense of the grantee, and in all streets or parts of streets which are not paved, the rails shall be laid in such manner as shall least interfere with the public travel thereon, and as shall be authorized and approved by the City Surveyor. The grantee and its assigns shall keep the surface of the streets, from curb to curb, in good order and repair, and all snow, ice, dirt and filth cleaned and removed from such portion of the streets at the expense of the grantee, in such manner as not to obstruct travel in any part of the street. And said company shall fully indemnify and save harmless the city from any and all claims or damages for which it might be made or become liable to pay by reason of the construction, making or operating of said railway, or the giving and allowing of the license, right and privileges hereby granted.

SEC. 4. Said railway shall be laid down subject to the right of the city, or of any gas company, or of the Water or Sewer Commissioners to lay down, take up, change or remove any works of any kind on or beneath the surface of the streets without any claim for damage on the part of said railway.

SEC. 5. The cars to be used on said railway shall

be run and drawn by animals only, at a speed not exceeding six miles an hour, and as often as the Common Council shall by resolution prescribe. *Provided*, The cars and carriages used by said grantee shall be of the best style in use on street railways in the city of Detroit, and they shall not be used for any other purpose than to transport passengers and their ordinary baggage. *Provided*, That other cars may be used for cleaning said railway track from obstructions by snow and otherwise.

SEC. 6. The trains on said railway shall at all times be entitled to the track, and vehicles on the track shall turn out when any car comes up, so as to leave the track unobstructed, and the driver of any vehicle refusing so to do, shall be liable to a fine as provided in section 16 of this ordinance.

SEC. 7. Cars drawn in the same direction shall not approach each other within a distance of 100 feet, except in cases of accident, or at stations, or for the purpose of connecting cars together. All cars used upon said railroad after sunset shall be provided with signal-lights, red in front and green in rear.

SEC. 8. No car, or the horses thereto attached, shall be allowed to stop on a crosswalk or in front of any intersecting street, except to avoid collisions and to prevent danger to persons or property in the street; and conductors shall not allow any person to enter or leave the cars while in motion. Nor shall any car be allowed to remain or stop at the intersection of any street so as to obstruct the free and ordinary use of it. When any car is required to be stopped at the intersection of any street to receive or leave passengers it shall be so stopped as to leave the rear platform slightly over the crossing.

SEC. 9. The grantee and its assigns shall employ careful, sober and prudent agents, conductors and drivers to take charge of the cars while on the road, and it shall be the duty of all such agents, conductors and drivers to keep vigilant watch for all trains, carriages and persons on foot, especially children, either upon the track or moving toward it. At the first appearance of danger to such teams, carriages, footmen, children or other obstructions, the cars shall be stopped in the shortest time and space possible, and notice-bells shall be attached to all horses drawing such cars. Conductors shall announce to the passengers the names of the principal squares and streets as the cars reach them.

SEC. 10. If hereafter the pavement on said streets, or on any streets occupied by said company shall be extended, or any such street shall be ordered repaved, the said grantee shall contemporaneously with the paving or repaving of said streets, at its own expense, excavate, grade, and pave or repave, with the same material, or with material and in a manner satisfactory to the Common Council, all the portion of the street or streets which lies within their track or any switches or turn-outs placed by them, and two feet nine inches on either side thereof, such expenses to include the cost of paving, repaving, grading, excavating, removing of earth, and all expenses necessary for paving or repaving the street to the extent above specified, and at all times keep or cause to be kept in good order or repair such pavement within said track and distance on either side thereof.

SEC. 11. Said railway shall provide and keep in repair at all times such substantial and permanent approaches to its track at all street crossings on all streets not paved, that teams, vehicles and persons on foot will be enabled to cross the track conveniently at all times.

SEC. 12. Passengers conveyed upon said railway in said city shall be charged no more than five cents for any distance. The said grantee shall have the use of the streets as specified in this ordinance, free, for the term of two years after the completion of said road to the limits of the city; and on the third year and after they shall pay the city the following sums, the third year one per cent., fourth year two per cent., fifth year three per cent., sixth year four per cent., seventh year five per cent. of their net earnings, and so continue to pay to the city five per cent per annum, as described, until the term of their contract with the city expires. All payments to be made semi-annually."

SEC. 13. It is hereby reserved to the Common Council of the city of Detroit the right to make amendments to this grant and ordinance, and such further rules, orders, or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accommodation of the city and public in relation to said railway.

SEC. 14. This ordinance shall be void and of no effect unless the grantee shall, within one month from the date of the approval thereof, notify the Common Council in writing of its acceptance of and its agreement to the provisions of this ordinance, and shall, within two months thereafter, commence the work of constructing and building said railway, and complete the same to the limits of the city in two years.

SEC. 15. The powers and privileges conferred by the provisions of this ordinance shall be limited to 25 years from and after its passage.

SEC. 16. Any wilful violation of, or failure to comply with, the provisions of this ordinance by said Grand Trunk Junction Street Railway, or by any agent, conductor, driver, or any person in the employ of said grantee, or if the driver of any vehicle shall refuse to turn out as required by section 6, the same shall be punished by a fine not to exceed $100 and costs, and in the imposition of any such fine and costs the court may make a further sentence that the offender, except the grantee, be committed to the county jail, or to the Detroit House of Correction, until the payment thereof, for any period of time not exceeding six months

To the Honorable the Common Council:

Gentlemen—I respectfully report to your honorable body that fines and costs were imposed in the Recorder's Court for the April term thereof, for the violation of city ordinances, to the amount of $14.

Respectfully submitted,
JOHN T. MELBRUM,
Clerk of the Recorder's Court of the city of Detroit

Accepted and referred to the Committee on Ways and Means.

FROM THE SUPERINTENDENT OF PARKS.

To the Honorable the Common Council:

Gentlemen—The Committee on Ways and Means recommended the reduction of $1,000 of the general expenses for parks.

I, the undersigned Superintendent of Parks, would most respectfully submit to your kind consideration the facts: That the most of our parks, if not all, suffered considerable during the last hard winter, and are in great want of trees, to-wit:

Grand Circus Park East, 150 trees; Cass Park, 300 trees and shrubbery; Clinton Park, at least 300 trees and shrubbery. Campau Park, in the Tenth Ward, has no trees at all and needs at least 300 or more trees and shrubbery. The two Stanton Parks, in the Ninth Ward, are unimproved and requiring walks, gravel and at least 300 trees. Two parks in the Eighth Ward requiring also trees, fences and general improvements, and, in fact, all the parks are requiring a careful overhauling in regard to fences, gravel, trees and shrubbery.

Considering these absolute improvements of the parks in general, your honorable body will come to the conclusion that the original estimate of $8 000, adding the $780 28 of the Park Improvement Fund thereto, would be hardly sufficient to carry out those necessary improvements.

Therefore the undersigned respectfully requests your honorable body to reconsider the reduction of $1,000 and enable your petitioner to carry out the confidence trusted in him by appointing him to the position which he is now holding, and your petitioner will ever pray your honorable body.

Your most obedient servant,
JOHN ZIMMERMAN.

Accepted and placed on file.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Thomas R. Merrill, for permission to remodel and repair a frame barn, on lot 10, block 3, Cass farm, respectfully report that they have examined the subject embraced in said petition and find that the proposed change will not increase the fire risk, and therefore recommend that the prayer of the petitioner be granted.

D. DULLEA.

Accepted and adopted.

SUSPENSION OF THE RULES.

On motion of Ald. Hough the rules were suspended for the purpose of placing the following ordinance upon its third reading: "An ordinance to amend chapter 70 of the Revised Ordinances of

Digitized by Google

1871, by adding thereto three sections to stand as sections 18, 19 and 20."

On motion of Ald. Lichtenberg the 18th section was amended by striking out the word "or." in the third line.

Ald. Daly moved to further amend the ordinance by striking out the whole of the 19th section.

The motion did not prevail.

Ald. Lichtenberg moved to amend the 20th section by inserting after the word "same," in the first line, the following, "shall not visit any other patient except those affected with small-pox or varioloid until he has changed his clothing and otherwise disinfected himself."

The amendment was adopted.

The question then being upon the passage of the ordinance, the same, as amended, was passed by the following vote:

Yeas—Ald. Botsford. Broeg, Christian, Grelling, Hinchman, Lichtenberg, Preston, Ruehle, Stange, Welch. Woolley, and the President—12.

Nays—Ald. Daly, Dullea, Hough, O'Keefe, and Shanahan—5.

The title of the ordinance was confirmed.

On motion the Council then resumed the regular order of business.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred ordinance No. 9—which was adopted by your honorable body on the 11th inst., and the communication of His Honor the Mayor of the 15th inst., containing his objections to said ordinance—would respectfully return the same and recommend the adoption of the ordinance, "notwithstanding the objections of the Mayor," for the following reasons:

The first objection assigned against the ordinance is "granting the exclusive use of the foot of Woodward avenue, or some part thereof, to whoever may be the highest bidder." The objection in the opinion of your committee does not apply to the present situation of affairs. The foot of Woodward avenue is leased to Geo. N. Brady and others at $800 per annum, the rent is paid to the city promptly, the lease does not expire until the 1st of August, 1874, and we submit that it is the duty of the city to protect the said Brady & Co. in the peaceful use of said property, and that the adoption and enforcement of said ordinance is the best means of accomplishing this unquestionable object.

The second objection assigned is against that part of the ordinance that says: "No person shall be licensed to land any ferry-boat within 150 feet of the said street or premises."

For the past year or more other parties, have been landing ferry-boats at the dock just above the foot of said street, and allowed them to swing round and cover the foot of said street, to the great detriment of the lessee, and trouble and annoyance of the public. There are many docks in the city from which ferry-boats can run, with profit to their owners and benefit to the public, and your committee believe it is time Detroit adopted ordinances similar to those in force in older and larger cities for the protection of its lessees and the traveling public

Respectfully submitted,
SMITH R. WOOLLEY,
GUY F. HINCHMAN.

The undersigned is of opinion that there is no other way of preventing the confusion and annoyance to the public than the passage and enforcing of the said ordinance, and that so long as the two ferries are allowed so near to each other the trouble will continue.

D. C. HOLBROOK,
City Counselor.

The report was accepted and placed on file.

Ald. Woolley (in connection with the same) moved that the ordinance referred to in the report be adopted, notwithstanding the objection of the Mayor.

On motion of Ald. Hough the previous question was ordered.

The question being upon the passage of the ordinance, the same did not pass, as follows:

Yeas—Ald. Botsford, Hinchman, Preston, and Woolley—4.

Nays—Ald. Broeg, Daly, Dullea, Grelling, Hough, Lichtenberg, O'Keefe, Ruehle, Shanahan, Stange, Welch, and the President—12.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, April 28, 1873.

To the Honorable the Common Council:

Gentlemen—I beg to submit to your honorable body that in the present crisis of impending increase of taxation I think it my duty to call your attention to the oft-repeated grievance, that the railroad property located and moveable within the city limits pays no city taxes; and whilst we afford the companies the same protection that we do tax-

Digitized by Google

payers, they seem to think that a transient free pass for a city official or a pauper is equivalent to all the benefits they enjoy tax free.

With the exception of some $5,000 paid by one company for water pipes, and about $1,000 by another company for similar purposes, I find no return of any kind of a substantial nature that the city has ever received for the protection of our expensive police so fully rendered, nor for our Fire Department, which is held ready at enormous expense to protect railroad property in common with that of taxpayers, and surely the situation of most railroad buildings make them extra hazardous.

I therefore, in view of increased burdens imposed upon this city by late legislative enactments, recommend to your honorable body to empower a special committee to confer with all the railroad or railway companies located or doing business in this city, and ask them to pay their fair share of the expense incurred to maintain our efficient Fire and Police Departments.

I beg further to recommend to your honorable consideration that at least one twentieth part of the value of this city is comprised of railway establishments that pay no tax, and that their buildings, being doubly dangerous for fire, compared with other city property, it would seem just that they should pay at least one-tenth part of the whole expenses of our Fire Department, instead of accepting a free gift from a city largely composed of laboring men who own small houses.

I am aware that objections may be made because we did not agitate this subject when the Legislature was in session, to which I answer that, judging from the disposition of the late Legislature toward this city, and the liberal free pass system enjoyed by its members, it was extremely doubtful if any redress for this monstrous wrong of non-taxation could have been obtained. I shall not urge that it is optional with this city to put out all fires occurring in its vicinity, because the good sense of the respective railway company managers themselves will recall that Detroit firemen are always on the alert and ready for action at home or abroad, and that it costs no small amount of taxation to keep this department up to the proper standard.

Very respectfully,
H. MOFFAT,
Mayor.

Ald. Woolley moved that the communication be accepted and referred to the Committee on Judiciary.

Ald. Hinchman moved to amend by referring the same to a special committee.

The motion prevailed, and the chair appointed as such special committee, Ald. Woolley, Hinchman, and Preston.

Respectfully submitted,
JAMES T. WRIGHT,
Gas Inspector

Accepted and placed on file.

FROM THE STREET COMMISSIONER, E. D.

To the Honorable the Common Council:

Gentlemen—I beg permission to call the attention of your honorable body to the manner in which the sewers in alleys are connected with sewers in the streets. One in particular which I wish to call your attention to is in the alley between Clinton and Mullett streets, east of Riopelle street, which has been dug under the sidewalk to the middle of the street in the shape of a tunnel, and which must necessarily leave the earth very loose on the top of the brick-work, giving it a chance to settle and make a bad hole in the street. This has also been done in a great many other places.

There have been complaints almost continually this spring in regard to holes in the streets, and I have no doubt that a principal part of them has been caused from connecting sewers in the manner above stated.

Respectfully submitted,
W. BONNINGHAUSEN,
Street Commissioner Eastern District.

Accepted and referred to the Committee on Streets.

FROM THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable the Common Council:

Gentlemen—I respectfully call your attention to the large amount of frame buildings, sheds and all kinds of repairs to frame buildings going on from day to day in our fire limits in this city. I therefore ask that your honorable body either abolish all fire limits or put a stop to granting everybody the privilege of erecting in the prescribed fire limits from a cow shed to a warehouse, built of combustible material, to the detriment of adjoining property, and raising the rate of insurance. I have repeatedly stopped the erection of such sheds and buildings within the prescribed fire limits, and in no case that I can remember, with the exception of Jacob Hommell's building, opposite the jail, have your honorable body sustained me, but, on the contrary, allowed them to go on and build what they wanted. I most respectfully call your attention to a building on the corner of Larned and Rivard streets, where they have asked to alter and repair and increase one-half story higher. They have increased said building to an entire new building, and two and one-half stories high, making it a huge, large building that will make a rattling big fire on some cold night. Also another on the corner of Fort and Sixth streets, which will make another monstrous fire. Also to an unsightly-looking shed erected between a frame and brick building on the corner of Antoine and Fort streets. This, I put a stop to the erection of, but Ald. Lichtenberg offered a whitewashing resolution for a roof, which was granted, and they have gone on with it. I therefore ask that you give this matter your careful consideration, and see that those privileges given by you are not overdone and abused.

I am, gentlemen, very respectfully your obedient servant,
JAMES BATTLE,
Chief Engineer and Fire Marshal, Detroit Fire Department

Accepted and referred to the Committee on Fire Limits.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 26th inst., and they were approved on the same day

Accepted and placed on file.

REPORTS OF COMMITTEES.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—The Committee on Claims and Accounts, to whom was referred the pay-roll for lamplighters for the month of April, have examined the same, and, believing it to be correct, recommend payment.

Respectfully submitted,
JAMES FLOWER,
F. RUEHLE.

Accepted and adopted as follows:

Yeas—Ald Borsford, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—18.

Nays—None.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the petition of Thomas Cox, remonstrating against the proposed building of a sidewalk in front of property leased by him on Tremont street, have examined into the matter and find that while it will seem to impose an unjust burden on the petitioner, yet public necessity requires that the construction of said sidewalk shall be proceeded with. Your committee therefore report adverse to granting the prayer of the petitioner.

Respectfully submitted,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the petition of the Daily Union Printing

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets beg leave herewith to submit specifications for paving, in accordance with the resolution of your honorable body, and would respectfully recommend that the City Clerk be instructed to have 50 copies of each printed for the use of the Council.

Respectfully submitted,
C. M. WELCH.
G. GRELLING.
D. SHANAHAN.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—18.

Nays—None.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of M. Herzberg and others, committee of the congregation Shaarey Zedeck, for permission to make certain alterations in the synagogue on the corner of Congress and St. Antoine streets, respectfully report that they have examined the matter, and recommend that the prayer of the petitioners be granted, as no increase of the fire risk will be caused by the repairs proposed.

Your committee have also examined into the matter of the petition of Mrs. L. E. Johnson for permission to repair a barn at No. 139 Congress street west, and believe that the fire risk will be lessened rather than increased by the proposed repairs, and therefore recommend that the prayer of the petitioner be granted.

Respectfully submitted,
M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Avery & Murphy, Hodges Brothers, and others, for the extension of the fire limits over certain territory lying between Eighth and Twelfth streets, north of Grand River avenue, on the Woodbridge and Lognon farms, respectfully report that they have given the matter a careful consideration, and believe that neither the public welfare nor the best interests of a large and worthy class of citizens would be fostered and promoted by the extension of the fire limits over this distant and comparatively unsettled portion of the city. The fire limits now extend on Grand River avenue to a point 100 feet west of Third street. To extend the same over the territory as asked for by the petitioners would necessitate the extension of the fire limits over the larger portion of the back parts of the Fifth and Eighth Wards, or the establishment of an isolated district, separated by a long interval from the populous parts of the city. The petitioners state that they own more than two-thirds of the property embraced within the described limits. That being the case, they can certainly prescribe the kind of buildings that shall be erected thereon; but to endeavor to compel the few mechanics and laboring men who have secured lots in this locality to erect a style of buildings perhaps beyond their means, to meet the views of those who have made large purchases for purposes of speculation, would, in the opinion of your committee, be both unjust and unreasonable. Believing that the time has not yet arrived when it would be advisable to extend the fire limits over the unoccupied vacant lands in the extreme outskirts of the city, your committee recommend that the prayer of the petitioners be respectfully refused.

Respectfully submitted,
M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

MARKETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets, to whom was referred the petition of Henry B. Paris, J. C. Potter and 70 others, doing business on the market, asking that John Myers may be appointed assistant to the Market Clerk, instead of Theodore Heinrich. Your committee have given the matter mature consideration, visited the person who signed said petition, and inquired what their objections were to Mr Heinrich. The universal answer was, that he never kept the market clean; on the contrary Myers kept it in good order and was obliging to everybody. Your committee are also informed that Myers has fought in 16 well contested battles in defense of his adopted country, which has rendered him useless to work at his trade. He also has a very large family. Your committee are further informed that Mr. Heinrich does not need the position because he is in moderate circumstances, and could do better to work at his trade. Therefore your committee would recommend that the prayer of the petitioners be granted, and would recommend the adoption of the annexed resolution.

Resolved, That the office of Assistant Market Clerk be, and the same is declared vacant.

ARTHUR O'KEEFE,
D. SHANAHAN.

Ald. Woolley moved to lay the report and resolution upon the table.

Lost as follows:

Yeas—Ald. Botsford, Christian, Hinchman, Lichtenberg, and Woolley—5.

Nays—Ald. Daly, Dullea, Flower, Garrison, Grelling, Hough, O'Keefe, Preston, Ruehle, Shanahan, Stange, Welch, and the President—13.

Ald. Woolley called for a division of the question, and moved that the report and resolution be considered separately.

On motion of Ald. Daly the matter was laid upon the table until the next session.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the petition of George Baker, John T. McKeown and others for the opening of an alley in the rear of the premises on the north side of Orchard street and the south side of Plum street, between Eighth street and Ninth avenue, having examined the same and finding that the parties interested are willing to dedicate the necessary land required for such a purpose, do recommend that your honorable body grant the prayer of the petitioners on condition the alley opened shall be 20 feet wide.

Respectfully submitted,
GEO. W. HOUGH,
JAMES DALY.

Accepted and adopted.

SUSPENSION OF THE RULES.

On motion of Ald. Woolley the rules were suspended for the purpose of presenting the following preamble and resolutions adopted at the citizens' meeting held on the 21st inst., together with a memorial pertaining to the same.

The committee appointed at the above meeting presented the following:

COMMUNICATION.

To the Honorable the Common Council:

Gentlemen—At a meeting of citizens, held April 21, 1873, at the Young Men's Hall, in the city of Detroit, the inclosed resolutions were unanimously passed, and a committee, consisting of the following citizens, was appointed to present them to your honorable body.

COMMITTEE.

Duncan Stewart, E. B. Ward, Peter Henkel,

Wm. C. Duncan, H. H. Craig, Hiram Walker, M. Martz, M. M. Fisher, A. S. Bagg, J. V. Mehling, H. P. Bridge, Richard Trevellick, R. H. King, Thos. Palmer, H. C. Hodges, Ashley Pond, Wm. Foxen, Colin Campbell, Robert Linn.

Said committee respectfully present the resolutions, as passed, supplementing the same by a memorial of their own.

DUNCAN STEWART,
Chairman.

The communication was received.

The following are the resolutions referred to:

Whereas, The citizens of Detroit at several public meetings already held, and at the late municipal elections, have given an emphatic condemnation to the recent legislation known as the Park bill: and

Whereas, An issue of the bonds of said city to the amount of $1,000 000, and an annual tax of $75,000 have been surreptitiously procured, without the request of the public: and

Whereas, The Park Commissioners, in defiance of the condemnation above referred to, avow themselves determined to carry out the iniquitous legislation of the park scheme; therefore,

Resolved, That we do appeal to the Legislature to modify the legislation already had by the adoption of which is known as "Richardson's amendment to the charter amendments," and thus save us from the disgrace attempted to be fastened upon us by certain of our Representatives, instigated by purely selfish interests.

Resolved, That we do solemnly and earnestly urge upon the Mayor and Common Council of the city of Detroit to use the best efforts in their power to render ineffectual such legislation.

Resolved, That it is the duty of the citizens of Detroit to denounce the aiders and abettors of such legislation, and that in future, if such aiders and abettors shall ask the suffrages of the people of Detroit, it will be our duty to say to them: "You are not of us" nor for us, and are unworthy to represent us

Resolved, That the President of this meeting appoint a committee of 20 to lay these resolutions before the Common Council at its next session.

D. C. WHITWOOD,
President.

GEO. M. LANE,
Secretary.

Detroit, April 29, 1873.

Ald Woolley, President *pro tem.*, was called to the chair.

[Copy.]

The undersigned, a committee appointed by the citizens at a meeting held the 21st of April, 1873, at Young Men's Hall, to present to your honorable body the resolutions unanimously passed at said meeting, having fulfilled their commission would in addition respectfully present to your honorable body their views in a more extended form, hoping that you will give them a respectful and careful hearing, believing that the object sought to be attained by them, to-wit: The defeat of the insolent and defiant legislation at Lansing, is desired by over two-thirds of the legal voters of this city.

1. In regard to the Park act your memorialists would represent:

That while the Park act, so called, does undertake to require the Common Council to provide money for the purchase of the land selected by the Park Commissioners by the issue and sale of the bonds of the city, it expressly empowers your honorable body to fix the terms of the proposed issue, and prohibits that the bonds shall bear interest to exceed seven per cent per annum, and forbids that said bonds shall be sold at less than par. Of course if the bonds cannot be sold at par your honorable body are under no obligation to provide money for the purchase, and as the rate of interest is left to your discretion, subject to the maximum of seven per cent. per annum, above mentioned, you violate no duty in exercising that discretion. In other words, it rests with you to fix the rate of interest a any figure at or below the limit of seven per cent. per annum.

Your memorialists therefore pray that your honorable body will fix the interest on said park bonds at one per cent. per annum, and the time for said bonds to run at 50 years.

2. Bill No. 39, known as the Water Works bill, is entitled, "A bill to authorize the Board of Water Commissioners of the city of Detroit to borrow money for the purpose of extending and improving the water works of said city."

Under this title this act cannot provide for raising money by taxation except as connected with said loan.

Section 1 provides that no such loan shall be made until authorized by the Common Council. It follow that if your honorable body refuses to empower the Water Board to make said loan under said act there will no necesity for the $75,000 tax levy, and in such case the tax of $75 000 would not be mandatory, and your honorable body would not be justified in making said levy.

We therefore ask that your honorable body shall not authorize the issue of the $1,000,000 of bonds for the Water Board.

We have seen with feelings of deep gratification the decisive vote of your honorable body on the $75,000 tax levy, and know that your constituents will justify your refusal to surrender our municipal independence without a stern struggle.

We counsel no resistance to law, but we do earnestly ask for a steady and inflexible opposition to legislative usurpation. You are our representatives, and to you we look for protection, and if a thread has been dropped in the conspiracy against the sovereignty of the people, which, when drawn upon, will unravel the meshes in which the Legislature of Michigan has enveloped our city, we ask that you will take advantage of the omission.

From what information we can gather we feel confident that the Park and Water Works bills are twin brothers, and we consider that the legislation which gave birth to them is of such a gross and insulting character, so subversive in its tendency, that it merits an indignant rebuke at your hands.

Hoping, and feeling confident, that your honorable body resent a like with the majority of our citizens the unwarrantable and disgraceful encroachments upon your province as a legislative body, we commit to you the trust of our defense, assuring you of a support resolute and unchanging, believing, as we do, that now is the critical period in the history of our city, the dividing line, one way leading to prosperity and greatness, the other to legislative vassalage and financial ruin.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the remonstrance of Hump rey Braddock and others, protesting against the carrying on of an establishment for the manufacture of boxes by steam power in the rear of No. 33 Montcalm street west, respectfully report that on the 7th of March last Mr. S B. Dixon asked permission of the Council to erect a building and put up a small engine at this locality, which reques was granted. The Council granted Mr. Dixon's request without referring the same to the proper committee, for the reason that the location was not within the fire limits, and Mr Dixon had a undoubted right to erect the same and prosecute his business without asking permission with the same freedom that any other citizen may carry on a manufacturing business in any part of the city, subject only to the provisions of section 24, chapter 85 of the Revised Ordinances, wherein it is made the duty of the Fire Marshal or Chief Engineer of the Fire Department to enter any building and see that proper precautions are used to guard against the danger of fire, and if, in his opinion, necessary, to require such changes to be made as will best conduce to the public safety

Respectfully submitted,

M. P. CHRISTIAN,

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of J. B. Cousins, for permission to remove a two-story frame house to the south side of Miami avenue, near John R. street, respectfully report that the locality where it is proposed to place said house is the only vacant lot in a long block of wooden buildings, and as a consequence will largely increase the fire risk of the entire neighborhood. Section 3, chapter 85, of the Revised Ordinances, provides that the Council shall not permit the erection of a wooden building where it will increase the fire risk of any building adjacent thereto Your committee therefore report adverse to the prayer of the petitioner.

Respectfully submitted,

M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Gauthier & Clark, for permission to erect a small office about eight feet square, on the southwest corner of Michigan avenue and Fourth street, respectfully report that said office will not be within 50 feet of any other building, and cannot possibly increase the fire risk; your committee therefore recommend that the prayer of the petitioner be granted.

Your committee have also examined into the matter of the petition of Dunn & Co., asking permission to move a frame shed about 10 feet on the lot at the corner of Larned and Cass streets The shed now adjoins his brick building on the south side, and also adjoins a frame barn on the adjoining lot on the east. By removing the same, as proposed by Mr. Dunn, it will be separated from all other buildings and the danger of fire will be considerably lessened. We therefore recommend that the prayer of the petition be granted on condition that said shed shall not be increased in size or height.

All of which is respectfully submitted,

M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

FROM THE BOARD OF REVIEW.

CITY ASSESSOR'S OFFICE,
DETROIT, May 6, 1873.

To the Honorable the Common Council:

Gentlemen—The Board of Review respectfully beg leave to report that they have reviewed, corrected and approved the assessment rolls of the several wards of the city, and (herewith accompanying) do return them to your honorable body, according to the provisions of section 6, of chapter 9 of the revised charter.

In our reports for preceding years you may observe that we have alluded to the necessity of a change in the valuation of the property around the new City Hall, foreshadowed by the magnificent improvements on Griswold street, the Campus Martius, and on Woodward avenue.

Some few changes were made last year in the immediate vicinity of the new City Hall, since then the completion of Mayor Moffat's noble structure has established, beyond dispute, the duty of increasing the amount of the assessment on the lands in this section of the city

Our most important changes were prompted by the startling differences that appeared in the value of the property on Michigan avenue, opposite the City Hall.

Accompanied, at our request, by the City Assessor, Mr Henry Leroy, we made an inspection of the premises, and mutually decided that it was clearly our duty to place it at $800 per foot. It was then standing on the rolls from previous years at $450.

Notice was given to the owners of the change made. Very few of them appeared to make objections, some affirming that our increase was quite correct.

We are credibly informed that in one instance a sale was made at $900.

We extended the increased valuation to a point as far as the improvement seemed to have an influence. The equity of the change was made apparent by the refusal of the parties, in our presence, to accept an offer entirely in cash at the full valuation made

Griswold street was assessed five years ago at $500 per foot in the best parts. Woodward avenue was then assessed at $800 per foot. The latter has been raised by this board to $1,300 per foot, and it is reasonable that a proportionate increase should be placed on Griswold street—the Wall street of Detroit. This street will doubtless increase more rapidly than any other in the city, and with the rise, as it progresses, the assessment roll must be increased. Many claim that even now it should be put at $1,000, and some parts of it at $1,500. We are informed that an offer was made and refused of $1,500 per foot for five feet on this street.

On Woodward avenue we have ample evidence, even far beyond our figures, to sustain the prices that we have placed upon it. Appraisements and sales that have been made there clearly establish this fact.

Jefferson avenue has increased less in proportion than any others, yet there has been a marked increase in some portions of it, and everywhere a partial increase. We first placed the figures of increase on this street in some degree proportioned to the other streets named, but upon the representations of the owners, who appeared before us, we deemed it just to make a reduction.

In all cases we have notified the parties interested of our action, as required by law. Many of them have appeared, some objecting, and some approving.

We expect there will be appeals made in some cases to your honorable body—this is the lawful right of every citizen whose petition we have denied, and we are well pleased to know that it is so, for we would not willingly inflict the least injury on any one.

The feverish state of the public mind in relation to the increase of taxes has caused an attendance on the sessions of this board much larger than usual.

It is contended that we should not assess so near the full value on these streets, as it is said that it is not done in other parts of the city.

We have examined many parts, in various wards, and find the assessments most remarkably sustained by the sales made, or by the prices of the owners.

We are told that we are doing injustice by raising the whole amount of property assessed in the city. We think we are sensible of the important duties intrusted to us unsought on our part, but unanimously confirmed.

We are solemnly sworn to do our duty, this we understand to be to ascertain the true cash value of the property of the city.

We are also told that we ought not to take the

Digitized by Google

full value of the land, but only a portion, and then a small percentage of that.

The merchants and other dealers of the city are assessed to the last dollar for the goods they are found in possession of, whether they are paid for or not. Even their book-debts, if they exceed what they owe, are embraced by the law in the amount required to be placed on the rolls.

The time was when the wealthy owner of $250,000 in bonds and mortgages was held to be exempt. He could sit at his ease; receive no calls from the tax collector, and bear no share in the burthens of taxation; only increasing his wealth by the rugged toil of his poorer neighbor the owner of a house and lot, perhaps, which of course must stand upon the rolls. There was as great an uproar when this evil was removed as now. Time, however, has proved the propriety of placing this class of property with others on the rolls, and fully established the equity of the law.

Time, too, often reveals the hidden treasures of the chest. Men must die, and then it is that the assessor is no longer evaded in his inquiries.

It has been within the knowledge of one of the members of this board that the personal assessment of an individual, as voluntarily given in at $8,000, was in the following year proven by the Probate Court to have been over $85,000, and including Government bonds, over $160,000. Such wrongs work a great injury to the poorer classes, and we think it is of vast importance to guard against their repetition.

We have passed through an extraordinary session. We have not been disposed to be overawed in the performance of our duties nevertheless. Our motives have been denounced, and we are charged with favoritism toward one ward at the expense of another. We are also charged with having assumed authority that did not belong to us, inasmuch as one of our members was absent at Lansing.

Sec. 6 of Chap. 9 reads as follows:

"The concurrence of a *majority* of the board *shall be sufficient* to decide any question of altering or correcting any assessment complained of.

"The board *or a majority* of them having completed the review and correction of their assessment rolls shall respectively sign and return the same to the Common Council."

This made it our duty, and gave us authority to proceed with our labors notwithstanding the absence one of our members. We repel with scorn the accusation of any unfairness or injustice toward our fellow-citizens. We do not think that many of them will believe that we could be guilty of it.

We beg your honorable body to pardon the length of this communication, as the injustice done to us seemed to demand more than an ordinary notice. We do not claim infallibility. We may be wrong in our judgment, but we are sure that in all respects we have only sought to do that which is right. We have given patient and attentive hearing to every objection that has been made, and we challenge any one to show that we have been actuated by any other motives than the purest toward every citizen of Detroit.

We look, therefore, to your honorable body, by your action to sustain us if we are correct, as we think we are abundantly able to show. If otherwise, we are glad to know that you will have the power to correct it.

ALLEN A. RABINEAU,
GEORGE M. RICH,
Board of Review.

The communication was accepted and, on motion, referred to the following special committee: Ald. Flower, Garrison and Preston.

REPORTS OF COMMITTEES.

JUDICIARY AND CITY COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned Committee on Judiciary and the City Counselor, to whom was referred the petition and claim of Julius Otto, for injuries sustained by him by reason of falling into a hole at the intersection of Clinton and Antoine streets, respectfully report that on Sunday evening, the 16th of March last, as Mr. Otto was returning to his home he fell into a hole about four feet deep, and between two and three feet wide, in the crosswalk across Antoine street, by which one of his legs below the knee was bruised, causing him to be confined to his house some days, and prevented him from pursuing his business for nearly a month, and incurring expense for medical attendance. This hole was caused by a leak in a water pipe by which the sand under the walk was washed away, and the walk sunk or fell down to the depth above stated. It does not appear that this deficit in the crossing existed before the evening when the accident to Mr. Otto happened, and it was first discovered by the Street Commissioner for the Eastern District, on the day following, and was then repaired by the Water Board.

This is one of the cases covered by the case of Blackeby against the city, reported in 21 Michigan Reports, page 84, deciding the city is not liable to damages for such injuries as happened to Mr. Otto.

The undersigned believe Mr. Otto to be an innocent sufferer, but there is no legal obligation on the part of the city to make him any compensation, and they report accordingly they cannot, therefore, recommend any remuneration, yet they submit the matter to the consideration of the Council.

Respectfully submitted,
GUY F. HINCHMAN,
F. RUEHLE,
Committee.
D. C. HOLBROOK,
City Counselor.

The report was accepted and adopted.

Leave being granted, Ald. O'Keefe offered the following:

Objected to and laid over under the rules.

FIRE LIMITS.

To the Honorable the Common Council:

Chapoton and others against the enlargement of the building on the corner of Congress and St. Antoine streets, known as the Synagogue of the Congregation Shaarey Zedek, respectfully report that the petition of said congregation asked permission to repair said building, which permission was granted on the express condition that no increase in the height or size of said building should be made.

HEALTH.

To the Honorable the Common Council:

Gentlemen—Your Committee on Health, to whom was referred the remonstrance of M. Martz and four others, against the proposed opening of an alley in the Seventh Ward, in the block bounded by Fort, Congress, Riopelle and Orleans streets, respectfully report that they have considered said remonstrance and examined said block personally, and are of the opinion that the opening of said alley, as a sanitary measure, is an imperative necessity. While the statements set forth in the remonstrance may be true in regard to those premises fronting on Congress street, they have no application in regard to those fronting on Fort street. Even were they true in regard to the premises fronting on both streets, still they would be no valid objection to the opening of the proposed alley. Should a lateral sewer be laid in said alley after it is opened, by section 37, of chapter 5, of the charter, as amended by the act of 1871, the expense thereof could not be assessed upon those lots not benefited. Those living on Fort street are compelled to carry the filth and rubbish that accumulate in their back yards and the odor from their privy vaults when cleaned through their front yards, and in some cases through their houses, making the proper cleaning of their premises extremely difficult. This is also generally true as to the premises fronting on Congress street, except as to the vaults. The cost of the improvement cannot be very considerable, as there is but one structure on the line of it, and that is a shed. We would, therefore, recommend that the resolution reported by the City Attorney be adopted.

Respectfully submitted,

G. GRELLING,
DAVID PRESTON,
D. DULLEA.

Accepted and adopted.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT, }
MAYOR'S OFFICE, MAY 9, 1878. }

To the Honorable the Common Council:

Gentlemen—I return to our honorable body, without my approval, an ordinance passed at the session of the Council on the 6th inst., granting a charter for a street railway, for several reasons set forth in my communication to the honorable Council on the 15th of April last, wherein I endeavored to show that it is poor political economy to give away every privilege without making provision for any return.

And the present ordinance being merely a small variation from the former one, therefore, in justice to the rights and future prospects of this city I again recommend to your honorable body that for such a privilege no company should be chartered unless they were willing to pay an equitable return, otherwise in granting such a monopoly the honorable Council are doing an act of great injustice to the best interests of their constituents with the full knowledge that when the precedent was made in granting former charters for street railways, the same system was condemned and is still condemned by all disinterested well-wishers to our prosperity as a city and corporation.

I would further state that this ordinance can be of no effect until the former ordinance for the same purpose is repealed, it being in conflict with the Compiled Laws of this State.

Very respectfully,
H MOFFAT,
Mayor.

Accepted, and the vote by which the ordinance was adopted was reconsidered as follows:

Yeas—Ald. Botsford, Christian, Daly, Flower, Garrison, Grelling, Hinchman, Hough, O'Keefe, Preston, Ruehle, Sharaban, Stange, Welch, and the President—15.

Nays—None.

On motion of Ald. Preston the ordinance and communication were then laid upon the table for one week.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition of Chris. Your committee are of the opinion that great care should be exercised by the Common Council, and that some restrictions should be imposed when such permissions are granted, as the ordinance in relation to fire limits provides that the Council shall only authorize the construction or repair of any wooden building within the fire limits when the same shall not increase the fire risk of any building adjacent thereto. Gentlemen—Your committee, to whom was referred the complaint of the City Attorney, alleging that the City Surveyor had refused to furnish description for the opening of Mack street, find, upon examination, that the resolution offered by Alderman Lichtenberg for the opening said street is not in accordance with the plan adopted by the commissioners on the plan of the city. Also, that the Park Commissioners contemplate straightening and altering Mack street, therefore changing the western terminus. Your committee therefore find the action of the City Surveyor right and proper; saving the city the cost of a jury and advertising.

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of R. Your committee would recommend that Mr. Faulconer be permitted to erect a barn as proposed, on condition that it shall not be larger than 12 by 24 feet, and 12 feet high

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

The undersigned, to whom was referred the claims numbered 35, 36, 37 40 and 41, mentioned in resolution passed at the last session, has examined the same and finds that they are for work and materials for repairing and cleaning a box drain on Sixteenth street, and for cleaning a portion of the asphalt, so called, on Jefferson avenue. A covered box drain was laid on the east side of Sixteenth street, commencing say over 150 feet north of Michigan avenue, connecting with a crock drain across the avenue some four feet below the pavement, and which connects with a like box drain on the south side of the avenue, and continuing some hundreds of feet on the east side of said street. This whole drain was laid to avoid a deep open ditch on the east side of Sixteenth street, to drain a large pool of water north of the avenue; had there been an open ditch instead of a covered drain no one would question that this work should be paid out of the "District" Road Fund, which by the charter is declared to be for defraying the expenses of working, repairing, cleaning and improving highways. The General Road Fund is to defray the expenses of repairing paved streets and alleys. The undersigned has failed to find that any repairing was done to the pavement nor was Michigan avenue, which is paved, in any way repaired, as it was neither out of order nor was the surface touched by this work. The undersigned is of opinion that so much of these claims as is for work done on said drain on Sixteenth street should be paid out of the "District" Road Fund of the Ninth Ward.

As to the work on Jefferson avenue, it consisted merely of cleaning the street of what was once called pavement, placed over a real, hard pavement of cobble stone. This so called pavement had become a mixture of filthy mud, useless as a pavement, and as much dirt, and, on becoming dry, dust, as that which accumulates on all paved streets during the winter months. The cobble stone pavement as such (and there was none other) was not repaired, but cleaned of this stuff; and all cleaning of streets, paved or unpaved, must be paid out of the "District" Road Fund of the District in which the work is performed. The undersigned is therefore of the opinion that this work should also be paid out of the Road fund of the respective district.

Respectfully submitted,
D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—We, the undersigned, your Committee on Ways and Means, to whom were referred the weekly reports of the various city officers for the week ending May 9, 1873, have carefully examined the same, and believing them to be correct recommend their approval.

WAYS AND MEANS, CONTROLLER AND COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned Committee of Ways and Means, the City Controller and City Counselor, to whom was referred the communication of Messrs. McMillan, Newberry, Hall and Owen, proposing to erect and maintain a public market in Michigan avenue, in a lease of the land heretofore occupied for that purpose can be obtained from the city, have considered the matter and report that upon examination of the records of the Council and the office of the Controller, find that the regulation of the market has been to the Council a continual annoyance and that no way has thus far been discovered to remedy the evil and make any arrangement satisfactory to occupants and dealers. Aside from this, all attempts to make the market pay such income as should arise from that source, has failed from many causes, useless, and not now necessary to state in detail.

The late effort of the Council to raise the money to erect a proper building being overruled by the Board of Estimates, the undersigned believe it necessary something should be done to relieve the

Digitized by Google

city from the present situation in which it is placed in regard to a Central Market.

The undersigned therefore believe it would best subserve the interests of the city to make an arrangement with the parties for a lease, and upon an interview with them the following general outlines were mentioned as satisfactory to both parties. Of course, the detail and particulars to make the same practical in all respects will be fully and carefully embodied in a proper lease to be drawn. The city to execute:

1. A lease of 50 feet in width extending from rear line of the old City Hall to Bates street, and from Bates street to Randolph street, for the term of 80 years.

2. The city by ordinances and resolutions to regulate the police of the market.

3. The city to keep and maintain the pavement adjoining the property

4 No taxes to be levied on the property for city purposes.

5. Possession to be delivered of the ground west of Bates street by July 1 next and east of Bate street January 1, 1874

6. No intoxicating liquors to be sold, offered or kept for sale on the premises.

7. The premises not to be used or occupied for any unlawful purpose.

The lessees are,

1. To pay an annual rent of $10,000 quarterly each year from the completion of the building west of Bates street, if completed before May 1, 1874; if not, then rent to commence on May 1, 1874.

2. To erect and finish a building ornamental, and suitable for the purpose of a general market; to be erected without delay west of Bates street, to cost not less than $100.00, to have a basement, and first story to be fitted and used for a market; the second and other stories, if any, may be finished off for offices, the plans and specifications to be approved of by the Mayor and Controller.

3. The ground between Bates and Randolph streets may be improved in a suitable manner for the purpose, acceptable to the Mayor and Controller.

4. To construct all sidewalks not less than nine feet in width, and keep same in repair.

5. To pay all State and county taxes on the improvements.

6. The lessees to be organized into a corporation under the laws of the State; and the lease to be assigned to such corporation subject to all its terms and conditions.

7. At the expiration of the term of the lease, if not extended by mutual agreement, the city to take the improvements at a valuation.

The above are all that is considered necessary to embody in this report as the basis of the proposed arrangement; except that if in the execution and operation of the lease there should be any legal impediment the city is not to be liable for any damages whatever

The above is respectfully submitted to the consideration of the Council, and, if acceptable, the undersigned ask that the resolution accompanying this report be adopted.

D. C. HOLBROOK, City Counselor.
E. I. GARFIELD Controller.
DAVID PRESTON,
C. M. GARRISON,
GUY F. HINCHMAN,
Committee.

Resolved, That the City Counselor draw and the City Controller execute, in behalf of the city, the necessary lease containing the above terms and conditions to Messrs Hugh McMillan, John S. Newberry, Theodore P. Hall and Wm. A. Owen for that space of ground in Michigan avenue heretofore vacated for the purpose of a market, commencing on the east line of the part thereof lately occupied by the building known as the old City Hall, 263 feet westerly of Bates street and extending to the west line of Bates street; also that part also vacated between Bates and Randolph streets.

Ald. Woolley moved to amend the conditions of the lease by requiring the approval of the Committee on Ways and Means to be attached to the same.

The amendment was accepted.

Ald. Daly moved to amend by referring the resolution to the Committee on Public Buildings.

Lost.

Ald Daly moved to lay the whole matter upon the table for one week.

Carried as follows:

Yeas—Ald Botsford, Daly, Dullea, Flower, Grelling, Hinchman, Hough, O'Keefe, Parsons, Preston, and Ruehle—11.

Nays—Ald. Broeg, Christian, Garrison, Lichtenberg, Shanahan, Stange, Welch, Woolley, and the President—9.

Ald Woolley, President *pro tem*., was called to the chair.

On motion, Ald. Langley was excused from further attendance at this session.

JUDICIARY AND CITY COUNSELOR.

To the Honorable the Common Council:

Gentlemen—Your Committee on Judiciary and City Counselor, to whom was referred the resolution of Ald Parsons, May 18, asking that the contract for repaving of Atwater street be discontinued at the west line of Randolph street, for the reason that, by the recent amendments of the charter, paving and repaving must be paid for by the property abutting said streets and so improved, report that they have examined into the matter and learn that, so far as the contractors are concerned, they are willing to terminate the contract; but, having sufficient material on the ground to repave to Brush street, they prefer to go to that street. Therefore, considering the many uses for a general road fund, and the numerous petitions for paving of streets now unpaved, the intersections of which have to be paid for out of this fund, and the fact that this street is already paved from Brush to Chene street, they recommend, in compliance with the resolution offered at the session of May 18, that it be adopted.

F. RUEHLE,
P. PARSONS,
Committee.
D. C HOLBROOK,
City Counselor.

Accepted and adopted.

SUSPENSION OF THE RULES.

On motion of Ald. Parsons the rules were suspended and the resolution presented by himself on the 18th inst., directing the Controller to notify the contractors to discontinue the further paving of Atwater street, at the west line of Brush street, was taken from the table and adopted by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, and the President *pro tem*.—19.

Nays—None.

On motion the Council then resumed the regular order of business.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred a list of accounts approved by the Controller, would respectfully report that they have examined the same, and believing them correct, ask their payment.

Respectfully submitted,

JAMES FLOWER,
F. RUEHLE.

All of which is respectfully submitted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Mrs. Schinerhamer, praying for an extension of time for paying her assessment on a sewer built in the rear of lot No. 5, on Clinton avenue, between Chene street and Joseph Campau avenue, have examined into the matter, and, finding that said sewer was built in 1871, the assessment roll of which was confirmed by your honorable body on the 22d of August, 1871, and believing that a further extension of time would be an act of injustice to the contractor of said sewer, would respectfully report adversely to the prayer of your petitioner.

Respectfully submitted,

F. RUEHLE,
C. M. WELCH
D. SHANAHAN.

Accepted and adopted.

of the Dequindre farm; also, for the opening of Orleans street, from Alfred to Wilkins street; also, for the opening of an alley north of Peterboro street, between Woodward and Cass avenues; have examined the same, and beg leave to report in favor of the petitioners and the adoption of the following resolution:

CITY HOSPITAL.

To the Honorable the Common Council:

Gentlemen—The undersigned Committee on City Hospital respectfully submit that inasmuch as no appropriation or provision has been or can be made this year for the construction of suitable buildings on the grounds recently acquired by the city for hospital purposes, and as such grounds should be looked after, and the buildings and fences thereon kept in repair, it would be wisdom and economy to rent said lands to some good person who would pay something for the use thereof, and bind himself to keep the fences, buildings and trees in good condition.

The premises cannot be rented so rapidly or advantageously as they could have been earlier in the season, but your committee are advised that a reliable party will rent them until March 1 next, binding himself to pay $100 therefor and to keep the building and appurtenances in good order and repair.

We respectfully recommend that the Controller be instructed to rent the said premises until March 1, 1874, for a sum of not less than $100, to be paid as follows: one-fourth down and the balance in three equal installments on the 1st of August, October and December, the lease to be conditioned that the lessee shall keep the premises and the buildings, fences and trees thereon in good order and repair and immediately surrender the possession thereof in case of the violation by him of any obligation upon him under the lease.

The committee submit the accompanying resolution to effect the end above alluded to.

In this connection the committee deem it a duty to express their regret that the Board of Estimates should have found it expedient to strike out the estimate for hospital buildings, thus defeating the clear and expressed wish of the Council and depriving the city of the means for the construction of buildings suitable for the proper care and treatment of such of our citizens as may be afflicted with pestilential disease.

It is a notorious fact that the city has never provided sufficiently for the prevention of contagious disease, or for the care and custody of those afflicted with it. Much money has been and is being expended for this purpose, but in such a way as to reflect no credit upon our humanity or business management of the matter.

The committee are of the belief that this matter, so far as it relates to the construction and maintenance of a hospital on the grounds belonging to the city, was misrepresented to the Board of Estimates, and that if said board had understood the case fully, the expense, inconvenience and lack of comfort attending the mode of caring for persons sick of contagious disease their action would have been different.

The time has arrived when the health of the public is a matter of more importance than the cry against necessary municipal taxation. Owing to the rapid increase of our population and the consequent necessity for greater care, effort and expense to preserve the general health of the city, your committee are firmly of the opinion that a hospital such as was contemplated by the Council should be established at the earliest practicable moment, and that there was little wisdom or economy in that action which prevented the commencement of the work this year.

All of which is respectfully submitted,
F. RUEHLE,
D. PRESTON,
S. R. WOOLLEY.

Resolved, That the City Controller be, and he is hereby instructed to lease the grounds lately acquired by the city for hospital purposes for the most that he can obtain therefor on terms that will secure the preservation of the property, and for a period of time not extending beyond March 1 next.

Ald. Ruehle moved the adoption of the report and resolution.

Ald. Hough moved to amend by directing the Controller to advertise for bids for the sale of the property above referred to.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your Special Committee, to whom was referred the remonstrance of John O'Donnell and six others, against the laying of a stone sidewalk between Adams avenue and George street, respectfully report that they have made a careful examination of the matter, and are of the opinion that the reasons given by the remonstrants why the proposed improvement should not be made are insufficient when compared with the necessity of the improvement. Two of the signers have, moreover, withdrawn their names. We report, therefore, adversely to the petition

Respectfully submitted,
C. M. WELCH,
G. GRELLING,
G. F. HINCHMAN.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee on assessment, to whom were referred the report of the Board of Review and the petitions of the Board of Trade Company, A. C. Lamson, Henry Haigh and 50 others, property holders, asking for abatement of taxes, Your committee have examined the same, and beg to report that, by examining the books in the Assessor's office, we find a reassessment by the Board of Review has been made of certain property in the First, Second, Third and Fourth Wards, and the petitioners above referred to ask that the assessment made by the Board of Review may be taken from the Assessor's books, and the original assessment, as made by the Board of Assessors, be replaced on the books and stand as the proper assessment.

In examining the books and petitions your committee cannot see that by placing it back to the original assessment of the assessors it would be doing any one or the city any injury or injustice. We therefore would recommend that the prayer of the petitioners be granted, and would ask to be allowed to offer the following resolution.

All of which is respectfully submitted.
JAMES FLOWER,
DAVID PRESTON,
C. M. GARRISON.

Resolved, That the assessment made by the Board of Review on property in the First, Second, Third and Fourth Wards be stricken from the Assessor's books, and in lieu thereof the original assessment made by the "sworn assessors" be made the proper assessment for the said property, and the balance of the report of the Board of Review be accepted.

Ald. Grelling was excused from further attendance at this session.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee on assessment, to whom was referred the petition of Darius Cole and others, for a reduction of the assessment upon the steamer George L. Dunlap, have examined the same and made due inquiry as to her value, which is determined by experts in such matters to be thirty thousand ($30,000) dollars, instead of thirty-five thousand ($35,000) dollars as assessed by the Board of Assessors. In view of the above your committee recommend a reduction of five thousand ($5,000) dollars from the assessment, and would ask to be allowed to offer the following resolution.

All of which they respectfully submit,

JAMES FLOWER,
D. PRESTON,
C. M. GARRISON.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee on assessments, to whom was referred the petition of H. M. Utley, have examined the same and see no cause for complaint as Mr. Utley is not assessed any more per foot than the adjoining property, and your committee report adverse to the prayer of the petitioner.

JAMES FLOWER,
D. PRESTON,
C. M. GARRISON.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee on assessments, to whom was referred the communication of Joseph H. Lesher in regard to excessive assessment on property on the corner of Larned and Hastings streets, have examined the assessment on said property on the Assessor's books, and find that Mr. Lesher's property is placed at the same rate of assessment as other property in the same location. That on Larned street is assessed at sixty-five dollars ($65) per foot, and on Hastings street at Fifty dollars ($50) per foot. Mr. Lesher complains of Mandell's property on Jefferson avenue being only assessed at Fifty dollars ($50.) Your committee on referring to the Assessor's books find Mr. Mandell's property assessed at Eleven Thousand and Forty-five dollars ($1,145) or One Hundred and Fourteen dollars ($114) per ft. On other property your committee were referred to by Mr. Lesher, we find the same discrepancy in his statements, and in view of the above your committee report adverse to granting the prayer of the petitioner.

JAMES FLOWER,
C. M. GARRISON,
D. PRESTON.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the communication of the Controller of the 2d inst., relative to the condition of the pavement on Grand River avenue, at the intersection of Ninth avenue, and the cause of the same, having examined said location, and taken testimony in the matter, respectfully report that said pavement is badly damaged. It is their opinion that it was injured on account of obstructions made by the contractors of the Ninth avenue sewer in the ditches and drains which the previous year carried the water from said pavement during the winter and spring months. Your committee think that the Sewer Commissioners or the other proper authorities of the city should compel said contractors to pay for the repair of said pavement, the same to be done as soon as possible.

Respectfully submitted,

GEO. W HOUGH.
SMITH R. WOOLLEY,
JAMES DALY.

Resolved, That the City Counselor be, and he is hereby instructed to inquire into and report to the Council, as to the legal liability of the sewer contractor in regard to the condition of the pavement on Grand River avenue, at its intersection with Ninth avenue.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—In accordance with your instructions I herewith submit an ordinance dividing the Ninth Ward into two wards; also an ordinance relative to the Deputy Clerk of the Superior Court of Detroit.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted, and the ordinances were read twice by their titles as follows:

"An ordinance dividing the Ninth Ward of the city of Detroit into two wards, to be known and designated as the Ninth and Twelfth Wards." Also, "An ordinance relative to the Deputy Clerk of the Superior Court of Detroit."

Yeas Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Welch, Woolley, and the President—18.

Nays—None.

FROM THE SAME

To the Honorable the Common Council:

Gentlemen—I respectfully solicit your indulgence for a brief explanation In the consideration of the resolution at your last session, for the widening of Woodward avenue it was intimated that the City Attorney had not done all that had been required of him, or that he ought to have done, and had therefore shown a lack of courtesy to your honorable body. I have no doubt the intimation was made under a misapprehension and with no intention to do any one an injury. The only thing required of me in the matter of widening Woodward avenue was the necessary resolution, which was promptly reported.

It will be seen upon examination of the recent act of the Legislature, relative to street and alley openings, that the power of the Council to establish a special assessment district is discretionary. The City Attorney cannot know what an assessment district shall consist of until the Council shall have established it, and the Council can certainly not establish it until they have determined the question whether a street shall be opened or not.

In view of the fact that the Street Opening Fund this year is so small, I take the liberty of suggesting that in nearly every case of opening streets this season it will be necessary to establish assessment districts, and for the Council to direct that the entire expense be paid by the property benefited.

As it is my duty, it will be my pleasure, to comply cheerfully and fully with all requirements of your honorable body.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted and placed on file.

The usual notice required by law has been given to the parties in interest, as will appear by the annexed notice and affidavit of publication. FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The legal statutes do not define clearly the powers and duties possessed by your honorable body and this board respectively, relative to the subject of "fire limits" and "prevention of fires." While this commission disclaims any intention of encroaching upon or interfering in any way with the duties of the honorable Common Council, or other branches of the municipal government, yet being invested with not only control of the means for extinguishing fires, the act creating this board confers powers for the prevention of the same, which entails a certain responsibility, and with a view of determining where this responsiblity properly belongs, to enable a satisfactory and determinate answer to the numerous applicants who look to this board as the proper authority, the following points are respectfully submitted for your consideration, looking to a settlement of these questions, and relieving your honorable body from an onerous duty if it shall be so decided.

It would seem the intention of the law to make it incumbent on this board to exercise the duties now fulfilled by the honorable Common Council by placing the Fire Marshal under the direct orders of the Fire Commissioners.

That our city may be removed from the possibility of a disastrous fire, it is the opinion of this board that no departure from the letter of the law governing the fire limits should be permitted except in extreme cases; that no wooden structure can be erected in the fire limits without increasing the fire risk. That the permissions granted by your honorable body have in many instances increased said risk, and the authority so received, has been often exceeded. The citizens look to the Fire Board not for protection but for prevention which under the present system entails responsibility without representation, and renders the Fire Marshal unable to efficiently perform the duties of his office.

In view of these facts that consideration of this subject on the part of your honorable body is asked that its extreeme importance and gravity deserve.

By direction of the board,
Very respectfully,
FRED H. SEYMOUR,
Secretary.

Accepted and placed on file.

($17 02) of the personal tax of 1872, collected by him in said ward, which sum Dwyer positively refuses to pay over and account for; and I have been unable to effect a settlement with him of his account with the city.

REPORTS OF COMMITTEES.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the petition of the Detroit City Railway Company, asking permission to construct a double track on that portion of Jefferson avenue which has been ordered repaved, have had the matter under consideration and are of opinion that on a wide thoroughfare like Jefferson avenue a continuous line of double track for street railway purposes will less obstruct the general traffic and will better serve public convenience than the single track with the many very objectionable switches and turnouts. Your committee are also of opinion that it is the duty of the Detroit City Railway Company, in connection with the repaving of Jefferson avenue, to rebuild their tracks so as to conform with the newly established grade and to repave that portion of the street inside and between the tracks at their own expense, (the city supplying the material) as provided in section 4 of Detroit City Railway ordinance, and in consideration of the above your committee would recommend the adoption of the following:

Resolved, That consent and permission be, and is hereby granted to the Detroit City Railway Company to construct a double track on the line of Jefferson avenue, the same to be done in accordance with section 3, chapter 93 of the Revised Ordinances of 1858, excepting that the space between said double track shall be in the center of said avenue, and on condition that the said railway company, or their authorized agent, shall file with the City Controller a written agreement to the effect that they will at their own expense (the city supplying the material) repave that portion of Jefferson avenue inside and between the tracks simultaneously with the repaving of said avenue.

Very respectfully,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Ald. Parsons moved to lay the matter upon the table for one week.

The motion prevailed.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The undersigned Committee on Streets, to whom was referred the petition of property owners on Fifth street for the paving of said street from Woodbridge street to Michigan avenue, have had the matter under consideration, and recommend that the prayer of the petitioners be granted, and submit the annexed resolutions.

Very respectfully,
C. M. WELCH,
G. GRELLING.

Resolved, That Fifth street be, and the same is hereby ordered to be graded and paved from the north curb line of Woodbridge street to the south curb line of Michigan avenue, and that said street within said limits be paved with wood or stone 25 feet in width, according to specifications adopted by the Common Council.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Fifth street, from the north curb line of Woodbridge street to the south curb line of Michigan avenue, the lots and parcels of real estate situated on said Fifth street, embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be, and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Surveyor be, and he is hereby ordered and directed to estimate and determine, and report such determination to the City Controller, showing:

1. The quantity of all grading, paving and other work on said street within the limits ordered to be graded and paved, excepting those portions of the intersection of cross-streets and alleys.

2. The quantity of all grading and paving of each portion of said Fifth street included and embraced within the lines of intersection of the cross-streets and alleys with said Fifth street.

3. The quantity of all crosswalks at each intersection of said Fifth street with the cross-streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the city charter, approved April 17, 1871, permitting the issue of bonds to an amount not exceeding three quarters the cost of paving said street as estimated and assessed.

Resolved, That whenever the Controller shall receive the report of the City Surveyor showing the quantity of the grading, paving and crosswalks, and other work required on said Fifth street, he shall, and is hereby ordered and directed to advertise for 10 days for proposals for grading, paving and for crosswalks on said street, in accordance with the provisions of the charter and ordinances of the city of Detroit.

Adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Welch, Woolley, and the President—18.

Nays—None.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Public Buildings to whom was referred the communication of the City Controller in reference to providing rooms for the new Superior Court, have examined the same and would recommend the Common Council chamber as the most suitable place in the City Hall, as the room now held by the City Counselor would make the Judge's room, and the Street Commissioners' room would make the jury-room. The Street Commissioners could occupy the vacant room in the basement adjoining the Engineer's room. By making this change it would not be a large cost to the city.

Respectfully submitted,
JAMES FLOWER.
SMITH R. WOOLLEY.

Accepted.

Ald Flower moved the adoption of the report.

Lost.

Ald. Woolley moved to reconsider the vote by which the report of the Committee on Public Buildings was lost.

Lost as follows:

Yeas—Ald. Botsford, Hinchman, Woolley, and the President—4

Nays—Ald. Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, and Welch—14.

FROM THE SAME.

To the Honorable the Common Council:

RESOLUTIONS.

FIRST WARD.

By Ald. Woolley:

Resolved, That the City Counselor be, and he is hereby instructed to furnish to this Council at its next session his written answer to the following questions:

1. Can the city accept as responsible a bid for parent paving where the party offering the bid can show no title to or license to lay the same?

2. If they can and do except such bidding as responsible, and enter into contract with parties who have no title to or license to lay the same, what are the liabilities of the city for damages or royalty, and what are the inconveniences which the public may sustain in consequence of such action?

3. Can the city legally enter into contract for a patent pavement where the specification invites proposals and bids for said paving are coupled with that of excavation, curbing and cross-walks (items of work not covered by patent right,) and where the privilege of bidding is denied to all responsible bidders other than the owner or licensee of the patent, and where in such a case it could not be let to the lowest bidder as required by section 12 of chapter 8 of the city charter.

4. In case the third question is answered in the negative, and the Council should enter into contract upon such exclusive bidding, what would be the consequence to the city at large, where it had issued its bonds in payment of such work, if parties feeling themselves aggrieved should resort to the courts for redress?

5. What is the most legal, simple and desirable procedure to secure to taxpayers the broadest and most complete protection in the letting of contracts for work of this character?

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

Gentlemen—At your last session you adopted resolutions for the opening of Brewster, Ohio and Orleans streets. Owing to the lack of money in the Street Opening Fund, it will be necessary to establish assessment districts in these cases, and to direct that the entire damages and costs be paid by the property benefited in each district.

I cannot give notice or further proceed with these cases until the action suggested is taken.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted and placed on file.

FROM THE CITY SURVEYOR.

To the Honorable the Common Council:

Gentlemen—I herewith transmit to your honorable body assessment roll No. 1602, for the construction of a brick lateral sewer in alleys bounded by Cass, Woodward, Warren and Hancock avenues. Cost, $1,671 98. Daniel Sullivan, contractor.

Very respectfully,
EUGENE ROBINSON,
City Surveyor.

Accepted, and the assessment roll confirmed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Preston, Ruehle, Shanahan, Stange, Welch, and the President *pro tem.*—19.

FROM THE STREET COMMISSIONER, E. D.

To the Honorable the Common Council:

Gentlemen—In compliance with a resolution adopted by your honorable body on the 20th inst., requesting me to report why sidewalks are not constructed on the right hand side of Fremont street, I have the honor to state that I saw Mr. Hilsendegen, the contractor for the Eastern District, and he informed me that Fremont street has been impassable until within a few days, and that he will now build the walk at once. The plank for the sidewalk that has been laid on this street this spring was brought there when the ground was frozen up.

Very respectfully,
W. BONNINGHAUSEN,
Street Commissioner Eastern District.

Accepted and placed on file.

FROM THE STREET COMMISSIONER, W. D.

To the Honorable the Common Council:

Gentlemen—In compliance with a resolution adopted by your honorable body on the 20th inst., calling for a report from me in reference to sidewalks, I have the honor to state that I saw Mr. Quinkert, the contractor for the Western District, and he informed me that he was laying the walks just as fast as possible, and was busily engaged with several men continually; that a great many of the walks require to be filled up before the planks can be put down, and that it is almost impossible to get the dirt hauled. He could, however, place the scantling on blocks if acceptable, and lay the sidewalks a great deal faster. If the work does not progress favorably I will again report at an early day.

Very respectfully,
HENRY KNOWLES,
Street Commissioner Western District.

Accepted and placed on file.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 21st inst., and they were approved on the 23d inst.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—We, the undersigned, your Committee on Ways and Means, to whom was referred the weekly report of the various city officers for the week ending May 17, 1873, have carefully examined the same, and believing them to be correct, recommend their approval.

DAVID PRESTON,
C. M. GARRISON,
GUY F. HINCHMAN.

JUDICIARY AND COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition of the First German Evangelical Protestant St. John's Church, asking that a deed be executed of lot 55, section 7, Governor and Judges' plan, to carry out the report and resolution of the Land Board of June 13, 1865, have examined the matter and recommend that the prayer of the petition be granted and a deed be executed, and for this purpose we present a resolution herewith.

Respectfully submitted.
GUY F. HINCHMAN.
F. RUEHLE,
Committee.
D. C. HOLBROOK,
City Counselor.

Resolved, That the City Counselor prepare the form of a deed reciting the circumstances for its execution, and that a meeting of the Land Board be held on Tuesday evening next to execute such deed in accordance with the report of June 13, 1865, and that the Clerk notify their honors, the Mayor and Recorder, thereof.

The report was accepted and the resolution adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Committee on Judiciary and City Counselor respectfully report on the petition of T. C. Owen and others, relative to raising the grade on Fort street west, between Seventh and Eighth streets, by the City Surveyor when paving Fort street, that the undersigned have examined the premises and find that the lots are naturally drained from the front to the rear; that the slight increase of grade did not change the drainage; that the right of the city to change the grade of a street without liability, when necessary, is undoubted. The undersigned are therefore of opinion that the permission to repair ought to be satisfactory, and that so much of the prayer of the petition as asks a contribution to pay expenses should not be granted.

Respectfully submitted,
GUY F. HINCHMAN,
F. RUEHLE.
Committee.
D. C. HOLBROOK,
City Counselor.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the City Controller's list of approved accounts, have examined the same and find them correct and would recommend that they be paid.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

Gentlemen—A majority of your Committee on Public Buildings, to whom was referred the communication of Messrs. Seitz, concerning the renting to the city the rooms in their building on Congress street, recently occupied by the Supreme Court of this State, to be used by the Superior Court of the city of Detroit, would respectfully report that they received from said gentlemen this day the accompanying additional communication, which includes the rent of rooms, heating, lighting, furnishing and janitor to take care of same, the total annual expense to the city for same to be $1,800.

Your committee were of the opinion that the Common Council chamber could be used by said court, and reported in favor of having it so occupied. Your honorable body, by a very large majority, decided that it would be unwise to have this chamber put to such use, therefore it is necessary to procure a location other than one owned by the city.

The amount and conditions desired by these gentlemen for the late Supreme Court-room your committee believe to be very reasonable, and in consideration of the facts that the new court must commence business on the 3d of June, and that your committee cannot learn of any other suitable rooms in the city, they would respectfully report in favor of leasing b, the city the described rooms, and the adoption of the following resolutions.

SMITH R. WOOLLEY,
CHARLES STANGE.

[COPY.]

DETROIT, May 22, 1873.

To Messrs. James Flowers, Smith R. Woolley, and Charles Stange, Building Committee.

Gentlemen—We desire to make you an additional proposal in regard to renting the city quarters for the Superior Court, as follows: We will lease the rooms mentioned to the Honorable the Common Council, furnish all the necessary carpets and chairs, rugging and seats, railing and window shades, judges' platform, witness stand and tables, and supply the ice for the court, judges' and jury rooms, heat them all, pay for the gas consumed, furnish a janitor to keep the rooms in a neat and clean condition, all of the above to be performed by us to the entire satisfaction of the judge and officers of the Superior Court, for the term of six years, and give the city the privilege to renew, and also provide that the city may cancel the lease, should the Superior Court be at any time abolished, and also that after three years from Jun: 1 next the lease may be canceled by giving six months' notice provided that the city shall within that time have itself built a court-room that is to be occupied by that court.

All of which we will agree to do and perform, and shall be embodied in the lease, for an annual rent of eighteen hundred ($1,800) dollars, payable quarterly from June 1 next. In case of failure or nonfulfillment of any of the agreements, the officers of the court may have the work done, and the sum it may cost withheld from rent due or becoming due.

FRED. L. SEITZ,
J. H. SEITZ.

Leave being granted, the committee offered the following:

Resolved, That the City Controller be, and he is hereby directed to execute a lease with Messrs. F. L. & J. H. Accepted and referred to the City Counselor and the Controller by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Preston, Ruehle, Shanahan, Stange, and Welch—17.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT, MAYOR'S OFFICE, May 24, 1873.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 23d inst. ordering the execution of a lease to certain parties of the market site, on Michigan Grand avenue, for a term of 30 years, for the following reasons:

1. The committee report to the Council what is no doubt true, that the regulation of the market has been a continual annoyance, and no way having been found to remedy the evil, I beg to recommend that instead of making so radical and hazardous a change that your honorable body do away with the Committee on Markets and put the sole control of the market and market grounds in the hands of the City Controller, the Mayor, or Board of Public Works, or Public Improvements.

2. The late effort of the Council to raise the money for a market building having failed before the Board of Estimates, there are the best of reasons to suspect that this joint stock scheme was shadowed forth at the meeting of the said Board of Estimates, which possibly was the chief cause of their refusal to make the market appropriation.

3. The Council may have the power to lease city property without advertising for bids, but the precedent thus set may lead to serious abuses and should not be made.

4. Ten thousand dollars per annum may look like a large sum, and doubtless would be to a private individual who might happen to have the privilege of making such a lease, but to the working man, the bone and sinew of this city's wealth and prosperity, the advantages of a market are of such a permanent importance as to outweigh any considerations of income whatever. The danger also of creating such a monopoly in our midst is too great to be treated lightly, and the professed philanthropy of the proposed company is more to be dreaded than the (so called) influence of the market politicians.

I therefore beg to recommend to your honorable body that the city be allowed to build her own markets, according to the wishes of the people, leaving our citizens undisturbed in the possession of their long cherished and vested rights.

Respectfully submitted,

H. MOFFAT,
Mayor.

The communication was accepted, and on motion of Ald. Woolley the vote by which the resolution was adopted was reconsidered by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—20.

Nays—None.

The question then being on the adoption of the resolution, notwithstanding the veto of the Mayor, the same did not prevail, two-thirds of all the aldermen not voting therefor, as follows:

Yeas—Ald. Broeg, Christian, Garrison, Grelling, Hinchman, Lichtenberg, O'Keefe, Preston, Welch, Woolley, and the President—11.

Nays—Ald. Botsford, Daly, Dullea, Flower, Hough, Parsons, Ruehle, Shanahan, and Stange—9.

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—20.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

Gentlemen—In compliance with your instructions I submit the accompanying ordinance, authorizing the Detroit and Grand Trunk Junction Street Railway Company to construct and operate its railroad.

Very respectfully,

F. G. RUSSELL,
City Attorney.

Accepted, and the ordinance read twice by its title, as follows: "An ordinance authorizing the 'Detroit and Grand Trunk Junction Street Railway' to construct and operate its Railroad."

Laid on the table and ordered printed, by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—20.

Nays—None.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The resolution offered at the last meeting of the Council to rescind the resolution directing the Sewer Commissioners to contract with Daniel Shanahan for No. 3 sewer, having been referred to the undersigned, I respectfully report thereon: That the Sewer Commissioners advertised for proposals to construct that sewer, and they did, as was their duty by ordinance (Revised Ordinances, Sec. 6, Chap. 18) require each proposal to be accompanied with a statement in writing, signed by at least two persons who should agree to become sureties in an amount at least double the estimated cost of the work, for the performance of the same. In this case Mr. Shanahan made the lowest bid by $1,500, but by mistake there was no agreement to become such sureties; the paper intended for such was a mere printed form with blanks not filled up, and it was no better for the purpose than a piece of blank paper: the Commissioners were therefore justified in rejecting, as they did, the bid of Mr. Shanahan; they then reported the bids, stating this defect in Mr. Shanahan's bid, and the Controller reported the facts to the Council, who passed a resolution that the Sewer Commissioners contract with Mr. Shanahan providing his bid should be made to comply with the ordinance. Under the ordinances and decisions of the courts this bid of Mr. Shanahan's would not be accepted as it was not a legal bid.

As there was a difference of $1,500 between the bid of Mr. Shanahan and the next lowest, which ought to be saved by the city, I recommend that all the bids be rejected and the proposals be readvertised.

Very respectfully,

D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

REPORTS OF COMMITTEES.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Charles H. Borgman, for permission to erect a small summer kitchen in rear of his house on Lafayette street, near Brush, respectfully report that the proposed kitchen will be separated from other buildings, and will be covered with a gravel roof, and your committee believe will not increase the fire risk. We therefore recommend that the prayer of the petitioner be granted

Your committee have also examined the matter contained in the petition of Mrs. Francis C. Wright, for permission to raise the roof of her house, to move the same to the line of her lot, and to make other alterations, and respectfully report in favor of permitting her to remove the same as desired, and also to raise the same, not to exceed one foot from the ground; but your committee believe the roof cannot be raised without increasing the risk of adjoining buildings, and therefore report against granting this portion of the petition.

Your committee have also examined the matter referred to in the petition of Edmund Smith, and respectfully report that some three years ago Mr. Smith asked and obtained permission to erect a shed in his woodyard on Woodbridge street, near Bates, for the purpose of protecting the sawed wood from the weather. Recently Mr. Smith has divided off a small portion of this shed, and constructed two or three stalls for his horses, which he believed he had a right to do. Your committee do not believe that the fire risk is increased thereby, and would recommend that the same be allowed to remain.

Respectfully submitted,

M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

STREET OPENINGS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of T. B. Bigley and others, remonstrating against the opening of Twenty-first street from the River road to the channel bank of the Detroit River, have had the matter under consideration and find that the objection of the petitioners to the opening of said

street is based upon the fact, as they represent, that there is at the present time a good plank roadway, the private property of Messrs. Belknap and Drake and Bigley Bros., which affords convenient access to the river, and that public necessity does not require the opening of said street at present

Your committee also find that the view of the petitioners does not accord with the reports heretofore submitted by the Committee on Street Openings in this matter and adopted by the Council, wherein it is thoroughly demonstrated that the opening of said street would be of material advantage to that portion of the city, and any further delay in the matter can only result in rendering more difficult the consummation of this much needed improvement.

Your committee therefore report adverse to granting the prayer of the petitioners, and favor the adoption of the resolution submitted by the City Attorney for the opening of the street aforesaid.

Respectfully submitted,
C. M. WELCH,
M. P. CHRISTIAN,
D. DULLEA.

Accepted and adopted.

SUSPENSION OF THE RULES.

On motion of Ald. Welch the rules were suspended for the purpose of taking up the resolution presented by the City Attorney on the 16th inst., relative to the opening of Twenty-first street, from the south line of Fort street to the channel bank of the Detroit River.

Ald. Parsons moved that the matter be again laid upon the table.

The motion prevailed.

The Council then resumed the regular order of

REPORTS OF COMMITTEES.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the petition of Mrs. Elizabeth Werback, asking relief on the account of damage to her house and lot, situated on the corner of Lafayette avenue and Twelfth street, caused by the raising of the grade and the filling in of said street, which has torn down her fence and half buried her house and otherwise injured her property, report that they having examined the same and find that the petitioner is a widow 60 years of age, and that the rent of said house is her main income; your committee are of the opinion that such relief should be granted to the petitioner as will make her property equal in value to that it was before the aforesaid damage caused by the change in grade of said street. They recommend the adoption of the accompanying resolution.

Respectfully submitted,
GEO. W. HOUGH.
M. P. CHRISTIAN,
JAMES DALY.
Committee.

Resolved, That the City Controller be, and he is hereby directed to draw his warrant for the sum of $250 in favor of Mrs. Elizabeth Werback, the same being in full satisfaction for her claim for damages caused by the city to her property situated on the corner of Lafayette avenue and Twelfth street.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Shanahan, Stange, and the President *pro tem.*—18.

Nays—None.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The undersigned, one of the committee to whom was referred the resolution of the Committee on Public Buildings in regard to the lease of rooms for the use of the Superior Court, submits the following report:

It is very conclusive to me that your honorable body are unwilling to give the Council Chamber to its use, and Judge Swift is positive in his opinion against the possibility of both courts occupying the Recorder's Court-room.

Believing that the offer of the Messrs. Seitz is very low, and much better than the city could do in any other location, I would recommend that their offer be accepted, and that the Controller be instructed to lease the rooms mentioned, in accordance with the terms of their proposition.

Respectfully, etc.,
E. I. GARFIELD,
Controller, one of the committee.

Accepted and adopted.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT, MAYOR'S OFFICE,
May 30, 1873

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 28th inst., directing the City Controller to lease a room for the use of a new court about to be established in this city.

For the reason that the City Hall was built on purpose for judicial business and has ample accommodation for this court were it properly applied.

The Recorder's Court is not in session over half of the time, and this new court could without detriment occupy the remainder of the time in the same room; and if that were not agreeable or even practicable the present Recorder's Court room could be cut in two and some twenty or more feet taken from rooms adjoining and added to each half, which would make two comfortable court rooms, only interfering with such space as is now occupied by the City Gas Inspector, County Drain Commissioner, and an overgrown room used as an office for the Clerk of the Recorder's Court (which, indeed, would make a very respectable room for a court itself). The City Hall contains rooms in the fourth story which can be made available for offices, and the Bar Library could occupy space there to great advantage, which the city could well afford to the latter without cost.

And the whole building being already heated, the business of the courts could thus be concentrated, the City Hall adapted to its legitimate use, and the new Superior Court treated as an equal in point of location, as I have no doubt of its being an equal in its practical results.

A saving to the taxpayers of $1,800 per annum being made at the same time, I recommend this matter to your further serious consideration.

Very respectfully, etc.,

H. MOFFAT,
Mayor.

Accepted, and the vote by which the resolution was adopted was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Rueble, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None.

The question then being, "shall the resolution now pass, notwithstanding the objections of the Mayor," the same prevailed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Dullea, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Stange, Welch, Woolley, and the President—15.

Nays—Ald. Daly, Flower, Rueble, and Shanahan—4.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned, City Counselor, to whom was referred the communication of the Board of Fire Commissioners, respectfully reports that upon a careful examination of the charter he cannot recommend the placing of the prevention of fires, repairing of buildings, the erection of sheds, etc., etc., under the entire charge of that board, as he entertains doubts as to the authority so to do by the charter, but would advise that all such matters be referred to that board, and adopt their action and decision.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The undersigned, City Counselor, having, at a late session of the Council, been instructed by a resolution introduced by Ald Woolley to answer in writing a series of questions relating to paving and paving contracts, states that in complying with the request he does so without the assistance of direct decisions upon the many subjects inquired of, but he submits what seems to him must be the law, and will be followed by the adjudication of the courts.

In order that the matter may be fairly understood it will be necessary to consider separately each of the questions.

First Question—Can the city accept as responsible a bid for patent paving where the party offering the bid can show no title to or license to lay the same

This question was discussed by counsel in the

late case, not reported, of the Attorney General ex rel. th Detroit Ironizing and Paving Company against the Mayor of Detroit et al.

In that case the Ironizing and Paving Company made a bid to lay what is called the patented Ballard lock block pavement. The right to lay this pavement within the city was exclusively owned by Hilsendegen & Dunn, defendants, to whom the bid was awarded although not the lowest bidder. The bill was filed to enjoin the performance of the contract after it was well under way, and quite a large sum of money had been expended; the bill for this reason mainly was dismissed. It was not decided that the bid of the relators could not be accepted, yet it is apparent that such a bid could not be received on proposals for any kind of materials owned exclusively by one, from whom the bidder would (without the consent of such owner) be compelled to obtain the same by theft; and the city, well knowing this, be the receiver of stolen property.

This same rule applies in effect to a patented pavement as fully as to lumber, stone or any other article exclusively owned by another.

Second Question—If they can and do accept such bidding as responsible, and enter into contract with parties who have no title to or license to lay the same, what are the liabilities of the city for damages or royalty, and what are the inconveniences which the public may sustain in consequence of such action?

The entering into such contracts, and the performance secured by bond, gives neither the contractor nor the city any right to lay any patented pavement without consent of the owner of the right. The owner of the right could at any stage of the work, upon a proper case in the United States Court, enjoin the contractors from further progress of the work, and thereby greatly injure the street and the public; or such owner might, after the work is completed, bring his action against the contractor and the city, and recover damages which might be trebled, and the city would be remediless for an indemnity.

In fact it would be ruinous for the city to accept of any contract to lay a patented pavement without right, and such an attempt must not be entertained.

Third Question—Can the city legally enter into a contract for a patent pavement where the specification invites proposals and bids for said paving are coupled with that of excavation, curbing and crosswalks (items of work not covered by patent right,) and where the privilege of bidding is denied to all responsible bidders other than the owner or licensee of the patent, and where in such a case it could not be let to the lowest bidders, as required by section 12 of chapter 8 of the city charter.

This question of coupling in one bid and contract a patented pavement, or article with other materials, work and labor which anyone can furnish, (and not let separately) has been decided by the Court of Appeals of New York, in re Eagan 46, N. Y. 100, as illegal, for the reason that competition is wholly prevented on the whole work. The owner being the only person who can supply the patented article cannot only put his own price on it, but also on such other work or material as may be required to be used with it. A proposal for bids to lay a patented pavement is a mere farce and in itself absurd, when only one person has the right to construct it. And when you couple with such proposals in an aggregate bid, grading, sand, curbstone and crosswalks, which any one may furnish, and compel the city and taxpayers to take the whole at any price to get the patented article, it is simply extortion, and ought not to be allowed, and no taxpayer should submit to it.

Fourth Question—In case the third question is answered in the negative, and the Council should enter into contract with such exclusive bidding, what would be the consequence to the city at large, where it had issued its bonds in payment of such work, if parties feeling themselves aggrieved should resort to the courts for redress?

Should any such contract be entered into, I have no doubt the assessment would be illegal, and could not be collected, and if bonds were issued to pay for the work, the whole amount of such part as should be resisted would be lost by the city or the bondholders who might have purchased the same on the faith and credit of the city.

The issuing of bonds under the amendment to the charter is held out in effect as a pretended assumption by the city of three-fourths of the cost and expense of the paving, upon the anticipation of collections to pay the bonds, and from which only they are to be paid.

Should the collections fail, the bonds would have to be paid out of some other fund, for which there is no provision, or the city would have to repudiate "street paving bonds," which would indeed place the credit of this city in a most deplorable condition and it is better to keep clear of all such danger than to be engaged in any transaction which may by any possibility lead to it.

This uncertainty and all this difficulty arises from dealing with patented pavement in the manner heretofore pursued, and I think there is no safety in or necessity for following this course any longer.

Fifth Question—What is the most legal, simple and desirable procedure to secure to taxpayers the broadest and most complete protection in the letting of contracts for work of this character?

This question calls for my opinion as to the process or policy which should be adopted by the city in letting contracts for paving, while my duty and office, as I conceive, is to advise the city authorities upon questions of law merely, I am asked in effect to lay out a scheme which, in my opinion, should be adopted for future paving. I believe so far as paving with any material not patented, which any one can lay and is open to competition of all, there can be no objection to the present system; in such case, as there is no discretion, the contract, as is required by the charter, must be let to the lowest bidder.

As to patented pavements there is more difficulty and there always will be difficulty so long as the right to lay such pavement is exclusive in any one. A familiarity with the pavement proceedings in this city in the year 1871 should be sufficient, in my opinion, to satisfy any one that the sooner we get rid of an opportunity for a repetitions of the wrongs inflicted upon the public during that year the better.

It took the Council that year a long time to settle upon the manner of proceeding, and when at last a scheme was adopted, it was, and time has proved that either a certain class of Aldermen owned the "patented" pavers, or the pavers owned the majority of the Aldermen. At all events the public were sold, to their great sorrow in most instances, and the proof of this is in the fact that several kinds of patented pavement were laid of about equal amounts; sometimes one for a certain street at a certain cost was rejected, when again it was for another street (to equalize) adopted at a much higher cost without any reason apparent to outsiders.

Where proposals for wood pavement were advertised, and the Council accepted from the bids for several patented pavements one of them, it was presumed to, and the charter absolutely required it should, be the lowest bid and the best for the money; yet we find it was the practice to disregard at another time the fact that the particular pavement once selected and declared by the Council to be the one required by the charter to be accepted was found not to be the one at all, but another was accepted at an understood increased price over prior bids for the same paving.

Where the Council had once determined to accept a bid for a patented pavement, the other work being the same, it declared in effect that that was the best pavement for the money, yet this was no precedent, and a bid for another pavement was accepted, as it seemed by a well understood and methodical arrangement, thereby the law of the charter was set aside, and nothing could be relied upon; the declared wishes of the people who were to foot the bills were set at naught and compelled to yield to the cliques of that Council.

These rings or cliques are formed by "patent" pavers, and they always will form them if possible. As the matter now stands, in my opinion, the exclusive right to lay a patented pavement should be

at once discontinued, and no dealings whatever had with exclusive rights.

In conclusion I will now answer the question:

1. Every owner of a patent should be required to file with the Controller a proper consent authorizing the city to contract with any one to lay such pavement for a certain royalty or price per square yard, to be paid by the contractor, the amount to be retained out of the contract price by the city, as any work is accepted and to be paid directly to the person owning the patented right.

2. To permit the majority of property owners on a street to designate the particular pavement, or one of a number of pavements, they require laid, and to comply strictly with their wishes.

3. To then advertise for, and with bids open to all, and by any one, to lay the particular pavement required, or separate bids for any number, one to be accepted, of patented pavements for the same street.

The above are my conclusions, (founded upon the difficulties now existing) and if considered worthy and adopted, will I believe relieve the Council of groundless suspicions, and any amount of thankless labor, and meet the wishes and actual necessities of the people.

Very respectfully submitted,
D. C. HOLBROOK,
City Counselor.

Accepted and ordered printed, and laid upon the table until the next session.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the petition of T. A. McGraw, Esq., for permission to be allowed to finish rebuilding the frame house on the corner of Fort and Cass streets, have examined the same and find Mr. McGraw has the timber up on the west side of said building for a large addition, some forty (40) feet in length, and has raised the roof on the old building some ten (10) or twelve (12) feet as near as your committee could judge, and in the rear of said building, facing on Cass street, was another new wooden addition in course of construction apparently for a one (1) story house. It so appeared to us; and your committee are of the opinion that by allowing Mr McGraw to finish the said building it would greatly increase the fire risk to the adjoining property, beside being a clear violation of the ordinance In view of the above your committee has to report adverse to the prayer of the petitioner.

Very respectfully,
JAMES FLOWER,
F. RUEHLE.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your committee to whom was referred the request of Mrs Banks and others, for exemption from building new sidewalks on Miami avenue, would respectfully report that they have examined the ground and believe new walks should be built, and therefore report against the request.

Respectfully, etc.,
P PARSONS,
M. P. CHRISTIAN.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee to whom were referred the communication and resolutions passed at the citizens' meeting held at Young Men's Hall, April 21 last, and presented to the Council by their highly respected committee, through Mr. Duncan Stewart, chairman, in relation to certain legislation by the State authorizing the purchase of grounds for a park and the issue of bonds for the payment of the same; also in relation to similar legislation granting authority to the city to issue $1,000,000 in bonds, with an annual tax of $75,000 for the Water Board, would respectfully report that they have carefully considered the whole subject, and cannot recommend any action at this time. When the bonds are asked for in both cases the matter will come properly before the Council until then your committee see no wisdom in opening the matter for discussion.

Respectfully submitted.
P. PARSONS.
DAVID PRESTON,
G. F. HINCHMAN,
A. BOTSFORD.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the remonstrance of Belknap & Drake against the opening of Twenty-first street from Fort street to the channel bank of the river, would respectfully report that they favor and recommend the opening of this street from Fort to Woodbridge street, and believe such opening demanded for the convenience of the public, at the earliest practicable moment. But your committee, from a careful review of the whole ground on the spot, see no possible demand, at the present time or for many years to come, for the opening of Twenty-first street from Woodbridge street to the channel bank of the river.

From the fact that streets above and below Twenty-first street near to it already thrown open to the channel bank of the river for the use of the public, if needed, are yet entirely unimproved, it may be fairly inferred that additional street openings in that direction are not necessary, and your committee believe, from the best information they can procure from leading citizens contiguous to this street that the city will not be benefited, and that public necessities do not demand such opening; but that an unremitting bill of expense for repairs will be annually incurred from throwing open the street to the river, beside greatly damaging Messrs. Belknap & Drake and materially impeding the convenience of their business. Messrs Bigley & Company, since learning all the facts in the case, also strongly oppose the opening of this street. Your committee believe that no amount of money can be assessed on any property benefitted that would adequately compensate Messrs. Belknap & Drake and Messrs. Bigley & Company for the damages that would be incurred by them, reaching in amount not less than $5,000. Your committee find the Sewer Commissioners have all the facilities needed by the city for their use, and the opening of the street would in no way improve their present position or alter it. Respectfully submitted,

P. PARSONS,
ALBERT BOTSFORD.

Ald. Parsons moved the adoption of the report

Ald. Welch moved to amend by laying the same upon the table. Carried as follows:

Yeas—Ald. Christian, Daly, Dullea, Flower, Grelling, Lichtenberg, Shanahan, Stange, Welch, and the President—10.

Nays—Ald. Botsford, Broeg, Garrison, Hinchman, O'Keefe, Parsons, Ruehle, and Woolley—8.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The Aldermen of the Fifth Ward, to whom was referred the petition of I. M Smit, to erect an ornamental hitching post in front of his store, respectfully report that he has erected an unsightly sign which he calls a hitching post, and which in our judgment is a clear violation of the ordinance prohibiting the obstruction of streets or the tearing up of pavements therein We therefore report adversely to the petition and recommend the adoption of the annexed resolution.

DAVID PRESTON,
Aldermen Fifth Ward.

REPORTS OF COMMITTEES.

STREETS AND SURVEYOR.

To the Honorable the Common Council:

Gentlemen—The Committee on Street Opening, together with the City Assessor and City Surveyor, who were directed by resolution to report to this Council the proper boundaries for the assessment districts in the matter of opening Brewster, Ohio and Orleans streets, are not unmindful of the responsibility as well as the difficulty in so adjusting boundaries of property that may or may not be affected by profit or loss. We have therefore carefully examined the matter, and ask leave to report the following:

Digitized by Google

1. That in the opening of Brewster street, across lot No. 7, Dequindre farm so-called, thence to the west line of Dequindre street, the assessment district shall be on both sides of Brewster street, from the east line of Riopelle street to the alley west of St. Aubin avenue.

2. In the opening of Orleans street, across lot No. 7, from the south line to the north line of said lot, Dequindre farm, so-called, the assessment district shall be on the lots on both sides of Orleans street, from the north side of Alfred street to the south line of the city water works lot.

3. In the opening of Ohio street, from the west line of the Rivard farm, so-called, to the west line of Prospect street, the assessment district shall be on both sides of Ohio street, from the west line of Hastings street to the west line of Russell street.

All of which is respectfully submitted,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN,
H. H. LEROY,
Committee.
EUGENE ROBINSON,
City Surveyor.

Accepted and adopted.

Ald. Woolley, President *pro tem.*, was called to the chair.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of A. Bluma, for an extension of time on his paving tax, would respectfully report that they can see no satisfactory reason for granting the request, but many against it. The terms originally allowed were liberal, and any change in this case, if granted, would bring numerous other similar petitions to the Council. Therefore your committee report adverse to the prayer of the petition.

Respectfully submitted,
P. PARSONS,
JAMES DALY.

Accepted and adopted.

PARKS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Parks, to whom was referred the resolution offered by Ald. Lichtenberg, May 19, relative to the purchase of the strip of land adjoining Clinton Park and fronting on Gratiot street, beg leave to report that they are of opinion that such addition is in reality a necessity, and in all probability we will never have another opportunity to purchase this parcel of land on such favorable circumstances. But owing to the fact that we have no surplus in the Park Fund, and having no fund out of which we can pay for it, we are compelled to report to defer the matter for the present.

Respectfully submitted,
WM. LICHTENBERG,
JAMES DALY,
ALBERT BOTSFORD.

Accepted and adopted.

MARKETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Markets would most respectfully submit this communication to your honorable body, partly to vindicate their position, and partly to reply to His Honor the Mayor's veto of May 27th, on leasing the market site to certain parties for a term of 30 years.

He says the committee report to the Council, what is no doubt true with regard to the regulations of the market, then he says, "before making so radical a change, I would recommend to do away with the Committee on Markets and put the sole control of the market and market grounds in the hands of the City Controller and Mayor." It would seem by reading the above that the objectionable report came from the Committee on Markets, whereas, instead, it came from the Committee on Ways and Means, City Counselor and City Controller. In this committee you have wealth, business and legal ability combined, which are said to be the necessary qualifications for honest and good citizens; and on those grounds the majority of your committee supported the report and resolution to lease the old market site as above mentioned.

It is well known that the Controller has charge of the market to a great extent; if there are difficulties on the market the Controller will always be sought for to settle them, which he always does in the most satisfactory manner and to the entire satisfaction of your committee.

However, it is a question for your honorable body to determine, whether you will do away with the Committee on Markets, or not. In either case we would recommend that His Honor the Mayor be added to the committee.

It has been circulated through the press and otherwise that the market is a political machine for the sole purpose of making Aldermen, this, of course, is nothing more than a slander on the friends of the market, and has no foundation whatever. It will be remembered that a gentleman doing business on the market got the nomination for Alderman last fall in a ward where his party had a decided majority, and was defeated. This alone, in our opinion, is satisfactory on the political influence of the butchers and hucksters doing business on the market; but will take it for granted that they do make Aldermen, and if such is the case we do not see any good reason why they cannot make a Mayor and Controller; we are aware they cannot make a Controller by a direct vote, but they can make the right Aldermen that will make a Controller to suit them.

In conclusion your committee would state that there has been a petition referred to them asking for the expulsion of Miss Mary Judge from the market for abusive language, and has not been acted on. We would respectfully recommend to have it referred to the Controller and His Honor the Mayor. We have not ascertained what the political views of those parties are

Respectfully submitted,
ARTHUR O'KEEFE,
MAX BROEG,
DANIEL SHANAHAN.

Accepted and placed on file.

STREETS AND CITY COUNSELOR.

To the Honorable the Common Council:

The undersigned Committee on Streets, to whom was referred the letter of the Detroit Ironizing and Paving Company relating to the paving on High street, respectfully report that a contract was entered into with said company for grading and paving said street with round cedar blocks on sand. The company completed about one third of the work last fall, when it was found this spring that for want of drainage or some other defect the pavement was almost useless and would not answer the purpose intended and the Controller was directed to cause the work to be suspended.

As about one-third of the work was accepted as finished, and the balance nearly all graded, and a large amount of material ready to be used remains on hand, and as assessments have been made for the collection of the whole work, we do not think it policy to abandon the contract and undertake the task of reassessing the property for a different pavement, as this would involve the city in damages for the grading of about two thirds of the street, also for the materials on hand to complete the contract, the whole of which would be lost.

The undersigned therefore recommend that this contract be carried out and performed, and the pavement laid, with the addition of a board foundation, with tar or cement of some kind on the surface. The contractors are willing to take a contract or permit any other who may have it to lay the board foundation as the work progresses, and it will not interfere with the work under the original contract.

It might under other circumstances be best to abandon this contract and lay anew another kind of pavement. This, however, would be a loss to the city of many thousands of dollars, and an assessment on the property-owners could be made for only a part of the expense, and we are of opinion that with a board foundation the pavement will meet the desired expectation.

With the views above set forth the undersigned present herewith a resolution to carry the same into effect.

Respectfully submitted.
C. M. WELCH,
G. GRELLING,
Committee.
D. C. HOLBROOK,
City Counselor.

Resolved, That the City Controller cause a notice of five days to be published for proposals to furnish and lay down a board foundation of common boards on the unfinished part of the pavement to be laid on High street as the work progresses; also, when such pavement shall be laid to cover the same with tar or cement, and that the expense thereof be paid out of the Street Paving Fund.

Accepted, and on motion of Ald. Welch the matter was referred to the senior Alderman of the Seventh and the Aldermen of the Sixth Ward.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the petition of the Detroit Transit Company, for permission to change the pattern of their rail, have examined into the matter and find that there is no pattern of rail made that will answer the requirements of the ordinance, and to subject this company to procure such a rail will be attended with the great expense of having rollers made expressly for the purpose. The "U" rail is the only pattern made that approximates to the one required by the ordinance. This rail is one-half inch higher. Wagons can travel over it; but once on it they cannot get off and the opinion of your committee is that it will prove to be a most dangerous trap

This road runs through streets where the property on both sides is nearly all owned by the grantees and stockholders, and it is but fair to suppose that they will do nothing to injure their own property, and your committee recommend that the prayer of the petitioners be granted, and that the ordinance of the company be so amended they can use a "T" rail.

Respectfully submitted.
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

A. Blades and others on the same subject, and respectfully report in favor of the passage of the ordinance now pending before the Council in relation to the subject above named.

Respectfully submitted,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the petition of A. W. Walker and others, relative to changing the name of Farrar street, have considered the same and would respectfully recommend the adoption of the following:

COMMUNICATIONS FROM THE MAYOR

CITY OF DETROIT, MAYOR'S OFFICE, June 13, 1873

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 10th inst., granting a charter to the Detroit and Grand Trunk Junction Street Railway Company, (so called) to construct and operate a railway from Mount Elliott avenue, through Congress street and Seventh, Baker and Twenty-fourth streets to the city limits, embracing en route part of Randolph and Larned streets and Joseph Campau avenue

For the reason that Larned street being very narrow it is not well adapted to the purpose, and only 200 feet from Jefferson avenue, where you now propose to lay a double track throughout, and have the cars run at intervals of only five minutes. It would seem like creating opposition on the one hand, and destroying wagon travel on the other, and also inconveniencing access to houses on both sides along the line of the said Larned street.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and the vote by which the ordinance was passed was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Stange, Welch, Woolley, and the President.—19

Nays—None.

The question then being "shall the ordinance now pass notwithstanding the veto of the Mayor?" the same prevailed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Stange, Welch, Woolley, and the President—15.

Nays—Ald Flower, Parsons, Ruehle, and Shanahan—4.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 10th inst. granting a charter to the Central Market, Cass Avenue and Third Street Railway, for the reason that the projected route is mostly through narrow streets, tortuous to an extreme, and would seem to be no improvement on the already established Grand River Avenue Railway as far as Third street, or Cass avenue. One line of road, however, through Second or Third street, from the river to the city limits, might obviate the necessity, if any there be, for such a road, because a change off could be made at Grand River avenue for those going to the heart of the city, and the fact is notorious that a railway is wanted from the Central depot northerly to the said city limits.

Very respectfully,
H. MOFFAT.
Mayor.

Accepted, and the vote by which the ordinance was passed was reconsidered by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None.

The question then being on the passage of the ordinance, notwithstanding the objections of the Mayor, the same prevailed by the following vote:

Yeas—Ald Botsford, Broeg, Christian, Dullea, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—16

Nays—Ald. Daly, Flower, and Parsons—3

FROM THE BOARD OF WATER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Water Commissioners, in their last annual report to your honorable body, set forth the necessity of erecting new works above the city, and briefly alluded to the reasons therefor. The Legislature has granted, by special acts, the necessary authority making, as requested by the board, the issue of bonds subject to the sanction of the Common Council. The demand for water is increasing so rapidly that it will be necessary for the board to take immediate measures for an additional supply, and no definite and permanent action can be taken before the question of means is settled. The Board of Water Commissioners, therefore, ask your honorable body to authorize the issue of bonds as provided for by act of the Legislature approved March 8, 1873.

The board, of course, do not intend issuing any bonds until there is a public necessity therefor, and then only in such amounts as will furnish money for immediate expenditure.

C. HURLBUT,
J. OWEN,
SAM'L F. HODGE,
J. S. FARRAND,

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was submitted the list of approved accounts at the last meeting of the Council, would respectfully report that they have examined the same, and, believing them correct, ask their payment by your authority. Your committee cannot forbear bringing to your notice in an imoressive manner the rapid increase of expenses for repairs of streets paved with wood, reaching this week nearly $600, chargeable to the General fund. If these expenses are to increase in the same ratio in the future, your committee would recommend an ordinance making it imperative on persons owning property abutting on streets paved with wood to keep them in repair, as well as to pay for repaving. By such an ordinance the reckless manner of pulling up pavements may be checked and more care exercised.

Respectfully submitted,
P. PARSONS,

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the petition of T. A. McGraw, for permission to finish his house under certain conditions, would respectfully report that by reference to his petition granted December 17, 1872, he asked the privilege of putting up a wooden wing with offices and chambers as an addition to his house, corner of Cass and Fort streets. This, therefore, he has an undoubted right to do in the cheapest manner possible. The act for which he is complained of as having exceeded his right has been in raising the roof two and a half feet between the plates and making it much steeper. His intention was to cover this with shingles. His petition referred to your committee proposes to forego the right granted originally on condition that he is permitted to put up a brick wall on the west side, four inches outside and four inches between the studding. Also to brick in between the studding front and rear. Also to plaster between the studding of the old plate and new of the old house on which rests the roof, and cover the whole with a slate roof, thereby making the fire risk, in the opinion of your committee, much less than before the repairs were commenced on the old house. He also proposes to remove, for the purpose of making himself more secure from fire, two low wooden additions in the rear, and an old wooden barn. The effect of which will be to still farther lessen the fire risk. The petition of T. Pitts, G. V. N. Lothrop and all other neighbors, with one exception, referred to us indicates an entire willingness and desire on their part that Mr. McGraw should have the privileges asked. Your committee, therefore, in view of all the facts, recommend rather than that the property remain in its present dilapidated condition, that the pray of the petition be granted on condition that it is literally carried out as to terms.

Respectfully submitted.
P. PARSONS,
C. M. GARRISON,
C. M. WELCH.

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council

Gentlemen—The Fire Commission, to whom was referred the petition of James H. Cole for permission to raise the roof of a one and-a-half story building, situated on Beaubien street, near Gratiot, have caused the subject to be carefully examined, and find that the prayer of the petitioner cannot be granted without increasing the fire risk, as the aforesaid building is situated in a nest of frame structures with a large barn almost directly in the rear, the proposed gravel roof would hardly compensate for the increased risk caused by the addition of one more large frame building to the already large number in that block.

Would also report adversely to the petition of Mrs. Frances J. Wright for permission to raise the roof and otherwise repair her house, No. 76 Howard street, for the reason that there is already a large frame building west of her house, and the addition of a frame structure of increased size would also greatly increase the fire risk.

A careful examination of the dwelling of John O'Brien and surrounding property has demonstrated the fact that if said O'Brien be allowed to build an addition to the present building, one story high and 15 by 20 feet, the same will entail no enhancement of the fire risk. It is, therefore, respectfully recommended that he be allowed to build accordingly.

By direction of the board.

Very respectfully, etc.,
FRED'K H. SEYMOUR,
Secretary.

Accepted and confirmed.

FROM THE STREET COMMISSIONER E. D.

To the Honorable the Common Council:

Gentlemen—In compliance with a resolution adopted by your honorable body on the 13th inst., calling for a report from me showing why sidewalks and crosswalks are not constructed where they have been required in my district, I have the honor to state I have frequently requested both contractors, Hil-endegen and Kolb, to construct walks where necessary, and that they have in almost every instance neglected to comply with my request, on the grounds that they were unable to get the proper lumber, because the roads had been so bad; but as the roads were now in good condition they would endeavor to lay the walks as fast as possible.

Very respectfully,
W. BONNINGHAUSEN,
Street Commissioner Eastern District.

In connection with the above your committee respectfully refer to their former report on the subject, and beg leave to report adverse to the adoption of the resolution.

ORDINANCES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ordinances, to whom was recommitted the ordinance granting the Detroit City Railway Company the privilege to lay an additional track on Jefferson avenue, have given the subject mature deliberation, and have arrived at the following conclusions: In giving franchises to street railroad companies the city should observe two considerations, viz.: the rights of the city at large and the rights of individuals owning property on the streets through which said railways pass. Now in the case of the Jefferson Avenue Railway said company have a single track under a more liberal franchise than that enjoyed by any other in the city. An additional track occupies an additional portion of the street used, and virtually makes two roads on the same street. In justice to its own interest, and for the protection of citizens on the street, the city in yielding this new franchise should do it under the conditions and restrictions imposed upon other street railroads of the city. Your committee are of the opinion that the city may properly grant to the Detroit City Railway Company the right to construct said additional track, under the provision that said company shall pave, repave and keep in repair the portion of the street occupied by said railroads, and the usual two feet and nine inches outside of the outer rails of said track. In conformation of these views your committee will submit the proper ordinance at the next session, believing it will conserve the best interests of this city we represent, and do justice to the company asking the franchise.

Respectfully, etc.,
GEO. W. HOUGH,
JAMES DALY,
ALBERT BOTSFORD.

AN ORDINANCE Authorizing the "Detroit and Grand Trunk Junction Street Railway" to construct and operate its railroad.

It is hereby ordained by the Common Council of Detroit:

SECTION 1. Consent, permission and authority are hereby given and granted to the "Detroit and Grand Trunk Junction Street Railway," a corporation organized under the laws of the State of Michigan in regard to street railway companies, to construct and operate its railway from Mt. Elliott avenue through Congress, Larned, Randolph streets, and Joseph Campau avenue, Seventh, Baker and Twenty-fourth streets and the Dix road to the westerly limits of the city. A diagram of the route of said railway, within two months from the passage hereof, shall be filed with the City Clerk and Surveyor. *Provided*, That should any part of the territory west of the city limits and through which the track of said road shall be laid be added to the corporation, then the rights hereby granted shall include and cover so much of the said track as shall be in such territory, and be subject to all the provisions and conditions of this ordinance.

SEC. 2. Said company is authorized to lay, use and maintain a single track, with necessary and convenient turnouts, sidetracks and switches in and along the course of the streets mentioned in the preceding section, except on Congress and Larned streets above Randolph, which shall be a single track only, and operate thereon street railway cars during the term hereinafter prescribed subject to all the conditions and restrictions of this ordinance.

Such track shall be laid with the inside of each rail two feet four and one fourth inches from the center of the street. Said rails shall be of the same style and shape as those now in use by the city street railways, and shall be laid four feet eight and one-eighth inches apart, with the upper surface of the rail flush with the surface of the street, and in such a manner as not to interfere with ordinary travel, and particularly of wheeled vehicles, and shall conform to the grade of the streets as existing or hereafter altered.

SEC. 3. If it shall become necessary to relay said rails, the same shall be done at the expense of the grantee, and in all streets or parts of streets which are not paved the rails shall be laid in such manner as shall least interfere with the public travel thereon, and as shall be authorized and approved by the Common Council. The grantee and its assigns shall keep the surface of the streets, from curb to curb, in good order and repair, and all snow, ice, dirt and filth cleaned and removed from such portion of the streets at the expense of the grantee, in such a manner as not to obstruct travel in any part of the street. And said company shall fully indemnify and save harmless the city from any and all claims and damages for which it might be made or become liable to pay by reason of the construction, making or operating of said railway, or the giving and allowing of the license, right and privileges hereby granted.

SEC. 4. Said railway shall be laid down subject to the right of the city, or of any gas company, or the Water or Sewer Commissioners to lay down, take up, change or remove any works of any kind on or beneath the surface of the streets without any claim for damages on the part of said railway.

SEC. 5. The cars to be used on said railway shall be run and drawn by animals only, at a speed not exceeding six miles an hour, and as often as the Common Council shall by resolution prescribe. The cars and carriages used by said grantee shall be of the best style in use on street railways in the city of Detroit, and they shall not be used for any other purpose than to transport passengers and their ordinary baggage. *Provided*, That other cars may be used for cleaning said railway track from obstructions by snow or otherwise.

SEC. 6. The trains on said railway shall at all times be entitled to the track, and vehicles on the track shall turn out when any car comes up, so as to leave the track unobstructed, and the driver of any vehicle refusing so to do, shall be liable to a fine as provided in section 16 of this ordinance.

SEC. 7. Cars drawn in the same direction shall not approach each other within a distance of one hundred feet, except in cases of accident, or at stations, or for the purpose of connecting cars together. All cars used upon said railroad after sunset shall be provided with signal lights, red in front and green in rear.

SEC. 8. No car, or the horses thereto attached, shall be allowed to stop on a crosswalk, or in front of any intersecting street, except to avoid collisions and to prevent danger to persons or property in the street, and conductors shall not allow any person to enter or leave the cars while in motion. Nor shall any car be allowed to remain or stop at the intersection of any street so as to obstruct the free and ordinary use of it. When any car is required to be stopped at the intersection of any street to receive or leave passengers it shall be so stopped as to leave the rear platform slightly over the crossing.

SEC. 9. The grantee and its assigns shall employ careful, sober and prudent agents, conductors and drivers to take charge of the cars while on the road, and it shall be the duty of all such agents, conductors and drivers to keep vigilant watch for all trains, carriages and persons on foot, especially children, either upon the track or moving toward it. At the first appearance of danger to such teams, carriages, footmen, children or other obstructions, the cars shall be stopped in the shortest time and space possible, and notice bells shall be attached to all horses drawing such cars. Conductors shall announce to the passengers the names of the principal squares and streets as the cars reach them; and all cars shall be required to come to a full stop before coming to the Michigan Central Railroad crossing.

SEC. 10. If hereafter the pavement on said streets, or on any street occupied by said company, shall be extended, or any such street shall be ordered repaved, the said grantee shall contemporaneously with the paving or repaving of said streets, at its own expense, excavate, grade, and pave or repave, with the same material, or with material and in a manner satisfactory to the Common Council, all the portion of the street or streets which lies within their track or any switches or turn-outs placed by them, and two feet nine inches on either side thereof, such expenses to include the cost of paving, repaving, grading, excavating, removing of earth, and all expenses necessary for paving or repaving the street to the extent above specified, and at all times keep or cause to be kept in good order or repair such pavement within said track and distance on either side thereof.

SEC. 11. Said railway shall provide and keep in repair at all times such substantial and permanent approaches to its track at all street crossings on all streets not paved, that teams, vehicles and persons on foot will be enabled to cross the track conveniently at all times.

SEC. 12. Passengers conveyed upon said railway in said city shall be charged no more than five cents for any distance. The said grantee and its assign shall pay to the Treasurer of the city of Detroit annually $25 on each and every two-horse car, and $12 50 on each and every one-horse car owned by said grantee or assign, excepting only those cars used expressly for constructing, repairing and cleaning the track of said

road, to be collected as a license fee for the use of the city, after said track shall be laid the length of one mile. And the secretary of said grantees shall, on the first Monday of July of each and every year during the life of this ordinance, make and deliver to the Treasurer of the city of Detroit a statement of the gross earnings of said Detroit and Grand Trunk Junction Street Railway, the same to be signed and sworn to by said secretary, and the said grantees and their assignees shall pay to the treasurer of the city of Detroit annually a special tax on gross earnings of said street railway as follows: The first five years from the acceptance of this ordinance to be free; the second five years one per cent, and for the balance of the life of the ordinance three per cent."

SEC. 13. It is hereby reserved to the Common Council of the city of Detroit the right to make amendments to this grant and ordinance, and such further rules, orders, or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accommodation of the city and public in relation to said railway.

SEC. 14. This ordinance shall be void and of no effect unless the grantee shall, within one month from the date of the approval thereof, notify the Common Council in writing of its acceptance of and its agreement to the provisions of this ordinance and shall, within two months thereafter, commence the work of constructing and building said railway, and complete the same as soon as the public necessity requires it, and the Common Council shall be the judge of such necessity.

SEC. 15. The powers and privileges conferred by the provisions of this ordinance shall be limited to thirty years from and after its passage.

SEC. 16. Any wilful violation of, or failure to comply with, the provisions of this ordinance by said Detroit and Grand Trunk Junction Street Railway, or by any agent, conductor, driver, or any person in the employ of said grantee, or if the driver of any vehicle shall refuse to turn out as required by section 6, the same shall be punished by a fine not to exceed one hundred dollars and costs, and in the imposition of any such fine and costs the court may make a further sentence that the offender, except the grantee, be committed to the county jail or to the Detroit House of Correction, until the payment thereof, for any period of time not exceeding six months.

SEC. 17. An ordinance authorizing the "Grand Trunk Junction Street Railway" to construct and operate its railroad is hereby repealed.

Passed, notwithstanding the veto of the Mayor, by the following vote:

Nays—Ald. Botsford, Broeg, Christian, Daly, Flower, Garrison, Hough, Lichtenberg, O'Keefe, Ruehle, Stange, and the President *pro tem.*—12.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of J. Dick, for permission to erect a wooden building 10 by 30 feet, and two stories in height, adjoining his brick shop, on the corner of State street and Park Place, respectfully report that they have given the matter a careful investigation, and find that there is now a vacant space of 14 feet between the brick shop and a two story dwelling north of it. He proposes to build up 10 feet of this space with wood, thus leaving but four feet between the new building and the dwelling-house, the lower story to be used as a store house for buggies, etc., the upper story as a paint shop. Your committee believe that the fire risk would be very largely increased by the erection of said building, and consequently report against granting the prayer of the petitioner.

Respectfully submitted,

M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Dr. Casper Schulte, for permission to repair and raise the roof of a wooden shed on the alley between Croghan and Lafayette streets, near St. Antoine, respectfully report that both sides of the alley in that vicinity is closely built up with wooden barns and sheds, and consequently, your committee believe, any increase in the size or number would correspondingly increase the fire risk. Your committee, therefore, feel it their duty to report adverse to the prayer of the petitioner.

Respectfully submitted

M. P. CHRISTIAN.
A. O'KEEFE,
D. DULLEA.

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of James Cuddy, asking to be relieved from all blame for the damages done to the paving at the crossing of Ninth and Grand River avenues, would respectfully report that on examining the above locality we find that north of Grand River avenue, from Seventh to Twelfth streets and from the Grand Trunk Railway, the water is brought down to Ninth avenue, and that about the beginning of October, 1872, there was a very heavy rain-storm, the water running from the above described districts to Ninth avenue; and there being no way for the water to get away it overflowed the paving, which caused the damage complained of. At the time of the storm the sewer was not within 800 feet of Grand River avenue, and the contractor was charged with taking up the culverts on the cross-street and filling the ditch with earth, thereby stopping the water. Upon inquiry we find this was done by the Supervisor of the Ninth Ward, and, as he stated, by order of the Aldermen of the Ninth Ward. We find that the paving at that place is almost level from curb to curb for more than 150 feet, and when a rain-storm comes there is not sufficient fall to carry off the water into the receiving basins, which was the case last spring after a heavy storm, when the paving in the gutter and the wooden curb were taken up to let the water into the receiving basin. In view of the above facts we exonerate Mr. Cuddy from all blame for damages done to said paving. We therefore beg leave to offer the following resolution:

F. KUEHLE,
C. M. WELCH,
D. SHANAHAN.

Resolved, That the City Surveyor be, and he is hereby directed to ascertain the expense of repaving over the excavation of the sewer at the intersection of Ninth and Grand River avenues, and the Sewer Commissioners are hereby directed to retain such sum from the final estimate, for the construction of said sewer, and pay the same into the General Road Fund.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The undersigned, Aldermen of the Second Ward, to whom was referred the petition of Miss Emily Campau, asking that a certain alley situated in rear of lot 104, west side of Griswold street, be vacated, have carefully examined into the matter, and find that the alley in question is of great use and value to all adjoining property, the owners of which earnestly protest against any such proceeding.

Therefore, in justice to all concerned, we beg leave to report adversely to the prayer of the petitioner.

Adopted.

By Ald. Botsford:

Whereas, The Board of Water Commissioners have requested this Council to authorize said board to issue bonds to the amount of $1,000,000 for the enlargement of the water works; and,

Whereas, The said board, in their last annual report, raised the question of a removal of the works to and beyond the upper limits of the city, but did not then, and have not since, actually announced their intention of effecting such removal; and,

Whereas, The great importance to our whole city of the whole question involved in this suggested removal, and the large amount of indebtedness that the Council is asked to create, calls for the maturest consideration and the fullest investigation in order that the public interest shall in no-wise suffer; therefore,

Resolved, That the Common Council request the Board of Water Commissioners to submit to said Council a report setting forth the following facts, viz:

1. Whether a removal of the water works from their present location is contemplated by said board?

2. If so, at what point to the board recommend that the works shall be newly located?

3. What are the reasons that, in the judgment of said board render such removal an imperative necessity?

4. What is the estimated cost of such removal, with the details of the expense to be incurred, as also of the proposed enlargement?

5. What necessity exists for asking immediate permission to issue the entire $1,000,000 of bonds, instead of their issue from time to time in the progress of the work of removal or enlargement?

REPORTS OF COMMITTEES.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred with power the petition of Vigor Bros. and others, asking that the paving on Atwater street be completed forthwith; also the communication of the Detroit Ironing and Paving Company, asking that they be allowed to use a certain quarry stone imported from Canada in the completion of said Atwater treet pavement, have had the matter under consideration, and do not feel justified in authorizing the contractors to proceed on with their work in laying a different kind and quality of stone than that already laid and specified in their contract for paving said Atwater street. As your committee have some doubt as to whether such a proceeding would not invalidate the contract but as public necessity urgently requires the speedy completion of the afore-said pavement, ample time having been allowed, the contractors should be required to complete the same within the time specified and in strict accordance with the conditions of their contracts.

Respectfully submitted,
C. M. WELCH,
D. SHANAHAN.

Accepted and Adopted.

TAXES.

To the Honorable the Common Council:
